pension plans PBGC receives no funds from general tax revenues Operations are financed by insurance premiums set by Congress and paid by sponsors of defined benefit plans investment income assets from pension plans trusted by PBGC and recoveries from the companies formerly responsible for the plans Although the PBGC's liabilities are not explicitly backed by the full faith and credit of the federal government Congress could face political pressure to bail out the PBGC at taxpayer expense should the agency become financially insolvent Bradley Belt former executive director of the Pension Benefit Guaranty Corporation PBGC testified before Congress in October 2004 I am particularly concerned with the temptation and indeed growing tendency to use the pension insurance fund as a means to obtain an interest free and risk free loan to enable companies to restructure Unfortunately the current calculation appears to be that shifting pension liabilities onto other premium payers or potentially taxpayers is the path of least resistance rather than a last resort *Benefits Quarterly*, 1996
