Secular Faith Controversy:

The Secular Faith Controversy Edward Ian Bailey, 2001 In this volume Edward Bailey sets out what is meant by implicit religion without the constraints either of total academic impersonality or of excessive compression He suggests how the concept of implicit religion can help us understand the contemporary scene other people and ourselves He also suggests what this approach might add to religious and social studies The book spans the spectrum from religious studies to ordinary life Part I describes the issues or problems experienced by practitioners by leaders and by students of religion while Part II describes some of the main ways in which those three overlapping groups have responded to those issues Part III describes possible alternative responses Part IV describes the three dimensional model of religion and Part V the three dimensions of human and religious experience Part VI applies this model in the spheres of religion of the spiritual and of life Indeed the three dimensions of the title are the sacred the holy and the human

The Secular Faith Controversy Edward Ian Bailey, 2001 When God disappears from a secular society religious beliefs surface in other non religious sectors of society e g sport as religion Edward Bailey argues that within and beneath everyday practices of non religious pursuits lie hidden religious ethical assumptions that mostly go unnoticed that is i e implicit rather than explicit In this volume Bailey sets out what is meant by implicit religion and proposes a methodology for studying implicit religion and how it can encourage greater understanding between secular and religious spheres

Secular Faith Vincent William Lloyd, Elliot A. Ratzman, 2011-01-01 Is faith a necessary virtue in the contemporary world May it be or must it be detached from religious commitment What do genealogies of the secular tell us about faith Does religion need secular faith Secular Faith brings together leading and emerging scholars to reflect on the apparent paradox of secular faith Ranging over anthropology religious studies political science history and literature from Muslims in China to Pentecostals in South Africa to a prison chapel in Texas this collection of essays is as engaging and accessible as it is penetrating and rigorous Communism was once labeled the god that failed Like Christianity Communism involves faith in a superhuman endeavor conversion myth discipline and salvation and from the perspective of secular liberalism both are unjustified and false In recent years scholars have begun to investigate whether secularism is itself based on faith in a god that failed or is failing Nevertheless many still embrace such a faith finding in the spirit of democracy an ethos of eternal renewal Secular Faith enters and broadens this conversation interrogating secular faith in a global context tapping new theoretical resources and grappling provocatively with the tragedies and opportunities of today s profane pantheon of beliefs

Controversies in Contemporary Religion Paul Hedges, 2014-09-09 Religious or spiritual beliefs underpin many controversies and conflicts in the contemporary world Written by a range of scholarly contributors this three volume set provides contextual background information and detailed explanations of religious controversies across the globe Controversies in Contemporary Religion Education Law Politics Society and Spirituality is a three volume set that addresses a wide variety of current religious issues analyzing religion's role in the rise of fundamentalism censorship human rights environmentalism and sustainability sexuality bioethics and other questions of widespread interest Providing in depth context and analysis far beyond what's available in the news or online this work will enable readers to understand the nature of and reasons for controversies in current headlines The first volume covers theoretical and academic debates the second looks at debates in the public square and ethical issues while the third examines specific issues and case studies These volumes bring detailed and careful debate of a range of controversies together in one place including topics not often covered for example how religions promote or hinder social cohesion and peace the relationship of religions to human rights and the intersection of Buddhism and violence Written by a range of experts that includes both established and emerging scholars the text explains key debates in ways that are accessible and easy to understand for lay readers as well as undergraduate students researching particular issues or global religious trends

How (Not) to Be Secular James K. A. Smith, 2014-05-01 How Not to Be Secular is what Jamie Smith calls your hitchhiker's guide to the present it is both a reading guide to Charles Taylor's monumental work *A Secular Age* and philosophical guidance on how we might learn to live in our times Taylor's landmark book *A Secular Age* 2007 provides a monumental incisive analysis of what it means to live in the post Christian present a pluralist world of competing beliefs and growing unbelief Jamie Smith's book is a compact field guide to Taylor's insightful study of the secular making that very significant but daunting work accessible to a wide array of readers Even more though Smith's *How Not to Be Secular* is a practical philosophical guidebook a kind of how to manual on how to live in our secular age It ultimately offers us an adventure in self understanding and maps out a way to get our bearings in today's secular culture no matter who we are whether believers or skeptics devout or doubting self assured or puzzled and confused This is a book for any thinking person to chew on

Identity Crises and Indigenous Religious Traditions Elijah Obinna, 2017-02-10 This book highlights the complex identity crises among many Christians as they negotiate their new identities religious ideas and convictions as both Christians and members of Nigerian African societies of indigenous religious traditions and identities Through an interdisciplinary interpretation of religious practices and educational issues in teaching and ritual training the author provides tools to help analyse empirical cases These include the negotiation processes among Christians with focus on the Presbyterian Church of Nigeria PCN and members of the Ogo society within the Amasiri Afikpo North Local Government

Area Ebonyi state in South eastern Nigeria Identifying the power dynamic identity role and influence of indigenous religions on Christians and the Ogo society this book reveals the limited interactions between many Christians and members of the Ogo society Questions explored include what makes the Ogo society an integral part of the socio religious life of Amasiri and what powers and identity does it confer on the initiates how is the PCN within Amasiri responding to the Ogo society through its religious practices such as baptism confirmation local auxiliary ministries and organisational structure and how does the understanding and application of conversion within the PCN impact on its members response to the Ogo society Demonstrating how complex religious identities and practices of Nigerian African Christians can balance mission influenced Christianity with indigenous religious traditions and identities this book recognises the importance of appropriating the powers of indigenous cultures ingenuity and creativity in the construction and preservation of community identities As such it will be of keen interest to scholars of Christian theology indigenous religious practice and African lived religion

Secular Faith Vincent William Lloyd, Elliot A. Ratzman, 2011-01-01 Is faith a necessary virtue in the contemporary world May it be or must it be detached from religious commitment What do genealogies of the secular tell us about faith Does religion need secular faith Secular Faith brings together leading and emerging scholars to reflect on the apparent paradox of secular faith Ranging over anthropology religious studies political science history and literature from Muslims in China to Pentecostals in South Africa to a prison chapel in Texas this collection of essays is as engaging and accessible as it is penetrating and rigorous Communism was once labeled the god that failed Like Christianity Communism involves faith in a superhuman endeavor conversion myth discipline and salvation and from the perspective of secular liberalism both are unjustified and false In recent years scholars have begun to investigate whether secularism is itself based on faith in a god that failed or is failing Nevertheless many still embrace such a faith finding in the spirit of democracy an ethos of eternal renewal Secular Faith enters and broadens this conversation interrogating secular faith in a global context tapping new theoretical resources and grappling provocatively with the tragedies and opportunities of today s profane pantheon of beliefs

Critical Reflections on Indigenous Religions James L. Cox, 2016-04-22 The study of indigenous religions has become an important academic field particularly since the religious practices of indigenous peoples are being transformed by forces of globalization and transcontinental migration This book will further our understanding of indigenous religions by first considering key methodological issues related to defining and contextualizing the religious practices of indigenous societies both historically and in socio cultural situations Two further sections of the book analyse cases derived from European contexts which are often overlooked in discussion of indigenous religions and in two traditional areas of study South America and Africa

Secular Faith Mark A. Smith, 2015-09-11 When Pope Francis recently answered Who am I to judge when asked about homosexuality he ushered in a new era for the Catholic church A decade ago it would have been unthinkable for a pope to express tolerance for homosexuality Yet shifts of this kind are actually common in the history of Christian groups Within

the United States Christian leaders have regularly revised their teachings to match the beliefs and opinions gaining support among their members and larger society Mark A Smith provocatively argues that religion is not nearly the unchanging conservative influence in American politics that we have come to think it is In fact in the long run religion is best understood as responding to changing political and cultural values rather than shaping them Smith makes his case by charting five contentious issues in America s history slavery divorce homosexuality abortion and women s rights For each he shows how the political views of even the most conservative Christians evolved in the same direction as the rest of society perhaps not as swiftly but always on the same arc During periods of cultural transition Christian leaders do resist prevailing values and behaviors but those same leaders inevitably acquiesce often by reinterpreting the Bible if their positions become no longer tenable Secular ideas and influences thereby shape the ways Christians read and interpret their scriptures So powerful are the cultural and societal norms surrounding us that Christians in America today hold more in common morally and politically with their atheist neighbors than with the Christians of earlier centuries In fact the strongest predictors of people s moral beliefs are not their religious commitments or lack thereof but rather when and where they were born A thoroughly researched and ultimately hopeful book on the prospects for political harmony **Secular Faith** demonstrates how over the long run boundaries of secular and religious cultures converge

Annual Review of the Sociology of Religion Luigi Berzano, Ole Riis, 2012-07-25 Dealing with a single theme in each volume the ARSR intends to tackle the relationship between the practices and the dynamics of everyday life and the different religions and spiritualities within the framework of the post secular society *Imagining the Kingdom (Cultural Liturgies)* James K. A. Smith, 2013-02-15 2013 Word Guild Award

Academic How does worship work How exactly does liturgical formation shape us What are the dynamics of such transformation In the second of James K A Smith s three volume theology of culture the author expands and deepens the analysis of cultural liturgies and Christian worship he developed in his well received *Desiring the Kingdom* He helps us understand and appreciate the bodily basis of habit formation and how liturgical formation both secular and Christian affects our fundamental orientation to the world Worship works by leveraging our bodies to transform our imagination and it does this through stories we understand on a register that is closer to body than mind This has critical implications for how we think about Christian formation Professors and students will welcome this work as will pastors worship leaders and Christian educators The book includes analyses of popular films novels and other cultural phenomena such as *The King s Speech* *Rise of the Planet of the Apes* David Foster Wallace s *Infinite Jest* and Facebook

Constitutional Secularism in an Age of Religious Revival Susanna Mancini, Michel Rosenfeld, 2014 Traditional models of constitutional secularism have struggled to accommodate the modern revival of religious politics The concept has been criticised as empty or illegitimate while political and legal struggles have contested its meaning This book gathers leading experts to examine the scope and substance of constitutional secularism today *The Politics of Secularism in International Relations* Elizabeth Shakman Hurd, 2009-01-10

Conflicts involving religion have returned to the forefront of international relations And yet political scientists and policymakers have continued to assume that religion has long been privatized in the West This secularist assumption ignores the contestation surrounding the category of the secular in international politics The Politics of Secularism in International Relations shows why this thinking is flawed and provides a powerful alternative Elizabeth Shakman Hurd argues that secularist divisions between religion and politics are not fixed as commonly assumed but socially and historically constructed Examining the philosophical and historical legacy of the secularist traditions that shape European and American approaches to global politics she shows why this matters for contemporary international relations and in particular for two critical relationships the United States and Iran and the European Union and Turkey The Politics of Secularism in International Relations develops a new approach to religion and international relations that challenges realist liberal and constructivist assumptions that religion has been excluded from politics in the West The first book to consider secularism as a form of political authority in its own right it describes two forms of secularism and their far reaching global consequences

Handbook of the Geographies of Religion Lily Kong, Orlando Woods, Justin K.H. Tse, 2024-12-02 This international and interdisciplinary handbook offers a comprehensive and an in depth overview of contemporary research theory and practice in the geographies of religion in various parts of the world and with different populations The book showcases the major theoretical interventions in the field and the debates about the existential constitution of sacred space and what this means for secularization It outlines the most significant geographical themes related to these new developments with their implications for how to think about landscapes space bodies and worlds The book also discusses the future of the field especially in the realms of encounters and ethics economies and markets institutions and organisations movements and migrations and media and mediums It also offers views from disciplines outside of geography including from sociology anthropology religious studies and media and communications which demonstrates the contributions of geographers of religion to wider intellectual conversations and debates *The Oxford Handbook of the Sociology of Religion* Peter Clarke, 2011-02-04 The Oxford Handbook of the Sociology of Religion draws on the expertise of an international team of scholars providing both an entry point into the sociological study and understanding of religion and an in depth survey into its changing forms and content in the contemporary world The role and impact of religion and spirituality on the politics culture education and health in the modern world is rigorously discussed and debated The study of the sociology of religion forges interdisciplinary links to explore aspects of continuity and change in the contemporary interface between society and religion Using a combination of theoretical methodological and content led approaches the fifty seven contributors collectively emphasise the complex relationships between religion and aspects of life from scientific research to law ecology to art music to cognitive science crime to institutional health care and more The developing character of religion irreligion and atheism and the impact of religious diversity on social cohesion are explored An overview of current scholarship in the

field is provided in each themed chapter with an emphasis on encouraging new thinking and reflection on familiar and emergent themes to stimulate further debate and scholarship The resulting essay collection provides an invaluable resource for research and teaching in this diverse discipline *The Evolution Controversy* Thomas B. Fowler, Daniel Kuebler, 2007-08 Provides a balanced and critical examination of the four major schools of thought in the evolution debate Neo Darwinism Creationism Intelligent Design and Meta Darwinism **Oxford Textbook of Spirituality in Healthcare** Mark Cobb, Christina Puchalski, Bruce Rumbold, 2012-08-09 The relationship between spirituality and healthcare is historical intellectual and practical and it has now emerged as a significant field in health research healthcare policy and clinical practice and training Understanding health and wellbeing requires addressing spiritual and existential issues and healthcare is therefore challenged to respond to the ways spirituality is experienced and expressed in illness suffering healing and loss If healthcare has compassionate regard for the humanity of those it serves it is faced with questions about how it understands and interprets spirituality what resources it should make available and how these are organised and the ways in which spirituality shapes and informs the purpose and practice of healthcare These questions are the basis for this resource which presents a coherent field of enquiry discussion and debate that is interdisciplinary international and vibrant There is a growing corpus of articles in medical and healthcare journals on spirituality in addition to a wide range of literature but there has been no attempt so far to publish a standard text on this subject Spirituality in Healthcare is an authoritative reference on the subject providing unequalled coverage critical depth and an integrated source of key topics Divided into six sections including practice research policy and training the project brings together international contributions from scholars in the field to provide a unique and stimulating resource *Theology, Ethics and Transcendence in Sports* Jim Parry, Mark Nesti, Nick Watson, 2011-04-12 This book provides an inter disciplinary examination of the relationship between sport spirituality and religion It covers a wide range of topics such as prayer and sport religious and spiritual perspectives on athletic identity and flow in sport theological analysis of genetic performance enhancement technologies sectarianism in Scottish football a spiritual understanding of sport psychology consultancy in English premiership soccer and how Zen may be useful in sports performance and participation As modern sport is often intertwined with commercial and political agendas this book also provides an important corrective to the win at all costs culture of modern sport which cannot always be fully understood through secular ethical inquiry This is a unique and important addition to the current literature for a wide range of fields including theology and religious studies psychology health studies ethics and sports studies *Politics as Religion* Emilio Gentile, 2020-09-01 Emilio Gentile an internationally renowned authority on fascism and totalitarianism argues that politics over the past two centuries has often taken on the features of religion claiming as its own the prerogative of defining the fundamental purpose and meaning of human life Secular political entities such as the nation the state race class and the party became the focus of myths rituals and commandments and gradually became objects of faith loyalty and

reverence Gentile examines this sacralization of politics as he defines it both historically and theoretically seeking to identify the different ways in which political regimes as diverse as fascism communism and liberal democracy have ultimately depended like religions on faith myths rites and symbols Gentile maintains that the sacralization of politics as a modern phenomenon is distinct from the politicization of religion that has arisen from militant religious fundamentalism Sacralized politics may be democratic in the form of a civil religion or it may be totalitarian in the form of a political religion Using this conceptual distinction and moving from America to Europe and from Africa to Asia Gentile presents a unique comparative history of civil and political religions from the American and French Revolutions through nationalism and socialism democracy and totalitarianism fascism and communism up to the present day It is also a fascinating book for understanding the sacralization of politics after 9 11

Secular Religions Tamás Nyirkos, 2024-08-06

Secular Religions The Key Concepts provides a concise guide to those ideologies worldviews and social political economic and cultural phenomena that are most often described as the modern counterparts of traditional religions Although there are many other terms in use quasi pseudo ersatz political civil etc it is secular religion that best expresses the problematic nature of all such descriptions which maintain that modern belief systems and practices are secular on the one hand and religious on the other Today the topic is as popular as ever and secular religions are discovered far and wide Hence a critical summary is urgently necessary The juxtaposed title is itself an expression of ironic distance The book emphasizes inherent tensions of relevant literature in a critical and informative fashion The author provides over 100 entries from abortion to wokeness as well as a detailed introduction which gives an overview of the different definitions of religion and secular religion as well as the history of secular religious comparisons The main text reconstructs the argument of several key works on each given topic while lists of sources for further reading are provided at the end of each entry This book provides a clear introduction to secular religions and will appeal to researchers and students of religious studies political philosophy political theology the history of ideologies and cultural studies

The Captivating Realm of Kindle Books: A Thorough Guide Unveiling the Benefits of E-book Books: A Realm of Ease and Versatility Kindle books, with their inherent portability and ease of access, have liberated readers from the limitations of hardcopy books. Gone are the days of lugging cumbersome novels or carefully searching for particular titles in bookstores. E-book devices, stylish and lightweight, seamlessly store an extensive library of books, allowing readers to indulge in their favorite reads whenever, everywhere. Whether commuting on a busy train, lounging on a sunny beach, or simply cozying up in bed, E-book books provide an exceptional level of ease. A Literary Universe Unfolded: Exploring the Vast Array of E-book Secular Faith Controversy Secular Faith Controversy The Kindle Shop, a virtual treasure trove of literary gems, boasts an extensive collection of books spanning diverse genres, catering to every reader's preference and preference. From gripping fiction and thought-provoking non-fiction to timeless classics and modern bestsellers, the E-book Store offers an exceptional variety of titles to explore. Whether seeking escape through engrossing tales of imagination and adventure, diving into the depths of past narratives, or expanding one's understanding with insightful works of scientific and philosophy, the E-book Shop provides a gateway to a bookish world brimming with limitless possibilities. A Game-changing Factor in the Bookish Scene: The Lasting Impact of E-book Books Secular Faith Controversy The advent of E-book books has undoubtedly reshaped the bookish landscape, introducing a paradigm shift in the way books are released, disseminated, and read. Traditional publication houses have embraced the digital revolution, adapting their approaches to accommodate the growing demand for e-books. This has led to a rise in the availability of Kindle titles, ensuring that readers have entry to a vast array of literary works at their fingertips.
