Security Environment In The Asia Pacific:

The Security Environment in the Asia-Pacific, 2000 *The Security Environment in the Asia-Pacific* 2000 Pacific Asia rivals the Middle East and South Asia as the most insecure region on earth today This timely volume presents a survey of major issues confronting the Asia Pacific region as it enters the new millennium ASEAN's role in collective security concerns over China and the disputed territories in the South China Sea conflict on the Korean peninsula Japan's role in the post Cold War security order United States interests in Pacific security and the relationship between Asian and European countries and governmental organizations **The Changing Security Environment in the Asia Pacific Region** L. Benny Moerdani, 1994 *The Security Environment of the Asia Pacific Region at the Beginning of the 21st Century and Japan's New Security Strategy* Koichiro Bansho, 2000 After the end of the Cold War a great number of changes occurred in the Asia Pacific region not only politically and economically but also within the security environment In some ways the end of the Cold War has not been as kind to the Asia Pacific region as it was to most of Europe However it is obviously moving towards a new dimension For Japan's security strategy to cope with those changes long range planning and more drastic changes are needed This paper will evaluate strategic changes in the coming new century and to discuss effective measures to facilitate the peace and stability stressing the significance of the Japan U S security relationship and a possible security framework for the region Finally I will discuss Japan's new security strategy its basic concepts and the role of the Japan's Self Defense Forces **The Security Environment of the Asia Pacific Region at the Beginning of the 21st Century and Japan's New Security Strategy** Koichiro Bansho, Army War College (U.S.), 2000 *The Security Environment in the Asia-Pacific* Sanu Kainikara, RAAF Air Power Development Centre, 2012 Post 2008 the international community has once again experienced a period of heightened volatility with a number of nations struggling to contain the fall out of the global financial crisis Although comparatively less affected than some European nations the Asia Pacific also is witnessing a certain amount of instability Australia as a trading nation is not immune to these changes The undeniable fact is that the security environment in the Asia Pacific will be impacted by the economic stability or otherwise of its constituent nations Australia's security and prosperity is underwritten by its economic stability and its ability to develop its trade and commerce further This can only be ensured through making its trade routes especially the sea lanes through which its trade flourishes safe and open In other words Australia's continued security is dependent on the safety and security of the ocean commons It is therefore not surprising that Australia's defence strategy has always been built on a national maritime strategy whether articulated in so many words or not This paper examines Australia's strategic interests and outlook from a strategic perspective and puts forward some views on its security perceptions In contextualising Australia's maritime strategy within the ongoing developments in the Asia Pacific region this paper serves a useful purpose P iv Asia-Pacific Center for Security Studies, 2000* The Asia Pacific Center for Security Studies established in 1995 is a regional study conference and

research center with a non warfighting mission to enhance cooperation and build relationships through mutual understanding and study of comprehensive security issues among military and civilian representatives of the United States and other Asia Pacific nations The center provides a focal point where national officials decision makers and policy makers can gather to exchange ideas explore pressing issues and achieve a greater understanding of the challenges that shape the security environment of the Asia Pacific region Its focus is on the increasingly complex interrelationships of the military economic political and diplomatic policies relevant to regional security issues **Asia-Pacific Security** Joanne Wallis,Andrew Carr,2016-10-01

This new textbook gathers an international roster of top security studies scholars to provide an overview of Asia Pacific s international relations and pressing contemporary security issues It is a suitable introduction for undergraduate and masters students use in international relations and security studies courses Merging a strong theoretical component with rich contemporary and historical empirical examples Asia Pacific Security examines the region s key players and challenges as well as a spectrum of proposed solutions for improving regional stability Major topics include in depth looks at the United States relationship with China Security concerns presented by small and microstates the region s largest group of nations threats posed by terrorism and insurgency the region s accelerating arms race and the potential for an Asian war the possible roles of multilateralism security communities and human security as part of solutions to regional problems **Comprehensive Security in Asia** ,2000-04-27 The term comprehensive security was first used by the late Japanese prime minister Ohira but the concept as such can be traced back to Japanese thinking on security during the fifties Its meaning goes far beyond requirements of military defence against a particular enemy and stresses the need to take into account other aspects vital to national stability food energy environment communication and social security While not denying the importance of military security it explicitly encompasses a wide range of other aspects the search for environmental security for instance which requires cooperation with other countries including hypothetical enemies The concept stresses the need for confidence building methods as a requirement for its attainment and pertains to issues such as preventive diplomacy energy security second order cybernetics greater transparency of international financial markets as means to enhance overall stability It is a notion that goes beyond simplifications such as us and them Since the word has been first coined in Japan it has caught on in other Asian countries as well It has become clear that the concept is particularly suited for a continent where large and powerful countries such as China Korea Japan and Indonesia are unlikely to enter into close cooperation along the model of the European Union In short in this volume a team of scholars from Asia Europe and the United States provide clear analyses of issues vital to Asian politics an important contribution to one of the key issues of contemporary Asian politics *Comprehensive Security in Asia* Kurt Kurt Werner Radtke,Raymond Feddema,2000 The term comprehensive security goes beyond simplifications such as us and them it accounts for all aspects vital to national stability food energy environment communication and social security Confidence building methods preventive diplomacy energy

security second order cybernetics transparency of financial markets are all means to enhance overall stability Comprehensive Security has become a concept particularly suited for a continent with many powerful countries An important contribution to one of the key issues of contemporary Asian politics

The Security Environment of the Asia Pacific Region at the Beginning of the 21st Century and Japan's New Security Strategy Koichiro Bansho, Army War College (U.S.), 2000

Australian Security After 9/11 Derek McDougall, 2020-07-24 Debates on security became more intense following the unanticipated end of the Cold War conflict and took on added force after the terrorist attacks on the US on September 11 2001 Generally viewed as a part of the wider West despite its separation by enormous geographical distances from both Europe and the United States Australia is a regional power in its own right It has been an active and loyal member of the US led coalitions of the willing first in Afghanistan and then in Iraq The terrorist attacks in Bali one year after the attacks in the United States brought home to Australia the direct nature of the new global terrorist threats to its own security This volume brings together leading experts on international security and Australia's foreign and security policies in a critical examination of Australia's adaptations to the new security challenges It is the first in depth and comprehensive analysis of Australia's defence and security policies as well as the country's role in countering regional and global challenges to international security since the war on terrorism began

The Transformation of Security in the Asia/Pacific Region Desmond Ball, 2013-10-14 The security architecture of the Asia Pacific region is in a profound transformation Such changes are not without problems which are discussed here

The Environment and Security in Pacific Asia Alan Dupont, 1998 Includes statistics

China, India, Japan and the Security of Southeast Asia Regional Strategic Studies Programme (Institute of Southeast Asian Studies), 1993 This volume presents the findings of a research project organized by the Institute of Southeast Asian Studies in 1989 to look specifically into the impact of the end of the Cold War on regional security It is one of the few attempts that have been made to understand the complex nature of relations between the major Asian powers and Southeast Asia in the context of their historical ambitions and current strategic imperatives The eleven contributors are a unique combination of regional and international expertise in the field of strategic analysis representing all the major interested parties in the wider Asia Pacific environment Their chapters deal not only with China India and Japan but also with the central role of ASEAN particularly its largest member Indonesia and the rapidly changing profile of Vietnam
