European Regional Development Fund Great Britain: Parliament: House of Commons: Communities and Local Government Committee, 2012-07-13 The abolition of the Regional Development Agencies removed the main source of match funding for

ERDF sponsored projects and the economic downturn has curbed alternative options for match funding even further There is a pressing need to spend each region s ERDF allocation before 2015 but unless ministers take urgent steps to deliver on the Government s promise to make it easier for projects to secure match funding through the Regional Growth Fund there is a significant risk that value for money will suffer and ERDF will not make the impact it could to help rebalance the UK s economy The Committee endorses a number of sensible rule changes that will govern the next ERDF round 2014-20 currently proposed and related proposals to give Member States the power to tailor the size of their Operational Programme areas which could permit Local Economic Partnerships in England to take responsibility for managing EU funds MPs also challenge the current allocation system where even the wealthiest Member States receive some ERDF funding when a portion of what they pay in originally gets recycled back to them The cross party group of MPs calls for this circular money flow to end and for England to retain this portion of funding to deliver its own regional policy The Government would have to guarantee the same level of funding across the EU s 7 year funding cycle This change would not affect the Government s contribution to ERDF for the poorer Member States Lastly MPs challenge the Government to evaluate the value for money of ERDF funded projects

The Defence Contribution to UK National Security and Resilience Great Britain: Parliament. House of Commons. Defence Committee, 2009 In March 2008 the Government published The National Security Strategy of the United Kingdom Security in an interdependent world NSS Cm 7291 2008 ISBN 9780101729123 Part dealt with the contribution of the armed forces to the overarching security policy of the UK and the Defence Committee set out to examine how the MoD and the Armed Forces interact with other departments and agencies to ensure the safety and security of the UK The report looks at the developing area of Parliamentary scrutiny of national security welcomes the proposed creation of a Joint Committee on the National Security Strategy but does question which minister will give evidence to that Committee The vital role of the ministry of Defence is outlined and the contribution must be appropriately understood directed and resourced The Committee recommends that the Government investigate how the Territorial Army could be used in civil emergencies rather than always resorting to regular troops It is essential that all activity relating to national security is appropriately funded from an indicative national security budget The NSS should also make a clearer connection between the strategy and industry and the Committee welcomes the Government's engagement with the UK Security and Resilience Industry Suppliers Community Current issues examined include the London 2012 Olympic Games maritime security the Committee comments on only six Royal Navy ships being dedicated to this and the level of action taken to address identified threats to aspects of critical infrastructure such as ports the impact of current operations and the extent to which UK forces are stretched or overstretched

Modernising European Union labour law Great Britain: Parliament: House of Lords: European Union Committee, 2007-06-27 In its Green Paper about the need for labour market reform the European Commission argued that the increasing diversity of 21st century working relationships means that existing labour law is no longer adequate This report brings together the evidence from a wide range of experts and representative bodies about these issues as they affect the UK labour market It finds that the evidence does not support the Commission The consensus is that the relatively light regulation of the UK labour market is advantageous and that problems of social disadvantage and structural unemployment are better addressed by measures aimed at tackling poor skills and social inequality rather than changing labour law The report therefore recommends that efforts at EU level should focus on the promotion and sharing of good practice rather than the introduction of new legislation

The new Local Enterprise Partnerships Great Britain: Parliament: House of Commons: Business, Innovation and Skills Committee, 2010-12-09 This report indicates broad support for the creation of Local Enterprise Partnerships as a way of addressing local growth In particular the potential of LEPs to offer a greater focus on local economic needs and build on the affinity between business local government and other partners at a local level is recognised Whilst it is right that LEPs should compete at certain levels it is equally important for them to collaborate particularly with the Regional Development Agencies where it makes economic sense Local Enterprise
