Security In Northeast Asia Approaching The Pacific Century Studies In Global Security:

Security In Northeast Asia Stephen P Gibert, 2020-01-16 This book presents to the reader a comprehensive and integrated discussion of the Northeast Asian Western Pacific region and its relationships to United States and world security concerns and international political stability

Security, Arms Control, and Conflict Reduction in East Asia and the Pacific, 1993-07-30 This is the most comprehensive bibliography to date on the vast English language literature covering the myriad aspects of peace and security issues in the East Asia Pacific region McClean contacted 150 key research institutions and publishers around the world for information about the most significant books articles dissertations and official documents on international and intra state security arms control conflict avoiding diplomacy and militarization in the area He has selectively annotated 12 645 cross referenced entries and organized them into 27 sub regional and country chapters including two particularly extensive chapters on Japan and China and two further chapters on relations between Australia New Zealand and the United States and on U S and Soviet policy

The U.s.-canada Security Relationship David G Haglund, Joel J Sokolsky, 2019-07-09 This book focuses on the critical issues shaping the bilateral defense relationship of the U S and Canada including the future of ballistic missile defense the increased deployment of air and sea launched cruise missiles and the growing debate within Canada over security relations with the US

The Politics of Defense in Japan Joseph P. Keddell, 1993 Examines how the Japanese government used a series of incremental measures in three different periods to manage conflicting international and domestic pressure over defense issues in the context of the country's military dependence on the US since World War II Details the influence and origins of such constraints as the one percent of GNP ceiling of defense spending various international treaties and the strong public opinion against the military and concludes that domestic political tranquility is more important to the government than military parity with other countries Annotation copyright by Book News Inc Portland OR

Strategy and Security in the Asia-Pacific Robert Ayson, Desmond Ball, 2020-07-25 From the war on terror to the rise of China this book unlocks the major strategic themes and security challenges of the early twenty first century Strategy and Security in the Asia Pacific provides the analytical frameworks needed to make sense of this complex but exciting strategic universe Offering a unique mix of global strategic thinking and Asia Pacific security analysis this book is for readers from Sydney to Seoul who want to put their own local security challenges in a wider regional and global context It is also for North American and European readers requiring an understanding of the dynamic security developments in the Asia Pacific region around which so much of global strategy is increasingly based The really vital questions facing the international community are dealt with here Why do governments and groups still use armed force Has warfare really changed in the information age Why should we be concerned about non traditional security challenges such as water shortages and the spread of infectious disease Is a great clash imminent between the United States and China What are the prospects for peace on the Korean peninsula and between India and

Pakistan Can Southeast Asia survive the challenges of transnational terrorism What does security mean for the Pacific island countries and for Australia and New Zealand With contributions from leading commentators and analysts Strategy and Security in the Asia Pacific offers a comprehensive and authoritative introduction to the field *The Koreas*, 1990 **The Journal of American-East Asian Relations**, 2001 **Asia's Aging Security** Andrew L. Oros, 2025-09-09 Major demographic transitions are underway in Asia and the Pacific The populations of China Japan Taiwan South Korea and Russia are aging and shrinking while India the Philippines Vietnam and Australia among others continue to grow How will these striking changes affect regional security dynamics and the United States led alliance structure in the Indo Pacific Andrew L Oros offers an expert analysis of how rapid aging and population shifts are transforming the military strategies and capabilities of regional powers in Asia Examining sixteen states he provides a comparative view of the developing landscape and explores ways to address the consequences Oros demonstrates that contrary to what many have claimed states with shrinking populations will continue to be formidable military powers He develops a novel theoretical and empirical argument for why rapid aging does not necessarily dampen security competition Nonetheless demographic shifts in the coming decades will fundamentally alter the security challenges facing the United States and its allies Oros considers how technological change and health care advances are mitigating the drawbacks of aging populations as well as how factors such as autonomous defense systems and artificial intelligence present new challenges Rigorous and timely *Asia's Aging Security* makes a forceful case that adjustment to demographic change is a necessity for twenty first century foreign policy *The Politics of Japanese Defense* Joseph P. Keddell, 2016-09-16 The ruling Liberal Democratic Party of Japan uses incremental changes to manage conflicting pressures over defence This work focuses on the establishment of defence policy constraints through 1992 It discusses the various implications of using defence policy as a means of conflict management **Propelling India from Socialist Stagnation to Global Power: Policy reforms** Arvind Virmani, 2006 Presenting a comprehensive retrospective of India's economic policies and performances this study includes an in depth analysis of a wide range of issues from a variety of perspectives historical global institutional and political economic The discussion explores the tripolar world comprised of the United States China and India as the changing dominant players in global power **Propelling India from Socialist Stagnation to Global Power: Growth process** Arvind Virmani, 2006 Presents a comprehensive retrospective of India's economic policies and performances including an in depth analysis of a wide range of issues from a variety of perspectives historical global institutional and political economic The discussion explores the tripolar world comprised of the United States China and India as the changing dominant players in global power **Forging a Singaporean Statehood: 1965-1995** Robin Ramcharan, 2021-10-25 This work takes an in depth look at the multi faceted contemporary relationship between Singapore and Japan since the end of World War II It is the story of a relationship between an economic superpower Japan and an enterprising city state whose leaders have sought to emulate not only Japan's

economic success but several key facets of Japanese society as well. No other country surpasses Singapore in its public admiration of Japan. How is it possible for a multi ethnic Singapore to emulate a relatively homogeneous Japan? What features of economic and political motives behind the attempt to emulate Japan? These and other questions are addressed in this work which will be of interest to scholars of the international relations and security of East and Southeast Asia.

Defense And Detente Joseph I Coffey, 2022-06-30 This study will attempt to define precisely the nature of the differences between the United States and the FRG with respect to a particular set of issues arising out of the policy of Defense and Detente which is intended to insure peace and security in Europe. More importantly it will also try to uncover the reasons for those differences in order to see whether to what extent and by what means the policies of the two countries can be brought closer together. In short this study is an attempt at policy prescription based on an analysis of factors influencing previous policies and programs.

Limits of Soviet Power Edward A. Kolodziej, Roger E. Kanet, 2015-12-25 An evaluation of Soviet efforts to penetrate the major regions in the southern hemisphere concluding that success has been modest and continues to be costly. It is suggested that a world society could emerge based on socio economic and political competition rather than conflict and arms races.

Foreign Policy and Energy Security Issues in Indonesia Athiqah Nur Alami, Ganewati Wuryandari, R.R Emilia Yustiningrum, Nanto Sriyanto, 2017-05-25 This book examines energy security as one of nontraditional issues that are strategic for Indonesia's foreign policy. It argues that energy has not been considered as a strategic commodity in the foreign policy to support the effectiveness of Indonesia's diplomacy at the regional and international levels. International and outward looking perspectives have not been much visible both in the policy and political realities. Since foreign policy is a reflection of domestic politics under the influence of international developments this study focuses its analysis on the domestic and international aspects of the energy security issues.

China and International Security Donovan C. Chau, Thomas M. Kane, 2014-04-17 The first work of its kind this strategic assessment of China's national security reveals the nation's intentions capabilities and threats and their implications for the United States and the world. As China continues to develop the strategic means to advance its national interests in Asia and around the world assessing its role in international security is the greatest strategic challenge now faced by the United States and its allies. China and International Security facilitates this critically important understanding analyzing topics that range from strategic geography and orientation to gender ratios. Using detailed case studies and sharing expert insights the work provides historical internal and contemporary analyses that reveal the nature and character of China's national security. This three volume set is written for scholars students and policymakers. The volumes offer in depth articles penned by intelligence professionals and journalists as well as entries by scholars in fields as diverse as international politics history and strategic studies. While other works may attempt to predict the future of China's rise or the nature of China's future bilateral relationships none so thoroughly examines the totality of China's domestic regional and

international security and their implications *Helsinki in Asia?* Stephen Blank,1993 The author considers some of the implications of a multilateral and even collective framework for Asian policy and security in light of the Clinton administration's intent to recast U S policy in the Asian Pacific region in a more multilateral framework The author analyzes some of the overall problems and suggests pitfalls and opportunities that exist for the United States as it prepares for this historic shift in policy in this increasingly critical area of the world He concludes that while multilateralism is not feasible in defense issues at present it merits consideration in international economic relations that could serve as a bridge to further developments in the future Post cold war Asia Asian Pacific states American Pacific policy Multilateralism International economic relations defense Bilateral treaty relations **The International Politics of the Asia Pacific** Michael Yahuda,2012-12-06 This second edition of Michael Yahuda's extremely successful textbook introduces students to the international politics of the Asia Pacific region since 1945 The new edition is completely updated with contemporary coverage of the economic crises and includes new chapters on the current role of East Asia in world affairs prospects post 2000 the strengths and weaknesses of US dominance and the challenge of other powers prospects for and implications of an East Asian economic recovery *Chinese-Japanese Competition and the East Asian Security Complex* Jeffrey Reeves,Jeffrey Hornung,Kerry Lynn Nankivell,2017-07-14 This volume examines contemporary diplomatic economic and security competition between China and Japan in the Asia Pacific region The book outlines the role that Sino Japanese competition plays in East Asian security an area of study largely overlooked in contemporary writing on Asian security which tends to focus on US China relations and or US hegemony in Asia The volume focuses on Chinese and Japanese foreign policy under President Xi Jinping and Prime Minister Shinz Abe and regional security dynamics within and between Asian states institutions since 2012 It employs regional security complex theory as a theoretical framework to view Chinese and Japanese competition in the Asian region In doing so the volume draws on a levels of analysis approach to demonstrate the value in looking at security in the Asia Pacific from a regional rather than global perspective The vast majority of existing research on the region's security tends to focus on great power relations and treats Asia as a sub region within the larger global security architecture In contrast this volume shows how competition between the two largest Asian economies shapes East Asia's security environment and drives security priorities across Asia's sub regions As such this collection provides an important contribution to discussion on security in Asia one with potential to influence both political and military policy makers security practitioners and scholars This book will be of much interest to students of Asian politics regional security diplomacy and international relations
