Sectorisation Et Pravention En Psychiatrie:

Activités extrahospitalières en psychiatrie : législation et fonctionnement Philippe Marin,1989-12-31T23:00:00+01:00 L enfermement n est plus considérable aujourd'hui comme la seule thérapie des maladies mentales. S'est progressivement développé l'idée d'un déplacement d'un traitement et d'une postcure des malades mentaux en ambulatoire dans le respect de leur vie sociale et familiale. C'est ce qu'on appelle communément les activités extra-hospitalières ou sectorisation psychiatrique. Si de nombreux ouvrages ont abordé cette sectorisation sous un angle technique et médico-légal, aucune étude complète n'avait jusqu'alors entrepris sur ses aspects juridiques. Les formes législatives et réglementaires qui ont touché le secteur psychiatrique ces dernières années ont fourni Philippe Marin l'occasion de combler cette lacune. Cet ouvrage a pour ambition de dresser un bilan précis de l'organisation du fonctionnement et du financement de la sectorisation psychiatrique. Pourquoi est-elle nécessaire ? Comment a-t-elle été mise en place ? Comment est-elle organisée ? Qui y participe ? Quel régime de responsabilité est le sien ? Qui finance ? Pour répondre à ces questions et d'autres, l'auteur analyse l'ensemble des textes juridiques, la jurisprudence du Conseil d'État et divers rapports traitant des activités du secteur psychiatrique. Un ouvrage indispensable pour tous les responsables des établissements publics ou privés de psychiatrie, les personnels médico-décaux et paramédicaux, les associations concernées par ce domaine.

Quels sont dans les faits aujourd'hui les parcours des patients en psychiatrie ? Il existe une prise en charge avec un médecin généraliste puis un psychiatre libéral avant de connaître une succession d'hospitalisations. Comment arrive-t-on aux urgences et vers où en sort-on ? En menant l'enquête sur deux territoires une équipe de sociologues met en lumière que les systèmes locaux de prise en charge dépendent la fois de l'offre de soins privée et publique et des relations systémiques qui lient les acteurs du secteur psychiatrique aux institutions parfois divergents.
