unconventional warfare any time any place anywhere **Operation Thursday** U. S. Military, Department of Defense, U. S. Air Force (USAF), U. S. Government, 2018-04-19 This Air Force publication provides a detailed history of Operation Thursday a bold unconventional use of American air power to support British ground troops in Burma during World War II It marked a critical development in the history of modern warfare On March 5 6 1944 the Allies conducted an air invasion of Burma in an attempt to push back the Japanese in the China Burma India Theater and reestablish the land route between India and China U S airmen formed a special operations unit the 1st Air Commando Group to transport troops to jungle locations and resupply them often in the line of fire The remarkable success of this operation lives on fifty years later among the elite 1st Air Commando Group a force committed to meeting the challenge of unconventional warfare any time any place anywhere After Pearl Harbor the devastating blow against the U S Fleet in Hawaii Imperial Japanese forces quickly overran much of the Far East Guam Hong Kong Malaya the Philippines Thailand Wake Island French Indochina and the Dutch East Indies all succumbed to the Japanese onslaught Meanwhile American forces were busy preparing for a protracted war on two fronts and the British were struggling against Hitler s aggressive air campaign With the Allies thus diverted Japan s rapid conquests gave the resource poor nation access to the rubber oil tin rice and other raw materials needed to fuel the Imperial war machine Allied hopes for stopping the enemy advance in Asia were pinned on Burma a country of jungles and mountain ranges strategically located between India and China By 1941 the Japanese had nearly cut China off from the rest of the world The meager Chinese resistance was being supplied via the Burma Road that extended from India through Burma to the town of Kunming China If Japanese forces could occupy Burma they could seal off China and release their troops for other operations on the continent Burma would then become a staging area into India the jewel of the British empire Burma itself was valuable as rice bowl capable of producing eight million tons of rice per year food badly needed by the already overextended Imperial Army In the grand strategy a Japanese controlled Burma would also shield the newly organized Far East Territories from the Allied advance Burma s terrain and climate limited the military operations of both the invaders and defenders Steep mountain ranges and river valleys alternated north and south Only few trails through the hills connected Burma with India and Thailand and most commerce went through the port of Rangoon on the Irrawaddy delta Monsoon rains created logistical nightmares Annual rainfall varied from 200 inches in the Rangoon area to 100 inches in the hills and up to 45 inches in the northcentral dry zone Military forces avoided the monsoon rains mid May to late October restricting their operations to the dry season In the tropical climate malaria and other diseases could also bring operations to a standstill Almost everything the Air Commandos did was an important First First air unit designed to support a ground unit First composite air unit First air unit employed with total autonomy First aerial invasion into enemy territory First nighttime heavy glider assault landing First night combat glider recovery First glider airlift of large animals First major employment of light airplanes in combat First air unit to employ helicopters First rescue by combat helicopter First firing of rockets from aircraft

in combat **Operation THURSDAY** Herbert A. Mason,1994 **Special Ops** Orr Kelly,2017-08-08 Four military histories from a writer whose fine work should be of great interest both to casual readers and to uniformed students of special ops Publishers Weekly An expert in military affairs Orr Kelly reveals the cutting edge technology and jaw dropping courage of the US military s elite forces on land sea and air Brave Men Dark Waters Originating in World War II as Underwater Demolition Teams the Navy SEALs are the best of the best in the armed forces known for their toughness and fearlessness and their remarkable ability to get the job any job done Facing America s enemies across the globe these modern warriors were the first to enter the fight in Vietnam Panama Grenada and Iraq Brave Men Dark Waters is the most complete in depth study of this fabled elite unit Library Journal Never Fight Fair Here in their own words are the true accounts of the US Navy SEALs from their formation in World War II to the jungles of Vietnam to the deserts of Iraq In this riveting oral history these brave men speak openly about their training and their missions offering the uncensored inspiring and sometimes shocking truth about their combat triumphs and their rare but devastating failures Hornet Born in 1978 the McDonnell Douglas F A 18 Hornet has forever changed the way America s wars are fought This is the fascinating true story of the controversial development and deployment of the state of the art supersonic fighter and attack aircraft with a top speed of more than one thousand miles per hour Kelly details how Hornet came to be how it was nearly doomed by an unprecedented political battle and how it has served ably in combat from its first mission in Libya to Operation Desert Storm and well beyond From a Dark Sky Very little is known about US Air Force Special Operations yet their exploits have been as daring and their achievements as remarkable as anything accomplished by their brother warriors Since World War II these ultrasecretive air commandos have routinely performed the nearly impossible from providing air support for partisans in Nazi occupied France to participating in clandestine CIA operations in Vietnam and Cambodia to secretly inserting covert operatives into North Korea From a Dark Sky is a well conceived and well executed well deserved tribute to an uncommonly fine body of American warriors Booklist *Usaf Air Commando Secret Wars from Laos to Latin America* Eugene D. Rossel,2016-07-15 The Air Commando secret wars happened mostly during the Vietnam War time frame and was a global effort involving USAF volunteer personnel who were given official military orders that did not necessarily specify the country they served in and civilian clothes were many times authorized Later they had great difficulty proving that they served in many of these countries which affected their future VA care These operations were used to strengthen normally a poor country with little military resources and training with secret warriors frequently being there doing some of their legwork behind the scenes All the operations were tight lipped frequently forbidden to tell families where you were and what you were doing As an example Capt Bob Simpsons death the first fighter pilot KIA in Vietnam in August 1962 became a total fabrication of where why and how and took a number of years before the government came clean because of my efforts Secret wars have a long history and they will continue because of the interest of more powerful nations with their less fortunate brethren **Air**

Commandos Against Japan Carolyn C Y'Blood, 2008-10-01 In 1943 the U S Army Air Forces created what would become the Air Commandos a unit that marked a milestone in tactical operations in support of British ground forces invading Burma William T Y Blood tells the story of how these daring American aviators trained and went into combat using unconventional hit and run tactics to confuse the enemy and destroy their lines of communication and supply The force comprised light planes to evacuate wounded transports to move heavy cargo fighters gliders helicopters and more than five hundred men The book describes how this top secret force successfully attacked the enemy from the air resupplied British commandos on the ground and airlifted the wounded out of the battle area eventually driving the Japanese out of Burma
