Security In The New Millennium Views From South Asia:

Southeast Asian Security in the New Millennium Richard J. Ellings, Sheldon W. Simon, 2016-09-16 Assessing trends toward creating innovative forms of political economic and security co operation in Southeast Asia this text discusses the international dynamics of Southeast Asian security and its impact on such external factors as the US China and Japan

South Asia Security Manan Dwivedi, 2009 The academic work titled as South Asia Security is a honest striving to delve into the notion of security in the South Asian Region which is under the arc of the Indian subcontinent The Book objectifies the differentiation between the traditional and convention notions of security which is avowedly power centric with the new tenet of Comprehensive Human security which entails the concerns of sustainable development Human Rights Gender Empowerment along with the notions of Globalization and all pervading tenet of Interdependence with the advent of neo liberal institutionalism The book aims to posit the traditional bilaterals in the South Asian firmament in the larger than life matrix of new age convergence and Interdependence *Southeast Asian Security in the New Millennium*, 1996 *Security in the New Millennium* Rajesh M. Basrur, 2001 In South Asia the expanded people centric conception of security is gradually finding voice Yet the older elitist notion of security remains well entrenched within the power structure of state and society In this volume eminent scholars from the region break out of the mould and draw attention to the diverse facets of security from the standpoint of the average South Asian man woman and child They explore vital security issues relating to economic well being ethnic identity religion gender and political legitimacy In doing so they seek a more comprehensive and democratic basis for the understanding of security in the region *South Asia in 2020* Michael R. Chambers, 2002

Globalization and Environmental Challenges Hans Günter Brauch, Úrsula Oswald Spring, Czeslaw Mesjasz, John Grin, Pál Dunay, Navnita Chadha Behera, Béchir Chourou, Patricia Kameri-Mbote, P. H. Liotta, 2008-01-23 Put quite simply the twin impacts of globalization and environmental degradation pose new security dangers and concerns In this new work on global security thinking 91 authors from five continents and many disciplines from science and practice assess the worldwide reassessment of the meaning of security triggered by the end of the Cold War and globalization as well as the multifarious impacts of global environmental change in the early 21st century **Nuclear Risk Reduction in South Asia** Michael Krepon, 2004-11-26 The essays in this collection explore and analyze how to reduce the risk of nuclear war in South Asia Contributors work to introduce the theory and methodology of nuclear risk reduction to provide specific measures that might work best in the region and to consider the consequences of missile defense options for stability in Asia Much work is needed to reduce nuclear dangers between India and Pakistan While the fact that both countries possess nuclear weapons may prevent a full blown conventional or nuclear war the presence of these weapons in the region may also encourage the use of violence at lower levels expecting escalation to be contained by a mutual desire to avoid the nuclear threshold One only needs to look at the Kashmir conflict for confirmation of this paradox with serious crises coming more frequently with more

severity since the nuclear tests of 1998 Sustained efforts along the line suggested by the contributors of this volume are a crucial step toward reducing nuclear risk on the Subcontinent **South Asia in Transition** B. Chakma,2014-06-25

Malcolm,2023-11-27 This book examines the ways in which cricket has reflected and reproduced some of the social and political tensions of the twenty first century Cricket s struggle for global recognition and the shifting concerns about cricket s perceived character provide two of the most significant meta narratives to shape the game s historical and future development However in contrast to the degree of continuity these narratives appear to support the game is currently undergoing a particularly rapid and radical phase of change This book illustrates some of these dominant processes that can be broadly categorized as the changing political economy of the game the nation specific manifestations of cricket s political economic landscape and the intro and retrospection within the English game Cricket is not only thriving across the world its global spread reveals narratives of migration national and international politics astute governance empowerment of people and cultural practices of everyday life New ethical political and identity related concerns have arisen with the reworking of the objectives and methods of playing and watching cricket The chapters in this volume employ cricket as a useful conceptual tool to analyse the dynamics underwriting interactions between races sexes classes and polities Cricket in the 21st Century will be a fascinating read for students scholars as well as general readers with an interest in the sociology and history of sport and global political economy The chapters in this book were originally published as a special issue of Sport in Society

Prospects for Peace in South Asia Rafiq Dossani, Henry S. Rowen,2005 Dossani s book addresses the largely hostile often violent relations between India and Pakistan that date from their independence in 1947 **Minimum Deterrence and**

Basrur,2009 In this book the leading authority on India s nuclear program offers an informed and thoughtful assessment of India s nuclear strategy Basrur shows that the country s nuclear culture is generally in accord with the principle of minimum deterrence but sometimes drifts into a more open ended view Asian Security
