Ribbons In Time Movies And Society Since 1945:

Ribbons in Time Paul Monaco, **Understanding Society, Culture, and Television** Paul Monaco, 2000-09-30 What is the real nature of television and what is its place in contemporary society and culture In a provocative rethinking of the medium and its ensuing effects this book argues that we have misunderstood television and have thus contributed to a distorted view of art and culture in the 20th century During the final quarter of this century both in academic and popular circles we have spread wildly exaggerated claims about television s undermining of human consciousness and behavior Television has become a scapegoat for all sorts of societal and cultural ills The arguments presented by many researchers on behalf of the ill effects of TV are fundamentally weak and flawed On the eve of the 21st century the claimed distinctions between high art and popular culture have become a final hopeless repository of pedantry Television can be understood only by viewing it as an art form and measuring its role in society and culture in concert with the first principles of human reason and liberty *The Films of the Eighties* William J. Palmer, 1995 In this remarkable sequel to his *Films of the Seventies* A Social History William J Palmer examines more than three hundred films as texts that represent revise parody comment upon and generate discussion about major events issues and social trends of the eighties Palmer defines the dialectic between film art and social history taking as his theoretical model the holograph of history that originated from the New Historicist theories of Hayden White and Dominick LaCapra Combining the interests and methodologies of social history and film criticism Palmer contends that film is a socially conscious interpreter and commentator upon the issues of contemporary social history In the eighties such issues included the war in Vietnam the preservation of the American farm terrorism nuclear holocaust changes in Soviet American relations neoconservative feminism and yuppies Among the films Palmer examines are *Platoon* *The Killing Fields* *The River Out of Africa* *Little Drummer Girl* *Kiss of the Spiderwoman* *Silkwood* *The Day After* *Red Dawn* *Moscow on the Hudson* *Troop Beverly Hills* and *Fatal Attraction* Utilizing the principles of New Historicism Palmer demonstrates that film can analyze and critique history as well as present it *The Lucas Effect: George Lucas and the New Hollywood* Patti J. McCarthy, 2014-10-25 A filmmaker visionary and entrepreneur George Lucas has not only changed the way we experience film and filmmaking but also revolutionized film industry practices and standards George Lucas on an economic aesthetic and cultural level has contributed more than any other individual to the shaping of the New Hollywood and is one of the most important figures in film history His contribution to the film industry and our culture can be defined as the Lucas Effect Until now Lucas work has been studied categorically That is popular books have been written that focus specifically on his life his marketing skills his films his fans or his various business accomplishments and practices This is the first book to weave these threads together into a cohesive rigorous study that illustrates the far reaching impact and importance of his creative genius This book is important not only for film academics students of film criticism and theory popular culture scholars and film devotees but also for industry power brokers Lucas fans and anyone

The American Village in a Global Setting Michael E. Connaughton,Suellen Rundquist,2009-03-26 In October 2005 a conference honoring the contributions of Sinclair Lewis to Midwest and American culture and celebrating the friendship between Sinclair Lewis and Ida K Compton was held at St Cloud State University in St Cloud Minnesota Sinclair Lewis would no doubt have been flattered and perhaps a bit surprised by the breadth of this conference in his honor The fact that scholars writers students and readers gathered to discuss his work and its broader influence would have pleased him He would have learned that readers still found stimulus for serious thought in his writing and that his works can serve as a springboard to discussion of today s societal issues some of which might surprise him considerably The papers selected from the conference entitled The American Village in a Global Setting consider elements of Lewis world through today s lens In Part I his version of community is compared to that documented in other ways including architecture and television Scholars address issues such as anti Semitism theocratic communities the Irish and outdoor life In Part II the concept of community is expanded to the visions of other authors including his contemporaries such as Martha Ostenso Josephine Donovan and Willa Cather as well as more recent writers In Part III today s social and cultural issues in America are addressed expressing the global and

interdisciplinary intent of the conference And last Part IV continues the global theme addressing international communities and pedagogical philosophies through film and literature

Yesterday Tobias Becker,2023-12-05 Nostalgia supposedly is the sphere of the sentimentalist But also and most definitely it is a force in the creation of the present and future and thus worth careful thought Yesterday argues that nostalgia s critics defend an idea of progress as naive as the longing they denounce while conflating nostalgia itself with historical whitewashing

The Lives of Others Annie Ring,2022-10-06 This study offers a fresh approach to the remarkable German film The Lives of Others 2006 known for its compelling representation of a Stasi surveillance officer and the moral and ethical turmoil that results when he begins spying on a playwright and his actress lover Annie Ring analyses the film s cinematography mise en scene and editing tracing connections with Hollywood movies such as Casablanca and Hitchcock s Torn Curtain in the film s portrayal of an individual rebelling against a brutal dehumanising regime Drawing on archival sources including primary research from the Stasi files themselves as well as Enlightenment philosophies of art and Brecht s theories on theatre dating from his GDR years she explores the film s strong but much disputed claims to historical authenticity She examines the way the film tracks the world changing political shift that took place at the end of the Cold War away from the collective dreams of socialism and towards the dreams of the private individual arguing that this is what makes it at once widely appealing and fascinatingly problematic In doing so she highlights why The Lives of Others is a crucial film for thinking at the horizon between film and recent world history

The Battle for the American Mind Carl J. Richard,2006-08 The Battle for the American Mind brings together religion politics economics science and literature to present a compelling history of the American people In this brief and entertaining book noted historian Carl J Richard argues that there have been three worldviews that have dominated American thought theism humanism and skepticism Theists put their faith in God humanists in man and skeptics have faith in neither god nor man Each worldview has had an epoch of domination leading to the present Age of Confusion where theists humanists and skeptics battle one another for control of American hearts and minds By clearly explaining what Americans believed exploring why they did so and showing how that impacted the nation s development Carl J Richard presents a unique portrait of the United States past and present

Roads to Dystopia Stanford M. Lyman,2001 If the postmodern condition is a dystopia characterized by alienation and despair argues distinguished sociologist Stanford Lyman postmodern epistemologies compound the problem by denigrating Enlightenment philosophies that still offer agency and hope to those who struggle to be free In this his sixth volume in the Studies in American Sociology series Lyman examines this contradiction as it has shaped American discourses on race and community asking why Gunnar Myrdal s American Dilemma is still unresolved how Chinese workers have fared in the labor movement and in labor history what searches for the lost tribes of Israel have meant socially and historically how cinema has offered metaphors for social action but presented failed utopias on screen and how we have not yet established a basic definition of the good life In each of these instances Lyman

seeks new routes in the quest for justice dimensional images of African Americans establishment rebels of 1969 s Easy Rider were morphing into the nostalgic yuppies of 1983 s The Big Chill Seventies movies brought us everything from killer sharks blaxploitation and disco musicals to a loving look at General George S Patton Indeed as Peter Lev persuasively argues in this book the films of the 1970s constitute a kind of conversation about what American society is and should be open diverse and egalitarian or stubbornly resistant to change Examining forty films thematically Lev explores the conflicting visions presented in films with the following kinds of subject matter Hippies Easy Rider Alice s Restaurant Cops The French Connection Dirty Harry Disasters and conspiracies Jaws Chinatown End of the Sixties Nashville The Big Chill Art Sex and Hollywood Last Tango in Paris Teens American Graffiti Animal House War Patton Apocalypse Now African Americans Shaft Superfly Feminisms An Unmarried Woman The China Syndrome Future visions Star Wars Blade Runner As accessible to ordinary moviegoers as to film scholars Lev s book is an essential companion to these familiar well loved movies

Friend Or Foe? Michael J. Strada, Harold Martin Troper, Harold R. Troper, 1997 During the nearly sixty years of filmmaking the always uneasy and often fractious Soviet American relationship has been mirrored in Hollywood s portrayal of Russians and the Soviet Union *Friend or Foe* examines the portrayal of the Soviet Union in American film and shows how these films reflect the attitudes of Americans as well as how each portrayal changed with the often uneasy relations between the two countries The authors show how films as rich repositories of national consciousness can be analyzed to reveal time bound insights into popular fears and obsessions History lovers and film buffs will appreciate the tongue in cheek approach to many of the absurdist films Scholars in history film studies and political science will find the depth and breadth of research useful A filmography bibliography and photographs further complement the study

Hollywood's America Stephen P Powers, 2018-02-19 American motion pictures still dominate the world market with an impact that is difficult to measure Their role in American culture has been a powerful one since the 1930s and is a hallmark of our culture today Though much has been written about the film industry there has been very little systematic attention paid to the ideology of its creative elite How does the outlook of that elite impact on the portrayals of America that appear on the screen How do their views interact with the demands of the market and the structure of the industry to determine the product that is seen by mass audiences *Hollywood s America* is a marvellously rich and careful discussion of these questions It combines a meticulous systematic content analysis of fifty years of top grossing films with a history of the changing structure of the industry To that mixture it adds an in depth survey of Hollywood s creative elite comparing them to other leadership groups The result is a balanced discussion of unique breadth and depth on a subject of national importance Placing the film industry in the context of American society as a whole the authors point out that Hollywood s creative leadership impacts the larger society even as it is influenced by that society The creators of films cannot remove themselves too far from the values of the audiences that

they serve. However, the fact that films are made by a relatively small number of people who, as the authors demonstrate, tend to share a common outlook means that over time motion pictures have had an undeniable impact on the beliefs, lifestyles, and action of Americans. This study contributes to the debate over the role and influence of those who create and distribute the products of mass culture in the United States. The book also contains a devastating critique of the poststructuralist theories that currently dominate academic film criticism, demonstrating how they fail in their attempt to explain the political significance of motion pictures.
