Security Challenges In The Mediterranean Region:

Security Challenges in the Mediterranean Region Roberto Aliboni, Tim Niblock, 1996 This book sets out to identify the challenges to western security emerging from the Mediterranean area

Troubled Waters James Black, 2017 New challenges are reshaping the international order requiring government leaders to consider new strategies and tools that integrate diplomatic economic and military instruments of power Nowhere is this more evident than around the Mediterranean Sea which has progressively returned as a region of global strategic interest where political tensions armed conflict economic and social instability and transnational criminal networks demand solutions that cross traditional institutional boundaries of domestic and international policy making The geo political situation on the southern coast of the Mediterranean has radically changed and new challenges have emerged for the European Union United States and beyond Long lasting issues such as the Israeli Palestinian conflict or the tensions between Turkey and Greece continue to be present but new destabilising factors have emerged in the region following the Arab spring of 2011 The US EU and NATO continue to maintain a significant military presence in and around the Mediterranean but military capabilities must be nested within a whole of government international approach The challenges in this region demand unprecedented levels of civil military and intergovernmental cooperation In this context RAND established the Mediterranean Foresight Forum MFF in 2015 to support the development of comprehensive integrated civil military responses to complex regional challenges through an innovative combination of research scenario based sensitivity analysis and strategic level exercises Publisher s web site

Troubled Waters James Black, 2017 New challenges are reshaping the international order requiring government leaders to consider new strategies and tools that integrate diplomatic economic and military instruments of power Nowhere is this more evident than around the Mediterranean Sea which has progressively returned as a region of global strategic interest where political tensions armed conflict economic and social instability and transnational criminal networks demand solutions that cross traditional institutional boundaries of domestic and international policy making The geo political situation on the southern coast of the Mediterranean has radically changed and new challenges have emerged for the European Union United States and beyond Long lasting issues such as the Israeli Palestinian conflict or the tensions between Turkey and Greece continue to be present but new destabilising factors have emerged in the region following the Arab spring of 2011 The US EU and NATO continue to maintain a significant military presence in and around the Mediterranean but military capabilities must be nested within a whole of government international approach The challenges in this region demand unprecedented levels of civil military and intergovernmental cooperation In this context RAND established the Mediterranean Foresight Forum MFF in 2015 to support the development of comprehensive integrated civil military responses to complex regional challenges through an innovative combination of research scenario based sensitivity analysis and strategic level exercises Publisher s web site

Security Challenges in the Euro-Med Area in the 21st Century Stephen C. Calleya, 2012 This book

provides an empirical analysis of security challenges in the Euro Mediterranean area and highlights the political military economic societal and environmental issues that are already serving as a source of instability in the region **Security and Environment in the Mediterranean** Hans Günter Brauch, Peter H. Liotta, Antonio Marquina, Paul F. Rogers, Mohammad El-Sayed Selim, 2012-12-06 In this volume security specialists peace researchers environmental scholars demographers as well as climate desertification water food and urbanisation specialists from the Middle East and North Africa Europe and North America review security and conflict prevention in the Mediterranean They also analyse NATO s Mediterranean security dialogue and offer conceptualisations on security and perceptions of security challenges as seen in North and South The latter half of the book analyses environmental security and conflicts in the Mediterranean and environmental consequences of World War II the Gulf War the Balkan wars and the Middle East conflict It also examines factors of global environmental change population growth climate change desertification water scarcity food and urbanisation issues as well as natural disasters Furthermore it draws conceptual conclusions for a fourth phase of research on human and environmental security and peace as well as policy conclusions for cooperation and partnership in the Mediterranean in the 21st century

Euro-Mediterranean Security: A Search for Partnership Sven Biscop, 2017-11-22 This title was first published in 2003 This work provides a clearer understanding of the EU s approach towards security in the Mediterranean After examining the EU s interests and the potential threats to security in the region it analyzes EU security policy towards the region as a whole through the Euro Mediterranean Partnership and towards all disputes and conflicts in the area It recommends opening up the European Security and Defence Policy to Mediterranean participation in order to establish a deep and equitable security partnership between both shores The book argues that this way the EU could implement its innovative comprehensive and co operative approach to security Rather than focusing on the military aspect alone this approach takes into account all dimensions of security political socio economic cultural and ecological and is based on partnership rather than confrontation It therefore contrasts quite sharply with the policies advocated in the US National Security Strategy **Eldorado or Fortress? Migration in Southern Europe** R. King, G. Lazaridis, C.

Tsardanidis, 1999-10-20 As Europe struggles to control immigration the EU s southern flank is perceived as the weak flank of Fortress Europe This book examines the many facets of Southern Europe s new immigration the diverse roles played by immigrants in the labour market issues of social exclusion and wider strategic concerns of security and geopolitics **The security dimensions of EU enlargement** David Brown, Alistair Shepherd, 2021-06-15 The changing nature of security the enlargement of European institutions and the evolving functions of the EU have been key developments in post Cold War Europe This book blends these three crucial developments in a sophisticated and illuminating manner It assesses the impact of EU enlargement on both pre existing security arrangements and key relationships with the EU s new partners and neighbours It also investigates both hard and soft and internal and external security issues ranging from military intervention

to terrorism and from organised crime to human rights From this it concludes that enlargement has both positive and negative implications for European security Completing the analysis this study examines the evolving security relationships with key states regions and international organisations in the EU s neighbourhood The examination of relations with Turkey Russia Ukraine the Greater Middle East and the Balkans provides a sense of the direction in which European security politics is moving

Building Sustainable Agriculture for Food Security in the Euro-Mediterranean Area Maria Cristina Paciello, 2015-06-19 Sustainable agriculture and food security are of particular concern for the countries of the Middle East and North Africa MENA region and represent one of the biggest challenges facing the area As a consequence of the region s heavy reliance on food imports the sharp increase in food prices since 2007 and the consequent world food crisis has had macro economic problems inflation trade deficits fiscal pressure increased poverty and political instability This challenge coupled with the consequences of environmental degradation water scarcity urbanization and climate stress call for the urgent development of sustainable agriculture has mostly been ignored in Euro Mediterranean relations due to strong opposition from the EU However academics and policymakers have increasingly acknowledged that agriculture that needs to be placed at the core of Euro Mediterranean regional cooperation Given the sensitiveness and strategic importance of agriculture for both shores of the Mediterranean the IAI and the OCP Policy Center jointly organized a two day conference in Rabat on November 20 21 2014 to discuss food security and agriculture challenges in the framework of Euro Mediterranean relations The present volume collects the updated and revised versions of the twelve papers that were discussed in that meeting

Strengthening Maritime Security Through Cooperation I. Chapsos, C. Kitchen, 2015-07-30 Seventy percent of our planet is covered by water and even in today s world of instant communication the global community is still heavily reliant on sea based transport The maritime domain has always been one of NATO s key strengths but concerns about maritime security have taken on renewed importance in recent years and NATO has been forced to re examine some of its fundamental assumptions about the post Cold War security environment This book shares some of the research debates and findings from a NATO Advanced Research Workshop ARW Building Trust to Enhance Maritime Security held in Geneva Switzerland in November 2014 The chapters in the book deal extensively with lessons learned by NATO from a wide range of policies operations and situations This maritime experience has been amassed from the Atlantic and Mediterranean to the Baltic and the Black Sea and even into the Indian Ocean as well as from the four decades spent defending NATO allies on the high seas during the Cold War The single most profound lesson learned over the years has concerned the importance of efficient coordination Structures and mechanisms have been created not least in recent counter piracy operations which enable a vast array of actors to work together in an efficient way and which could prove invaluable in future efforts to counter terrorism and aggression worldwide The safety of the maritime domain is essential to the freedom and security of all nations and this book will be of interest to all those whose work involves maintaining that freedom and security

Coping

with Global Environmental Change, Disasters and Security Hans Günter Brauch, Úrsula Oswald Spring, Czesław Mesjasz, John Grin, Patricia Kameri-Mbote, Béchir Chourou, Pál Dunay, Joern Birkmann, 2011-02-03 Coping with Global Environmental Change Disasters and Security Threats Challenges Vulnerabilities and Risks reviews conceptual debates and case studies focusing on disasters and security threats challenges vulnerabilities and risks in Europe the Mediterranean and other regions It discusses social science concepts of vulnerability and risks global regional and national security challenges global warming floods desertification and drought as environmental security challenges water and food security challenges and vulnerabilities vulnerability mapping of environmental security challenges and risks contributions of remote sensing to the recognition of security risks mainstreaming early warning of conflicts and hazards and provides conceptual and policy conclusions *The Greek-Turkish Relationship and NATO* Dr Fotios Moustakis, 2004-11-23 This publication shows that the Eastern Mediterranean having been transformed from a region of secondary importance during the Cold War to one of greater importance for the western interests in the post Cold War era is in a state of flux Despite sporadic periods of rapprochement tensions between Greece and Turkey still exist Therefore one must question the grounds behind the lack of normal relations that exist between these two NATO members and its effects on the NATO organisation as a whole Hence this volume has two purposes first to examine Greek and Turkish foreign security and defence policies during and after the post Cold War period and second to investigate why these policies have been formulated Energy Security Challenges for the 21st Century Gal Luft, Anne Korin, 2009-08-10 The impact of energy on global security and economy is clear and profound and this is why in recent years energy security has become a source of concern to most countries However energy security means different things to different countries based on their geographic location their endowment of resources their strategic and economic conditions In this book Gal Luft and Anne Korin with the help of twenty leading experts provide an overview of the world's energy system and its vulnerabilities that underlay growing concern over energy security It hosts a debate about the feasibility of resource conflicts and covers issues such as the threat of terrorism to the global energy system maritime security the role of multinationals and non state actors in energy security the pathways to energy security through diversification of sources and the development of alternative energy sources It delves into the various approaches selected producers consumers and transit states have toward energy security and examines the domestic and foreign policy tradeoffs required to ensure safe and affordable energy supply The explains the various pathways to energy security and the tradeoffs among them and demonstrates how all these factors can be integrated in a larger foreign and domestic policy framework It also explores the future of nuclear power the complex relations between energy security and environmental concerns and the role for decentralized energy as a way to enhance energy security **Pathways for agrifood systems transformation and regional cooperation in the Mediterranean** Zurayk, R., Yehya, A.A.K., Sadek, M., De Matteis, L., Valls Bedeau, J., 2024-07-29 Sustainable agrifood systems are crucial for achieving the Sustainable Development Goals SDGs by 2030 yet

structural inequalities and recent crises underscore the urgent need for transformative change This report focuses on the Mediterranean region examining challenges and opportunities for agrifood systems transformation within its unique socio economic and political context Drawing on global and regional momentum the report identifies barriers hindering transformation proposes policy recommendations and highlights opportunities for regional cooperation It leverages insights from the UN Food Systems Summits and a typological approach to categorize countries based on their agrifood systems and economic development status The analysis reveals diverse challenges but also positive attributes such as dietary traditions and biodiversity While most initiatives prioritize defining goals and establishing support ecosystems there s a need for greater policy coherence and governance mechanisms The report identifies strategies to address these gaps including providing policy guidance expanding collaborative networks enhancing data management and unlocking sustainable finance Ultimately an integrated approach that harmonizes various agrifood systems aligns with local realities and strengthens partnerships is essential for transformative change By leveraging existing initiatives expanding collaboration and addressing unique regional challenges the report charts a united pathway towards sustainable agrifood systems in the Mediterranean fostering prosperity and resilience

The European Union in the Security of Europe Steve Marsh,Wyn Rees,2012-03-12 This book examines the European Union s contribution to providing security in Europe amidst an increasingly complex and challenging environment In this new and comprehensive guide to the EU s role in security since the end of the Cold War the authors offer an explanation of EU internal and external security regimes and argue that the Union has become an important exporter of security within its region However the Union s rhetorical ambitions and commitments continue to outstrip its capabilities and it lacks both a common conceptualisation of security and a meaningful shared strategic culture Drawing extensively on primary sources the book examines the Union s relations with the US and Russia in a time of shifting geostrategic calculations and priorities With the EU capacity for enlargement slowing this text presents a detailed assessment of EU security policies towards Central Europe the Mediterranean the Western Balkans Eastern Europe and South Caucasus European Union Security will be of interest to students and scholars of the EU security studies and international relations

Climate Change, Human Security and Violent Conflict Jürgen Scheffran,Michael Brzoska,Hans Günter Brauch,Peter Michael Link,Janpeter Schilling,2012-05-26 Severe droughts damaging floods and mass migration Climate change is becoming a focal point for security and conflict research and a challenge for the world s governance structures But how severe are the security risks and conflict potentials of climate change Could global warming trigger a sequence of events leading to economic decline social unrest and political instability What are the causal relationships between resource scarcity and violent conflict This book brings together international experts to explore these questions using in depth case studies from around the world Furthermore the authors discuss strategies institutions and cooperative approaches to stabilize the climate society interaction

EU Development Policy in a Changing World Andrew Mold,2007

On many fronts European Union development policy is at a critical juncture in the face of new obstacles the EU has been forced to rethink trade security and its relationship with neighbors in North Africa and the Middle East Contentious questions have centered on the effects of EU expansion agricultural protectionism and development friendly trade policy in the EU and its member nations To answer these questions and others this expertly edited volume draws on analysis from well known specialists in fields such as public policy and economic development providing a critical overview of EU development policy and the challenges it must confront in an increasingly volatile and changing world

Transnational Islam and Regional Security Frederic Volpi, 2013-09-13 This volume investigates the impact of a new brand of transnational terrorism and political violence produced by radical Islamist groups from the Maghreb on the regional security dynamics It describes the causes of the problems and the strategies devised by European and North African states in order to address it and details the successes and failures of co operation between states and society on both shores of the Mediterranean Investigating the grand security strategies that have been devised for the Mediterranean after the Cold War and after 9 11 the contributors focus on the role of police and military apparati in securitizing the new threats that have become prominent after 9 11 and the unintended consequences of these strategies In addition the contributors analyze the relationship between Islamist groups the state and society and highlight some key causes of political violence and radicalism They outline how a better use of the law migration and intercultural dialogue might provide useful alternatives or complements to the mostly securitarian strategies that are currently dominant in the region

Use of Landscape Sciences for the Assessment of Environmental Security Irene Petrosillo, Felix Müller, K. Bruce Jones, Giovanni Zurlini, Kinga Krauze, Sergey Victorov, Bai-Lian Li, William G. Kepner, 2007-10-24 This book examines environmental security from the perspective of landscape sciences identifying the forces that threaten environmental security at all levels It stems from the last five years of the Pilot Study Project on Use of Landscape Sciences for Environmental Assessment sponsored by the NATO Committee on the Challenges of Modern Society Readers explore concepts of environmental security from subjective and objective perspectives

Subregional Cooperation in the New Europe Andrew Cottey, 1999-04-12 Based on a major international research project undertaken by The Institute for East West Studies this book provides the first comprehensive analysis of an important but little explored feature of post Cold War Europe the emergence of subregional cooperation in areas such as the Barents the Baltic Sea Central Europe and the Black Sea It analyses the role of subregional cooperation in the new Europe provides detailed case studies of the new subregional groups and examines their relations with NATO and the European Union
