Christopher S. Browning, Marko Lehti, Johan Strang, 2024-07-18 This book explores historically and theoretically Nordic peace as a marker of identification ontological in security and regional branding It emphasizes how conceptions of Nordic peace have been translated into policy practices and how it has maintained its relevance over time The book distinguishes between the Nordic region as a region of peace a prime example of a Deutschian security community and as a region for peace cultivating the role of a global humanitarian norm promoter and peacebuilder but also interrogating how these two understandings of Nordic peace have been mutually constitutive and interdependent The book discusses the politics of Nordic peace analyzing what the concept does and enables and why it continues to endure and exert affective appeal Furthermore it considers contemporary challenges not least connected to the implications of the war in Ukraine but also the potential future opportunities facing ideas of Nordic peace as Nordic peace is refashioned once again towards a new regional and global context This book will be of key interest to scholars and students of Peace Research Nordic or Scandinavian Studies History Nationalism Studies Critical Security Studies and International Relations The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **Strategic Challenges in the Baltic Sea Region** Ann-Sofie Dahl, 2018-05-07

How should the countries in the Baltic Sea region and their allies meet the strategic challenges posed by an openly aggressive and expansionist Russia NATO and the nonaligned states in the region are now more concerned about an external threat than they have been since the end of the Cold War Russia has been probing air space maritime boundaries and even land borders from the Baltic republics to Sweden Russia's undermining of Ukraine and annexation of Crimea worries former Soviet republics with Russian minority populations nonaligned Sweden and Finland are enhancing their cooperation with NATO and the Trump presidency has created some doubt about America's willingness to follow through on NATO's collective defense commitment Ann-Sofie Dahl brings together an international group of experts to examine Baltic security issues on a state by state basis and to contemplate what is needed to deter Russia in the region The contributors analyze ways to strengthen regional cooperation and to ensure that security in the region stays at the top of the agenda at a time of many competing strategic perspectives in the transatlantic community This book will be of great interest to foreign policy and defense practitioners in the US and Europe as well as scholars and students of international relations **The Intergovernmental Conference on Political Union** Finn Laursen, Sophie Vanhoonacker, 2023-12-11 The radical changes taking place in the international scene during the late 1980s have presented the European Communities with important new challenges The twelve Member States agreed that the only way to respond effectively to this new situation was to speed up the European integration process and in December 1990 two Intergovernmental Conferences were inaugurated focusing

respectively on the development of an Economic and Monetary Union and a Political Union It was the difficult task of the Luxembourg and Dutch Presidencies to channel the often very diverging positions of the different actors in the process into one coherent set of amendments to the Treaties forming the European Communities This publication examines the positions which the different Member States the Commission and the European Parliament have been defending in the Intergovernmental Conference on Political Union and more particularly with regard to one of the most sensitive topics under discussion namely the development of a Common Foreign and Security Policy CFSP The introduction places the debate on the development of a Political Union and a CFSP in an historical perspective and gives an overview of the progression of the negotiations The concluding chapter presents a general framework for better understanding of the course and results of the negotiations and a critical evaluation of the outcome The annexes reproduce the main proposals on the development of a CFSP submitted to the Conference Politics in Western Europe: Second Edition , **Rethinking Security in**

Small States and International Security Clive Archer,Alyson J.K. Bailes,Anders Wivel,2014-03-14 This book explains what small states are and explores their current security challenges in general terms and through specific examples It reflects the shift from traditional security definitions emphasizing defence and armaments to new security concerns such as economic societal and environmental security where institutional cooperation looms larger These complex issues linked with traditional power relations and new types of actors need to be tackled with due regard to democracy and good governance Key policy challenges for small states are examined and applied in the regional case studies The book deals mainly with the current experience and recent past of such states but also offers insights for their future policies Although many of the states covered are European the study also includes African Caribbean and Asian small states Their particular interest and relevance is outlined as is the connection between their security challenges and their smallness Policy lessons for other states are then sought The book is the first in depth multi continent study of security as an aspect of small state governance today It is novel in placing the security dilemmas of small states in the context of wider ideas on international and institutional change and in dealing with non European states and regions **Gender Equality and Nation Branding in**

the Nordic Region Eirinn Larsen,Sigrun Marie Moss,Inger Skjelsbæk,2021-05-25 This book explores how gender equality a

central part of the Nordic imaginary is used in the political communication of Nordic states. The analyses presented move beyond conventional images and discourses of Nordic gender and women friendliness by critically investigating how and to what extent gender equality serves nation branding in the Nordic region. Nation branding is an unescapable part of globalisation which is a market oriented process dominated by the West and predicated on the creation of winners and losers. Hence efforts to strengthen the national brand or reputation of specific Nordic countries with the aid of gender equality as a political and symbolic value inevitably help to reinforce already established global hierarchies where the Nordics play the role of moral superpower. This book comprises scholars from various fields of specialisation and provides evidence and understanding for the growing interaction between gender equality policies and nation branding in all five Nordic countries. It does so by exploring a variety of policy fields and issues including women's rights, foreign policy, rape and legislation, female quotas and business policies in addition to the index industry. The rise of the global indexes has reproduced forceful images of the Nordic countries as frontrunners of gender equality which indeed help the Nordic countries to further position themselves as best at being good. This book will be of great interest to students and scholars of Nordic gender equality in political science, sociology, law, criminology, political psychology and history as well as those interested in nation branding, Nordic studies and exceptionalism. Nordic Cooperation Johan Strang, 2015-07-16. The recent crises in global economy and in European integration have caused a considerable revival of interest in the Nordic Welfare Model. However, less attention has been given to the ways in which the nations that form Scandinavia or Norden are connected through various forms of inter and transnational cooperation. With contributions from a team of experts in the field, this volume analyses Nordic cooperation in a European perspective and argues that this special form of transnational cooperation has been crucial in the development of the Nordic Welfare Model. In addition, it also contends that the Nordic model of transnational cooperation is a relevant case study when pondering the present problems of European integration. This text will be of key interest to students, researchers and policy makers studying the Nordic Model and transnational cooperation and more generally to those interested in European studies, Scandinavian studies, welfare studies, international relations and regional integration. **European Security** Bjørn

Møller, 2016-04-22. Europe has undergone quite profound changes since the end of the Cold War. Having been a highly militarised, conflict ridden and war ridden region, the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable. This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations, especially the North Atlantic Treaty Organisation, the Organisation for Security and Cooperation in Europe, the Council of Europe and the European Union. When it comes to explaining peace in

Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it

Post-Cold War Identity Politics Marko Lehti, David J Smith, 2004-11-23 During the past decade northern Europe has started to assume an identity of its own Categories of East and West have become blurred challenging as well the idea of what it means to be Nordic Post Cold War Identity Politics maps this process in Scandinavia Looking at projects designed to help regional development in the Nordic countries it assesses whether a new way of defining Northernness is emerging The book highlights the existence of co existing and to some extent competing region building projects in northern Europe It demonstrates how they are all efforts by existing nations to redefine their role in Europe at a time of change and points to how they might develop in the future
