Philippine Bases U S Security At Risk:

The Philippine Bases Anthony James Gregor, Virgilio Aganon, 1987 **A Search for Enemies** Ted Galen Carpenter, 1992

The passing of the Cold War is the most important development of the late 20th century yet the United States clings tenaciously to old policies Both the Bush administration and Democratic leaders have insisted on perpetuating a host of obsolete alliances including NATO and the alliance with Japan which cost American taxpayers nearly 150 billion a year Ted Galen Carpenter director of foreign policy studies at the Cato Institute offers a provocative critique of that status quo strategy Although Washington's outdated alliances have no real adversary or credible mission Carpenter says they hold the potential to embroil the United States in obscure conflicts ethnic and otherwise that have little relevance to America's legitimate security concerns As an alternative he proposes strategic independence under which the United States would act only to defend vital interests the republic's physical integrity political independence or domestic liberty Carpenter calls for the foreign policy equivalent of zero based budgeting insisting that because of the dramatic changes in the world caused by the collapse of the Soviet Union all alliances must be justified anew regardless of any utility they may have had during the Cold War He places under the microscope America's multilateral treaty obligations to defend other nations NATO ANZUS which links the United States Australia and New Zealand and the Rio Treaty which provides a collective defense arrangement for the Western Hemisphere He also examines four important bilateral security agreements with Japan South Korea the Philippines and Pakistan This is the book on a new foreign policy for the United States **Historical Dictionary of the Philippines** Artemio R. Guillermo, 2012 The Historical Dictionary of the Philippines Third Edition contains a chronology an introductory essay an extensive bibliography and several hundred cross referenced dictionary entries **American Defense Annual, 1988-1989** Joseph J. Kruzel, 1988-06 **Worldwide Military Threats** Robert Svoboda, 1992-07

Military Law Review, 1992 *Essays on Strategy* Thomas C. Gill, 1996-06 Addresses the need for a shift in emphasis within the U S intelligence community away from purely defense related matters toward increasingly more important issues of international economics and commerce Examines aspects of the changing international environment Included essays intelligence and economic security new open skies proposal U S Panama relations after Noriega closing U S bases in the Philippines concepts of man and public policy **The Contested State** Amy Blitz, 2023-02-15 From the author's first hand account of the battle for democracy in the Philippines comes *The Contested State* an inquiry into the international causes and consequences of regime change Regime change tends to occur in waves from the authoritarian transitions of the 1930s to the democratic transitions of the late 1980s and 1990s to the rise of authoritarianism again today But why To help answer this increasingly urgent question the author examines a series of regime transitions in the Philippines over time The book identifies structural inequality as a root cause of civil conflict which can in turn lead to proxy wars as transnational revolutionary authoritarian and democratic forces vie for control of the state Tracing the battle for control of the Philippines

back to the Spanish era through the US era and beyond The Contested State presents a historical transnational picture of regime change through time offering insights into the broader transnational issues threatening democracy today **The U.S.-South Korean Alliance** Doug Bandow, Ted Galen Carpenter, 1992-01-01 The inconclusive outcome of the Korean War left a peninsula divided between two nations engaged in a deadly cold war An important aspect of the continuing hostilities was America's security guarantee to South Korea Despite enormous geopolitical changes brought by the accelerating collapse of communism the United States has a standing pledge to go to war if necessary to thwart a North Korean attack This volume assesses the current and future viability of the U S South Korean alliance from military political and economic perspectives *Changes in China* Shao Chuan Leng, 1989 Under Deng Xiaoping's dynamic leadership the People's Republic of China has embarked on a highly significant and ambitious modernization drive resulting in various political economic and social changes It is to the nature and extent of the reform program that the book addresses itself There is general consensus among the authors that important changes are taking place in Deng's China that affect various segments of the society Most authors seem to believe that although beset with problems and difficulties current reforms and changes are likely to be continued and expanded in the years ahead Contents include The Modernization of China 19th and 20th Century Comparisons and Contrasts Does the CCP have a Line Reform Succession and the Resurgence of China's Old Guard China's Future Leaders The Third Echelon Cadres Students Intellectuals and Political Reform in Mainland China Habits of the Heart Intellectual Assumptions Reflected by Chinese Reformers from Tuo to Fang Lizhi China's Economic Reform at the Crossroads The Limits of Economic Change Lessons from Mainland China Changing Status of Women in the PRC New Trends in Marriage and Family in Mainland China Impacts from the Four Modernizations Campaign Military Modernization and Defense Policy in the People's Republic of China Deng Xiaoping and Modernization of the Chinese Military Change and Continuity in Contemporary PRC Foreign Policy Implications for the United States and Recent Legal Issues Between the United States and the People's Republic of China Co published with the Miller Center for Public Affairs Collective Defense Or Strategic Independence? Ted Galen Carpenter, 1989 *A Rocky Mountain Sailor In Teddy Roosevelt's Navy* Rodney G. Tomlinson, 2019-03-13 An avid reader of naval history since my father's service in World War II I had been struck by the marked contrast between the touching personal depictions of WW II photo journalism and the dearth of portrayals of sailors as persons not just undefined elements of crews Frederick Harrod would observe Enlisted personnel are the forgotten men of naval history 1 As a youngster I witnessed the first two years of World War II by hanging around recruits at the Naval Training Station San Diego California While commissioned a line officer my father proved too old for front line duty so he was assigned to the legal staff as station deputy Provost Marshall a position suited to his civilian profession of lawyer and US commissioner for Santa Barbara and Ventura Counties California **Activists, Alliances, and Anti-U.S. Base Protests** Andrew Yeo, 2011-06-13 Anti U S base protests played out in parliaments and the streets of host nations continue to arise in

different parts of the world In a novel approach this book examines the impact of anti base movements and the important role bilateral alliance relationships play in shaping movement outcomes The author explains not only when and how anti base movements matter but also how host governments balance between domestic and international pressure on base related issues Drawing on interviews with activists politicians policy makers and U S base officials in the Philippines Japan Okinawa Ecuador Italy and South Korea the author finds that the security and foreign policy ideas held by host government elites act as a political opportunity or barrier for anti base movements influencing their ability to challenge overseas U S basing policies

Bases Abroad Robert E. Harkavy, 1989 Analyzing the modern status of military bases and the diplomacy that defines their location and access this book explores the global basing networks of the world's major military powers their type location and the politics and economics of their acquisition It provides data on armaments intelligence communications research and space facilities tables and maps that display U S and Soviet global networks and the various military roles and nuclear deterrence capabilities for global power projection and support of client states in the Third World Harkavy also discusses emerging political and technological developments that could alter basing diplomacy

United States-Philippines Relations and the New Base and Aid Agreement United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Asian and Pacific Affairs, 1983

China's Rise - Threat or Opportunity? Herbert S. Yee, 2010-10-15 The phenomenal growth of Chinese economic and military power in the first decade of the 21st century has drawn world wide attention Perceptions of China's rise have shifted from seeing China as a threat to a more mixed view where China is seen as playing a key role in economic recovery taking an increasingly responsible role in world affairs and contributing significantly to scientific and technological advances This book argues that China will only become a truly global power when its rising power status is accepted or at least tolerated by other major powers and China's neighbours Filling a major gap in the existing literature it presents a comprehensive overview of how China's rise is perceived in a wide range of countries and regions these include China's neighbours other world powers the parts of China not part of mainland China Taiwan Hong Kong and Macau and regions of the world where China is having an unexpected impact such as the Middle East It also examines changing perceptions of China in the western media Overall the book demonstrates that whilst many countries and regions are much more positive about China's rise than they were before considerable nervousness and concern persists
