Security Dentente Conflicting Priorities In German Foreign Policy

Thomas Banchoff

Security Dentente Conflicting Priorities In German Foreign Policy:

Security and Detente Helga Haftendorn, 1985 Bogen behandler Vesttysklands udenrigspolitik fra 1955 1985 herunder forholdet til Sovjetunionen stpolitikken Berlinsp rgsm let og forholdet til NATO **The German Problem Transformed** Thomas Banchoff, 2010-05-06 Does the new more powerful Germany pose a threat to its neighbors Does the new German Problem resemble the old The German Problem Transformed addresses these questions fifty years after the founding of the Federal Republic and ten years after the fall of the Berlin Wall Many observers have underscored the reemergence of Germany as Europe s central power After four decades of division they contend Germany is once again fully sovereign without the strictures of bipolarity its leaders are free to define and pursue national interests in East and West From this perspective the reunified Germany faces challenges not unlike those of its unified predecessor a century earlier The German Problem Transformed rejects this formulation Thomas Banchoff acknowledges post reunification challenges but argues that postwar changes not prewar analogies best illuminate them The book explains the transformation of German foreign policy through a structured analysis of four critical postwar junctures the cold war of the 1950s the d tente of the 1960s and 1970s the new cold war of the early 1980s and the post cold war 1990s Each chapter examines the interaction of four factors international structure and institutions foreign policy ideas and domestic politics in driving the direction of German foreign policy at a key turning point This book will be of interest to scholars and students of German history German politics and European international relations as well as policymakers and the interested public Thomas Banchoff is Assistant Professor of Government Georgetown University **After the Cold War** Alpo M. Rusi, 1991-05-31 This book provides new and exceptional interpretations in regard to the post World War 2 history of the East West conflict and calls for interdisciplinary approaches in analyzing international relations The systematic and political processes are undoing the division of Europe and restoring an organically interdependent continent The events of 1989 in Eastern Europe are but a harbinger of a new security order in Europe and for the first time since the Treaty of Westphalia of 1648 Europe tries to look beyond state centered concepts of security **Professional Journal of the United States Army** , 1986 Security and Detente Helga Haftendorn, 1985 Bogen behandler Vesttysklands udenrigspolitik fra 1955 1985 herunder forholdet til Sovjetunionen stpolitikken Berlinsp rgsm let og forholdet til NATO Human Rights in the New Europe David P. Forsythe, 1994-01-01 I The global setting East-west Conflict Michael D. Intriligator, 2019-04-09 This book aims to bring together American and West German scholars in order to analyze U S German and Soviet elite perceptions of East West conflict It attempts to assess the policy implications and political options for the West *The Changing Politics of German Security* Stephen F. Szabo, 1990 **Military Review** , 1986-07 Security Studies Arda Özkan, Gökürk Tüysüzoglu, 2023-07-10 As an important aspect of human polity the concept of security has an important place and space in politics Though regularly mentioned or referred the concept is rarely given a proper definition usually left in the shadows of politics and policymaking and usually

referred as a cause to an effect Within the framework of this book classic modern and post modern security issues are analyzed while also focusing on the classical and diverse conceptual dimensions of security current problems are also evaluated especially in the axis of post modern security studies In security studies a distinction is usually made between classical and post modern approaches but in this study both are considered together One of the important features of this work is that it offers a perspective from Turkish experts on the concept of security in international relations *Bundeswehr and Western Society* Stephen F. Szabo,1990-06-18 The American institute for contemporary German studies which sponsors research and discussion on German politics foreign policy and history since 1945 has compiled this book on the German army and its involvement with NATO German politics and future strategic alternatives **North Atlantic Treaty Organization** Phil Williams,2024-11-01 This volume consists of major books written in the English language on NATO as well as an extensive listing of journal articles that deal with various aspects of the Alliance All the major debates that have taken place over the last forty years are discussed The Wilsonian Impulse Mary N. Hampton,1996-07-11 Mary Hampton argues that a set of ideas that influenced American policymakers in the postwar era help explain the unique evolution of the Western Alliance and Germany's rapid unification in 1990 These ideas called the Wilsonian impulse derived from the historical lessons concerning World War I and the interwar years learned by prominent American policymakers The most important lesson was that a trans Atlantic community of nations must be built that included a democratic and equal Germany West German leaders were persistent in appealing to the Wilsonian impulse to promote their national interests In particular Bonn was able to ensure over time Washington's pledge to aid in the peaceful unification of Germany The success of that policy became evident in 1990 Recent works in international relations theory have explored the impact of ideas on international institutions and on the foreign policymaking process This study contributes to that literature by examining the role ideas have had on the evolution of Western relations in the postwar era Hampton focuses on the cluster of ideas she calls the Wilsonian impulse Derived from the historical lessons drawn from World War I and the interwar years these distinctly Wilsonian ideas largely constructed the beliefs that American foreign policymakers held about trans Atlantic relations in the immediate postwar period Central was the belief that the European balance of power system must be superseded by a Western community of nations wherein a democratic Germany would be included on an equal basis Hampton examines how the influence of the Wilsonian impulse permitted West German leaders to gain rapid entrance into the Western Alliance on favorable terms More importantly the U S led the West in sharing responsibility for the eventual unification of Germany as part of the Allied pledge of support for Bonn The peaceful unification of Germany in 1990 brought to fruition the future envisioned by the Wilsonian impulse This book will be of interest to scholars and researchers of 20th century American foreign policy and modern German history *The United States and Germany in the Era of the Cold War, 1945-1990* Detlef Junker,Philipp Gassert,Wilfried Mausbach,David B. Morris,2004-05-17 Publisher Description **Air University Library Index to Military**

Periodicals ,1986 **Cold War Politics in Post War Germany** D. Patton,1999-02-14 During the Cold War the Federal Republic of Germany FRG a divided nation on the front line of the East West confrontation came down with pneumonia every time the superpowers sneezed Due to the East West confrontation splitting Germany in two the Cold War remained irrevocably linked to the question of German unity In *The Politics of Foreign Policy in Post War Germany* David Patton develops the links between Cold War international pressures and German domestic coalitions The book examines a politics in uncertain times with three major shifts in Cold War relations disrupting politics as usual in the Federal Republic In the early 1950s external pressures led to a wrenching internal debate over rearmament Twenty years later the thaw in Cold War tensions set the stage for a fierce domestic showdown over détente with Eastern Europe In the early 1990s Chancellor Helmut Kohl took full advantage of the end of the Cold War to implement his controversial unification policy At each juncture the Federal Republic experienced intense debates over national unity the increased stature of the chancellor in the policy making process the emergence of new domestic alliances and a sudden foreign policy reversal Patton's examination of these three periods reveals how the Federal Republic has changed yet stayed the same in the post war era *The International Who's Who of Women* 2002 Elizabeth Sleeman,2001 Over 5 500 detailed biographies of the most eminent talented and distinguished women in the world today *Defense And Detente* Joseph I Coffey,2022-06-30 This study will attempt to define precisely the nature of the differences between the United States and the FRG with respect to a particular set of issues arising out of the policy of Defense and Detente which is intended to insure peace and security in Europe More importantly it will also try to uncover the reasons for those differences in order to see whether to what extent and by what means the policies of the two countries can be brought closer together In short this study is an attempt at policy prescription based on an analysis of factors influencing previous policies and programs *No Better Friend?* Peter Sparding,2025-03 The German American relationship is the decisive transatlantic dynamic of our time Long seen as one of the most stable connections between Europe and America thanks to its well defined Cold War structure and hierarchy relations between Washington and Berlin have become much more volatile in the twenty first century and are playing an increasingly pivotal role in determining the degree to which Europe and the United States will be able to shape a rapidly changing world order Stabilizing this uniquely complicated relationship will be no easy feat At times more closely aligned politically and more intertwined economically than any other transatlantic pair since the end of the Cold War these republics have seen their relations characterized by frequent diplomatic cultural and philosophical clashes and misunderstandings and a trail of disappointed expectations Peter Sparding examines the long history between the two countries and their peoples the narratives and perceptions harbored by each nation concerning the other and the evolution of diplomatic economic and security ties Appraising the complicated interplay between Germany and the United States vis a vis a rising China and the domestic challenges facing both countries his book offers an outlook on how this all important relationship might function

going forward *Superpower Detente* Mike Bowker, Phil Williams, 1988-12 *Superpower Detente* is an outstanding assessment of the highs and lows in the relationship between the two superpowers in the 1970s and the prospects for a continuing detente between them in the 1980s This thorough examination of the 1970s reminds us that improvements early in that decade gave way to stalemate and the demise of detente The early 1970s saw the most far reaching moves toward detente since the inception of the Cold War But Bowker and Williams suggest the coincidence of interests between the superpowers hid divergent conceptions of what detente was and what kind of behaviour it required
