Politics in the Marketplace Katie Jarvis, 2018-12-18 One of the most dramatic images of the French Revolution is of Parisian market women sloshing through mud and dragging cannons as they marched on Versailles and returned with bread and the king These market women the Dames des Halles sold essential foodstuffs to the residents of the capital but equally important through their political and economic engagement held great revolutionary influence *Politics in the Marketplace* examines how the Dames des Halles invented notions of citizenship through everyday trade It innovatively interweaves the Dames' political activism and economic practices to reveal how marketplace actors shaped the nature of nascent democracy and capitalism through daily commerce While haggling over price controls fair taxes and acceptable currency the Dames and their clients negotiated tenuous economic and social contracts in tandem remaking longstanding Old Regime practices In this environment the Dames conceptualized a type of economic citizenship in which individuals' activities such as buying goods selling food or paying taxes positioned them within the body politic and enabled them to make claims on the state They insisted that their work as merchants served society and demanded that the state pass favorable regulations for them in return In addition they drew on their patriotic work as activists and their gendered work as republican mothers to compel the state to provide practical currency and assist indigent families Thus their notion of citizenship portrayed useful work rather than gender as the cornerstone of civic legitimacy In this original work Katie Jarvis challenges the interpretation that the Revolution launched an inherently masculine trajectory for citizenship and reexamines work gender and citizenship at the cusp of modern democracy

Secrets of September, **Taiwan Straits Standoff** Bruce A. Elleman, 2021-08-10

Following the Nationalist defeat on the mainland in 1949, Chiang Kai-shek and his followers retreated to Taiwan, forming the Republic of China (ROC). Tensions with the People's Republic of China (PRC) focused on control over a number of offshore islands, especially Quemoy, Jinmen, and Matsu. Twice in the 1950s, tensions peaked during the first (1954-55) and second (1958) Taiwan Strait crises. This small body of water, often compared to the English Channel, separates the PRC and Taiwan and has been the location for periodic military tensions, some threatening to end in war. Today, relations between the ROC and PRC depend on quelling tensions over the Taiwan Strait. This work provides a short but highly relevant history of the Taiwan Strait and its significance today.

Imposing, Maintaining, and Tearing Open the Iron Curtain Mark Kramer, Vit Smetana, 2013-11-22

The Cold War began in Europe in the mid 1940s and ended there in 1989. Notions of a global Cold War are useful in describing the wide impact and scope of the East-West divide after World War II, but first and foremost, the Cold War was about the standoff in Europe. The Soviet Union established a sphere of influence in Eastern Europe in the mid 1940s that later became institutionalized in the Warsaw Pact, an organization that was offset by the North Atlantic Treaty Organization (NATO) led by the United States. The fundamental division of Europe persisted for forty years, coming to an end

only when Soviet hegemony in Eastern Europe dissolved Imposing Maintaining and Tearing Open the Iron Curtain The Cold War and East Central Europe 1945 1989 edited by Mark Kramer and V t Smetana consists of cutting edge essays by distinguished experts who discuss the Cold War in Europe from beginning to end with a particular focus on the countries that were behind the iron curtain The contributors take account of structural conditions that helped generate the Cold War schism in Europe but they also ascribe agency to local actors as well as to the superpowers The chapters dealing with the end of the Cold War in Europe explain not only why it ended but also why the events leading to that outcome occurred almost entirely peacefully Stalin's Great Game Michael Jabara Carley,2025-03-31 The period from September 1939 to early 1942

was crucial for Soviet foreign policy and coincided with the early stages of the Second World War including the Great Patriotic War In Stalin s Great Game Michael Jabara Carley unpacks the complexities of Soviet diplomacy during this time addressing key issues such as the Soviet Finnish Winter War Soviet views on the fall of France and the Battle of Britain efforts to remain neutral in Europe Soviet relations with both Britain and Nazi Germany and the formation of the Grand Alliance against the Axis powers Drawing on extensive research from multilingual archives in France Britain the United States and the USSR Carley offers a comprehensive narrative that explores Soviet intelligence activities especially of the Cambridge Five spy ring and Nazi Germany s preparations for Operation Barbarossa the invasion of the Soviet Union The book also re evaluates historiographical debates on Stalin s interpretation of Soviet intelligence and Hitler s intentions towards the USSR The third volume in Carley s trilogy on the origins and early conduct of the Second World War Stalin s Great Game provides a fresh re examination of key events and interpretations by both Western and Soviet historians introducing new ideas and perspectives on this critical period **Kenya's Independence Constitution** Robert M.

Maxon,2011-04-01 Kenya s Independence Constitution Constitution Making and End of Empire is a narrative of the evolution of the constitution that was put into effect as Kenya s history as a colonial possession came to an end It details the attempts of the colony s political elite and the British Colonial Office to find a constitutional means to move Kenya to the status of independent state As this process moved forward political ethnicity assumed central significance This produced an environment in which demands for a federal constitution popularly termed majimbo came to dominate constitutional discourse Deep disagreement among Kenya s political elite over this issue marked the remainder of the colonial period That elite now represented by the Kenya African National Union KANU and the Kenya African Democratic Union KADU advocated different constitutional paths to independence KADU s demands for a majimbo constitution dominated discourse during 1962 and early 1963 but deep disagreement characterized the constitutional negotiations This resulted in a constitution for self government introduced on June 1 1963 that was regional in character but fell short of a federal system Almost as soon as it came into existence this constitution faced pressure for substantial change from KANU the party that won the 1963 general election As a result the British government was forced to make alterations in what became the independence constitution

The latter proved a prelude to the destruction of majimbo a year later Kenya's Independence Constitution provides the first in depth description of the final stage of colonial Kenya's constitutional evolution This book not only provides a detailed account of the process of constitution making including definitive treatments of the final two constitutional conferences of 1962 and 1963 Utilizing British and Kenya cabinet papers and secret intelligence reports never featured in earlier accounts the narrative also destroys many of the myths
