

Second Language Acquisition Theory

Acculturation Model

According to Zaker (2015), learning a second language (L2) is now believed to be a multi-faceted phenomenon which is affected by numerous factors, ranging from internal to social and cultural factors, and, consequently, many studies have highlighted the significant impact of culture on learning a second language. Accordingly, culture is now believed to be a major learning-affecting factor which, along with linguistic competence, facilitates the process of L2 learning.

Galloway(2003) defines cultures as "powerful human creations, affording their members a shared identity, a cohesive framework for selecting, constructing, and interpreting perceptions, and for assigning value and meaning in consistent fashion."

One famous longitudinal investigation was conducted by John H. Schumann during the fall of 1973, a research project was undertaken to make a ten-month longitudinal study of the untutored acquisition of English language by six native speakers of Spanish

Second Language Acquisition Barbara Snyder, 1986 Resources in Education , 1998 *Intensive vs. Extensive Approaches in Foreign Language Teaching* Carmen Neagu, 2023-01-22 The purpose of this theoretical and experimental paper is to clarify the influence of an extensive learning program on high school students language comprehension and attitude towards reading The experiment was administered throughout a school semester with a control group following the intensive approach and an experimental group subject to the extensive approach The intervention of the experiment was represented by the two teaching approaches extensive vs intensive whereas the measured outcome consisted in the learners changes in language proficiency and attitude towards reading Since both intensive and extensive approaches are necessary in order to prepare students for college tasks the senior high school period is an ideal moment to start introducing extensive language programs as a means of achieving and not substituting the communicative competence Furthermore the reading habit will outlast and accompany students as a lifelong second nature **Northeast Conference Reports** , 1993

Connecting Self-regulated Learning and Performance with Instruction Across High School Content Areas

Maria K. DiBenedetto, 2018-07-23 This book shows how principles of self regulated learning are being implemented in secondary classrooms The 14 chapters are theoretically driven and supported by empirical research and address all common high school content areas The book comprises 29 lesson plans in English language arts natural and physical sciences social studies mathematics foreign language art music health and physical education Additionally the chapters address students with special needs technology and homework Each chapter begins with one or more lesson plans written by master teachers followed by narratives explaining how the lesson plans were implemented The chapters conclude with an analysis written by expert researchers of the self regulated learning elements in the lessons Each lesson and each analysis incorporate relevant educational standards for that area Different types of high schools in several states serve as venues This powerful new book edited by Maria K DiBenedetto provides a unique and invaluable resource for both secondary teachers and researchers committed to supporting adolescents in the development of academic self regulation Each chapter is jointly written by teachers who provide a wealth of materials including lesson plans and researchers who situate these lesson plans and academic self regulation goals within the larger work on self regulation The topics covered are far broader than any other book I have seen in terms of developing academic self regulation covering over a dozen content areas including literacy mathematics social studies the sciences and the arts Teachers and scholars alike will find this book a must read Karen Harris EdD Arizona State University A practical and magnificent blend of educational research and application This book goes beyond presenting the findings of research on self regulation by connecting detailed strategies that align with the standards to the research DiBenedetto et al clearly illustrate how to develop self regulated learners in the classroom A refreshing must read for all secondary educators and educational researchers seeking to be well grounded in education research and

practical application techniques Heather Brookman PhD Fusion Academy Park Avenue Self regulated learning is a research based process by which teachers help students realize their own role in the learning process Connecting Self Regulated Learning and Performance with Instruction Across High School Content Areas consists of model teachers lessons and analyses by prominent educational psychologists in the field of self regulated learning The book provides teachers with the tools needed to increase students awareness of learning and inspires all educators to use self regulated learning to promote engagement motivation and achievement in their students The book also provides administrators with the principles needed to infuse evidenced based self regulated learning into their curriculum and instruction I highly recommend the book Marty Richburg Northside High School
