A History of European Literature Walter Cohen, 2017-01-19 Walter Cohen argues that the history of European literature and each of its standard periods can be illuminated by comparative consideration of the different literary languages within Europe and by the ties of European literature to world literature World literature is marked by recurrent systematic features outcomes of the way that language and literature are at once the products of major change and its agents Cohen tracks these features from ancient times to the present distinguishing five main overlapping stages Within that framework he shows that European literatures ongoing internal and external relationships are most visible at the level of form rather than of thematic statement or mimetic representation European literature emerges from world literature before the birth of Europe during antiquity whose Classical languages are the heirs to the complex heritage of Afro Eurasia This legacy is later transmitted by Latin to the various vernaculars The uniqueness of the process lies in the gradual displacement of the learned language by the vernacular long dominated by Romance literatures That development subsequently informs the second crucial differentiating dimension of

European literature the multicontinental expansion of its languages and characteristic genres especially the novel beginning in the Renaissance This expansion ultimately results in the reintegration of European literature into world literature and thus in the creation of today's global literary system The distinctiveness of European literature is to be found in these interrelated trajectories

Imagining Exile in Heian Japan

Jonathan Stockdale, 2015-02-28 For over three hundred years during the Heian period 794-1185 execution was customarily abolished in favor of banishment. During the same period exile emerged widely as a concern within literature and legend in poetry and diaries and in the cultic imagination as expressed in oracles and revelations. While exile was thus one sanction available to the state it was also something more: a powerful trope through which members of court society imagined the banishment of gods and heavenly beings of legendary and literary characters and of historical figures some transformed into spirits. This compelling and well researched volume is the first in English to explore the rich resonance of exile in the cultural life of the Japanese court. Rejecting the notion that such narratives merely reflect a timeless literary archetype Jonathan Stockdale shows instead that in every case narratives of exile emerged from particular historical circumstances moments in which elites in the capital sought to reveal and to re-imagine their world and the circulation of power within it. By exploring the relationship of banishment to the structures of inclusion and exclusion upon which Heian court society rested Stockdale moves beyond the historiographical discussion of center and margin to offer instead a theory of exile itself. Stockdale's arguments are situated in astute and careful readings of Heian sources. His analysis of a literary narrative the Tale of the Bamboo Cutter for example shows how Kaguyahime's exile from the Capital of the Moon to earth implicitly portrays the world of the Heian court as a polluted periphery. His exploration of one of the most well known historical instances of banishment that of Sugawara Michizane illustrates how the political sanction of exile could be met with a religious rejoinder through which an exiled noble is reinstated in divine form first as a vengeful spirit and then as a deity worshipped at the highest levels of court society. *Imagining Exile in Heian Japan* is a model of interdisciplinary scholarship that will appeal to anyone interested in the interwoven connections among the literature politics law and religion of early and classical Japan.

The Routledge Research Companion to Travel Writing Alasdair Pettinger, Tim Youngs, 2019-07-30 Showcasing established and new patterns of research *The Routledge Research Companion to Travel Writing* takes an interdisciplinary approach to scholarship and to travel texts themselves. The volume adopts a thematic approach with each contributor considering a specific aspect of travel writing a recurrent motif an organising principle or a literary form. All of the essays include a discussion of representative travel texts to ensure that the volume as a whole represents a broad historical and geographical range of travel writing. Together the 25 essays and the editors' introduction offer a comprehensive and authoritative reflection of the state of travel writing criticism and lay the ground for future developments. **Uchida**

Hyakken Rachel DiNitto, 2020-03-17 The literary career of Uchida Hyakken 1889-1971 encompassed a wide variety of styles and genres including fiction *zuihitsu* essays war diaries poetry travelogues and children's stories. In discussing his oeuvre critics have circumscribed Hyakken to a private literary realm detached from the era in which he wrote. Rachel DiNitto provides a critical corrective by locating in Hyakken's simple yet powerful literary language a new way to appreciate the various literary reactions to the modernization of the early decades of the twentieth century and a means to open up a

literary space of protest an alternate intellectual response to the era of militarism This book takes up Hyakken s fiction and essays written during Japan s prewar years to investigate the intersection of his literature with the material and discursive surroundings of the time a consumer oriented print culture the popular entertainment of film the capitalist and cultural force of an emergent middle class a planned yet sprawling metropolis and the war machine of an expanding Japanese empire Emerging from this analysis is a writer who relied on the quotidian language of the everyday and the symbols of cultural modernism to counter the harsh realities of modernization and imperialism and to express sentiments contrary to the mainstream ideological rhetoric of the time
