The Rhythm of Sterility and Fertility in Women Leo John Latz,1939 *Signs of Fertility* Margaret Nofziger,1998

Birth Control United States. Congress. House. Committee on the Judiciary,1934 Committee Serial No 2 *The Selected Papers of Margaret Sanger, Volume 4* Margaret Sanger,2016-10-01 When Margaret Sanger returned to Europe in 1920 World War I had altered the social landscape as dramatically as it had the map of Europe Population concerns sexuality venereal disease and contraceptive use had entered public discussion and Sanger's birth control message found receptive audiences around the world This volume focuses on Sanger from her groundbreaking overseas advocacy during the interwar years through her postwar role in creating the International Planned Parenthood Federation The documents reconstruct Sanger's dramatic birth control advocacy tours through early 1920s Germany Japan and China in the midst of significant government and religious opposition to her ideas They also trace her tireless efforts to build a global movement through international conferences and tours Letters journal entries writings and other records reveal Sanger's contentious dealings with other activists her correspondence with the likes of Albert Einstein and Eleanor Roosevelt and Sanger's own dramatic evolution from gritty grassroots activist to postwar power broker and diplomat A powerful documentary history of a transformative twentieth century figure The *Selected Papers of Margaret Sanger Volume 4* is a primer for the debates on individual choice sex education and planned parenthood that remain all too pertinent in our own time *Humanae Vitae, 50 Years Later* Theresa Notare,2019-06-28 In the life of the Catholic Church the papal encyclical *Humanae vitae* represents a deepening of understanding regarding the nature of married love and the transmission of life Despite fifty years 1968 2018 since its promulgation many Catholics have yet to discover the treasure of these rich teachings This volume therefore seeks to elucidate the encyclical's reaffirmation of the divine plan It does this in a unique way by providing essays from experts of various disciplines that include history theology science medicine law and governmental policy The occasion of the fiftieth anniversary of *Humanae vitae* offers a teaching moment In this compendium experts representing a variety of disciplines including history culture theology medicine law and psychology present their reflections upon God's divine plan as described in *Humanae vitae* The authors first presented this work in an abbreviated form at a symposium held at The Catholic University of America April 4 6 2018 Here their presentations are substantively developed and hopefully will encourage further scholarly work Ultimately their purpose is to help the reader arrive at a more positive understanding of the teachings found in *Humanae vitae* Although designed for the educated reader the essays presume that when the teachings of *Humanae vitae* are embraced by men and women they can contribute to the healing of the wounds of a world broken by sin but redeemed by Christ Hearings United States. Gallagher,David I. Kertzer,Alberto Melloni,2012 The Vatican s opening of its archives in 2006 for the period of the papacy of Pius XI 1922 1939 has prompted a burst of historical research which is not only shedding new light on the role of the Holy See and the Church in this period of extraordinary political and social turmoil but also on some of the major world events of this period In 2008 a number of institutions created a research network bringing together scholars from different countries who are working in these archives and highlighting its emerging work to the broader scholarly community This book represents the proceedings from a conference of this research network held in Providence Rhode Island at the Brown University in October 2010 Series Christianity and History Series of the John XXIII Foundation for Religious Studies in Bologna Vol 11 As the essays reveal such a historic decision will impact the way that scholars interpret modern church history for years to come Yet as coeditor Charles Gallagher S J reminds us in his introduction the opening will also allow scholars to uncover a history which is not only papal but political cultural economic and global p 17 The Catholic Historical Review Vol 100 No 2 Spring 2014 *Respectably Catholic and Scientific* Alexander Pavuk,2021-09-24 Respectfully Catholic and Scientific traces the unexpected manner in which several influential liberal progressive Catholics tried to shape how evolution and birth control were framed and debated in the public square in the era between the World Wars and the unintended consequences of their efforts A small but influential cadre of Catholic priests professionally trained in social sciences Frs John Montgomery Cooper John A Ryan and John A O Brien gained a hearing from mainline public intellectuals largely by engaging in dialogue on these topics using the lingua franca of the age science to the near exclusion of religious argumentation The Catholics approach was more than just tactical It also derived from the subtle influence of Catholic theological Modernism with its strong enthusiasm for science and from an inclination toward scientism inherited from the

Progressive Era's social science milieu All three shared a fervent desire to translate the Catholic ethos as they understood it into the vocabulary of the modern age while circumventing anti Catholic attitudes in the process However their method resulted in a series of unintended consequences whereby their arguments were not infrequently co-opted and used against both them and the institutional church they served Alexander Pavuk considers the complex role of both liberal religious figures and scientific elites in evolution and birth control discourse and how each contributed in unexpected ways to the reconstruction of those topics in public culture The reconstruction saw the topics themselves shift from matters considered largely within moral frameworks into bodies of knowledge

The American Ecclesiastical Review Herman Joseph Heuser, 1949

Catholics and Contraception Leslie Woodcock Tentler, 2004 Catholics and contraception examines the intimate dilemmas of pastoral counseling in matters of sexual conduct Tentler makes clear that uneasy negotiations were always necessary between clerical and lay authority As the Catholic Church found itself isolated in its strictures against contraception and the object of damaging rhetoric in the public debate over legal birth control support of the Church's teachings on contraception became a mark of Catholic identity for better and for worse

Natural Alan Levinovitz, 2020-04-07 Illuminates the far reaching harms of believing that natural means good from misinformation about health choices to justifications for sexism racism and flawed economic policies People love what's natural it's the best way to eat the best way to parent even the best way to act naturally just as nature intended Appeals to the wisdom of nature are among the most powerful arguments in the history of human thought Yet Nature with a capital N and natural goodness are not objective or scientific In this groundbreaking book scholar of religion Alan Levinovitz demonstrates that these beliefs are actually religious and highlights the many dangers of substituting simple myths for complicated realities It may not seem like a problem when it comes to paying a premium for organic food But what about condemnations of unnatural sexual activity The guilt that attends not having a natural birth Economic deregulation justified by the inherent goodness of natural markets In *Natural* readers embark on an epic journey from Peruvian rainforests to the backcountry in Yellowstone Park from a natural bodybuilding competition to a natural cancer curing clinic The result is an essential new perspective that shatters faith in Nature's goodness and points to a better alternative We can love nature without worshipping it and we can work toward a better world with humility and dialogue rather than taboos and zealotry

Margaret Sanger Jean H. Baker, 2011-11-08 Undoubtedly the most influential advocate for birth control even before the term existed Margaret Sanger ignited a movement that has shaped our society to this day Her views on reproductive rights have made her a frequent target of conservatives and so called family values activists Yet lately even progressives have shied away from her citing socialist leanings and a purported belief in eugenics as a blight on her accomplishments In this captivating new biography the renowned feminist historian Jean H Baker rescues Sanger from such critiques and restores her to the vaunted place in history she once held Trained as a nurse and midwife in the gritty tenements of New York's Lower East Side Sanger grew increasingly aware of the dangers of unplanned pregnancy both physical and psychological A botched abortion resulting in the death of a poor young mother catalyzed Sanger and she quickly became one of the loudest voices in favor of sex education and contraception The movement she started spread across the country eventually becoming a vast international organization with her as its spokeswoman Sanger's staunch advocacy for women's privacy and freedom extended to her personal life as well After becoming a wife and mother at a relatively early age she abandoned the trappings of home and family for a globe trotting life as a women's rights activist Notorious for the sheer number of her romantic entanglements Sanger epitomized the type of free love that would become mainstream only at the very end of her life That she lived long enough to see the creation of the birth control pill which finally made planned pregnancy a reality is only fitting Birth control United States. Congress. House. Committee on the judiciary, 1934 **Population Sciences**, 1979 The index is based on citations selected from the corresponding monthly issue of Index medicus Woman of Valor Ellen Chesler, 2007-10-16 This illuminating biography of Margaret Sanger the woman who fought for birth control in America describes her childhood her private life her relationships with Emma Goldman and John Reed her public role and more Margaret Sanger went to jail in 1917 for distributing contraceptives to immigrant women in a makeshift clinic in Brooklyn She died a half century later just after the Supreme Court guaranteed constitutional protection for the use of contraceptives Now Ellen Chesler provides an authoritative and widely acclaimed biography of this great emancipator whose lifelong struggle helped women gain control over their own bodies An idealist who mastered practical politics Sanger seized on

contraception as the key to redistributing power to women in the bedroom the home and the community For fifty years she battled formidable opponents ranging from the US Government to the Catholic Church Her crusade was both passionate and paradoxical She was an advocate of female solidarity who often preferred the company of men an adoring mother who abandoned her children a socialist who became a registered Republican a sexual adventurer who remained an incurable romantic Her comrades in arms included Emma Goldman and John Reed her lovers Havelock Ellis and H G Wells Drawing on new information from archives and interviews Chesler illuminates Sanger s turbulent personal story as well as the history of the birth control movement An intimate biography of a visionary rebel Woman of Valor is also an epic story that extends from the radical movements of pre World War I to the family planning initiatives of the Great Society At a time when women s reproductive and sexual autonomy is once again under attack this landmark biography is indispensable reading for the generations in debt to Sanger for the freedoms they take for granted **The National Union Catalog, Pre-1956 Imprints**,1974 **American Ecclesiastical Review** Herman Joseph Heuser,1933
