Seeing Through Self Deception

Annette Barnes

Seeing Through Self Deception:

Seeing Through Self-Deception Annette Barnes, 1998-01-22 Annette Barnes offers a challenge to the standard characterization of other deception and self deception Self-Deception's Puzzles and Processes Jason Kido Lopez, 2016-08-16 The contemporary literature on self deception was born out of Jean Paul Sartre's work on bad faith lying to oneself As time has progressed the conception of self deception has moved further and further away from Sartre's conception of bad faith In *Self Deception's Puzzles and Processes A Return to a Sartrean View* Jason Kido Lopez argues that this departure is a mistake and that we should return to thinking about self deception in a Sartrean fashion in which we are self deceived when we intentionally use the strategies and methods of interpersonal deception on ourselves Since literally tricking ourselves cannot work we will always see through our own self deception after all self deception merely consists of the attempt to trick ourselves in this way Other scholars have rejected this notion of self deception historically dismissing it as paradoxical Lopez argues first that it isn't paradoxical and he further suggests that moving away from this notion of self deception has caused the contemporary literature on the topic to be littered with disparate and conflicting theories Indeed there are a great many ways to avoid the allegedly paradoxical Sartrean notion of self deception and the resulting plethora of accounts lead to a fragmented picture of self deception If however the Sartrean view isn't paradoxical then there was no need for the host of contradictory theories and most researchers on self deception have missed what was originally so intriguing about self deception that it like bad faith is the process of literally trying to trick oneself into believing what is false or unwarranted *Self Deception's Puzzles and Processes* will be of great interest to students and scholars of epistemology philosophy of mind psychology and continental philosophy and to anyone else interested in the problems of self deception

Human Agency and Divine Will Charlotte Katzoff, 2020-05-26 This book explores the conjuncture of human agency and divine volition in the biblical narrative sometimes referred to as double causality A commonly held view has it that the biblical narrative shows human action to be determined by divine will Yet when reading the biblical narrative we are inclined to hold the actors accountable for their deeds The book then challenges the common assumptions about the sweeping nature of divine causality in the biblical narrative and seeks to do justice to the roles played by the human actors in the drama God's causing a person to act in a particular way as He does when He hardens Pharaoh's heart is the exception rather than the rule On the whole the biblical heroes act on their own their personal initiatives and strivings are what move the story forward How does it happen then that events remarkably conspire to realize God's plan The study enlists concepts and theories developed within the framework of contemporary analytic philosophy featured against the background of classical and contemporary bible commentary In addressing the biblical narrative through these perspectives this book holds appeal for scholars of a variety of disciplines bible studies philosophy religion and philosophical theology as well as for those who simply delight in reading the Bible *From Morality to Mental Health* Mike W. Martin, 2006-04-20 Morality and mental health are

now inseparably linked in our view of character Alcoholics are sick yet they are punished for drunk driving Drug addicts are criminals but their punishment can be court ordered therapy The line between character flaws and personality disorders has become fuzzy with even the seven deadly sins seen as mental disorders In addition to pathologizing wrong doing we also psychologize virtue self respect becomes self esteem integrity becomes psychological integration and responsibility becomes maturity Moral advice is now sought primarily from psychologists and therapists rather than philosophers or theologians In this wide ranging accessible book Mike W Martin asks are we replacing morality with therapy in potentially confused and dangerous ways or are we creatively integrating morality and mental health According to him it s a little bit of both He surveys the ways in which morality and mental health are related touching on practical concerns like love and work self respect and self fulfillment guilt and depression crime and violence and addictions Terming this integrative development the therapeutic trend in ethics Martin uses examples from popular culture various moral controversies and draws on a line of thought that includes Plato the Stoics Freud Nietzsche and contemporary psychotherapeutic theories Martin develops some interesting conclusions among them that sound morality is indeed healthy and that moral values are inevitably embedded in our conceptions of mental health In the end he shows how both morality and mental health are inextricably intertwined in our pursuit of a meaningful life This book will be of interest to philosophers psychologists psychiatrists and sociologists as well as the general reader

Blaise Pascal on Duplicity, Sin, and the Fall William Wood, 2013-07-04 Blaise Pascal s account of the cognitive consequences of the Fall is clearly set out by William Wood in the first book on Pascal s theology to appear in English in more than forty years Wood s central claim is that for Pascal the Fall is a fall into duplicity Pascal holds that as fallen selves in a fallen world human beings have an innate aversion to the truth that is also at the same time an aversion to God According to Pascal we are born into a duplicitous world that shapes us into duplicitous subjects and so we find it easy to reject God continually and deceive ourselves about our own sinfulness Pascal s account of the noetic effects of sin has long been overlooked by theologians but it is both traditional and innovative It is robustly Augustinian with a strong emphasis on the fallen will the darkened intellect and the fundamental sin of pride Yet it also embraces a view of subjectivity that seems strikingly contemporary For Pascal the self is a fiction constructed from without by an already duplicitous world The human subject is habituated to deception because it is the essential glue that holds his world together This book offers more than just a novel interpretation of Pascal s Pens es Wood demonstrates by exegetical argument and constructive example that Pascalian theology is both possible and fruitful

The Theological Project of Modernism Kevin W. Hector, 2015-06-25 Modernism s theological project was an attempt to explain two things firstly how faith might enable persons to experience their lives as hanging together even in the face of disintegrating forces like injustice tragedy and luck and secondly how one could see such faith and so a life held together by it as self expressive Modern theologians such as Kant Schleiermacher Hegel Ritschl and Tillich thus offer accounts of how one s life would have to hang together such that

one could identify with it of the oppositions which stand in the way of such hanging together of God as the one by whom oppositions are overcome such that one can have faith that one's life ultimately hangs together and of what such faith would have to be like in order for one to identify with it too So understood modern theology not only sheds light on faith's potential role in enabling persons to identify with their lives but stands in unexpected continuity with contemporary contextual theologies This book offers clear careful readings of modernism's key figures in order to explain their relevance to practical concerns and to contemporary understandings of faith

Adaptation and Autonomy: Adaptive Preferences in Enhancing and Ending Life Juha Räikkä, Jukka Varelius, 2013-05-13 This volume gathers together previously unpublished articles focusing on the relationship between preference adaptation and autonomy in connection with human enhancement and in the end of life context The value of individual autonomy is a cornerstone of liberal societies While there are different conceptions of the notion it is arguable that on any plausible understanding of individual autonomy an autonomous agent needs to take into account the conditions that circumscribe its actions Yet it has also been suggested that allowing one's options to affect one's preferences threatens autonomy While this phenomenon has received some attention in other areas of moral philosophy it has seldom been considered in bioethics This book combines for the first time the topics of preference adaptation individual autonomy and choosing to die or to enhance human capacities in a unique and comprehensive volume filling an important knowledge gap in the contemporary bioethics literature

Social Justice in Practice Juha Räikkä, 2014-07-08 In this book the practical dimension of social justice is explained using the analysis and discussion of a variety of well known topics These include the relation between theory and practice in normative political philosophy the issue of justice under uncertainty the question of whether we can and should unmask social injustices by means of conspiracy theories the issues of privacy and the right to privacy the issue of how certain psychological states may affect our moral obligations in particular the obligation to treat others fairly and finally the concepts of morality fairness and self deception The primary goal of the book is to provide readers with an updated discussion of some important and practical social justice issues These issues are presented from a new perspective based on the author's research It is hoped that bringing these topics together in a single book will promote the emergence of new insights and challenges for future research Juha Räikkä is a professor at the Department of Philosophy at the University of Turku Finland His research focuses on ethics and political philosophy

Seeing Through Cynicism Dick Keyes, 2006-07-12 We live in a cynical age Cynicism is in the air we breathe it is a cultural norm it is the default setting and lens through which many of us view the world In this book Dick Keyes explores cynicism in all its manifestations and then looks beyond to alternatives that speak honestly about suspicion trust and hope

Theological Commentary R. Michael Allen, 2011-12-15

The Self-deceiving Muse Alan Singer, 2010 Focuses on the phenomenon of self deception and proposes a radical revision of our commonplace understanding of it as a token of irrationality Argues that self deception can illuminate the rationalistic functions of character Provided by publisher

The

Folly of Fools Robert Trivers, 2011-10-25 Explores the author's theorized evolutionary basis for self-deception which he says is tied to group conflict, courtship, neurophysiology and immunology but can be negated by awareness of it and its results

The Wahhabis seen through European Eyes (1772-1830) Giovanni Bonacina, 2015-03-31 In The Wahhabis seen through European Eyes 1772-1830 Giovanni Bonacina offers an account of the early reactions in Europe to the rise of the Wahhabi movement in Arabia. Commonly pictured nowadays as a form of Muslim fundamentalism, the Wahhabis appeared to many European witnesses as the creators of a deistic revolution with serious political consequences for the Ottoman ancien régime. They were seen either in the light of contemporary events in France or as Islamic theological reformers in the mould of Calvin opposing an established church and devotional traditions. These audacious but fascinating attempts to interpret the unknown by way of the better known are illustrated in Bonacina's book.

An Epistemology of Criminological Cinema David Grčki, Rafe McGregor, 2024-04-23 Standing at the intersection of criminology and philosophy, this book demonstrates the ways in which mythic movies and television series can provide an understanding of actual crimes and social harms. Taking three social problems as its subjects: capitalist political economy, structural injustice and racism, the book explores the ways in which David Fincher's *Fight Club* (1999), HBO's *Game of Thrones* (2011-2019) and Jordan Peele's *Us* (2019) offer solutions by reconceiving justice in terms of personal and collective transformation, utopian thinking and the relationship between racism and elitism respectively. In doing so, the authors set out a theory of understanding the world based on cinematic and televisual works of art and conclude with a template that establishes a methodology for future use. *An Epistemology of Criminological Cinema* is authoritative and accessible ideal reading for undergraduate and postgraduate students, criminologists, philosophers and film, television and literary critics with an interest in social justice and social harm.

The Documentary Film Book Brian Winston, 2019-07-25 Powerfully posing questions of ethics, ideology, authorship and form, documentary film has never been more popular than it is today. Edited by one of the leading British authorities in the field, *The Documentary Film Book* is an essential guide to current thinking on documentary film. In a series of fascinating essays, key international experts discuss the theory of documentary, outline current understandings of its history from pre-Flaherty to the post-Griersonian world of digital iDocs survey.

documentary production from Africa to Europe and from the Americas to Asia consider documentaries by marginalised minority communities and assess its contribution to other disciplines and arts Brought together here in one volume these scholars offer compelling evidence as to why over the last few decades documentary has come to the centre of screen studies

Mirrors of Self Jonathan P. Badgett, 2021-10-14 Orthodox Christology maintains that Jesus Christ is both truly God and truly human As such he is the key to knowing both God and self In a series of applications of christological anthropology Mirrors of Self develops this epistemic premise in dialogue with a diversity of Christian and secular historical and modern perspectives Aspects of human personhood including the ever elusive self gain greater clarity and significance in the light of Christ's person and work At the center of individual human subjectivity we encounter a broken sin blinded self in need of renewal and release What healing we find comes to us as Christ's ecological presence works in and through others the mirrors of self whose instrumental agency Christ employs in service to his own redemptive ends **Contemporary**

Practice and Method in the Philosophy of Religion David Cheetham, Rolfe King, 2008-03-27 Among contemporary Anglo American philosophers and students there is a growing awareness of the need to engage more both with philosophical perspectives of other faith traditions and also the distinctive continental tradition of philosophy This important new collection aims to engage philosophers from a variety of different backgrounds and traditions religious and non religious to stimulate dialogue on philosophical method The volume aims to ask an emerging generation of philosophers who specialize in philosophy of religion to write about their personal understanding of the practice method and future focus of the subject with the ultimate goal of illustrating why this expanding subject area is important Hypocrisy Béla Szabados, Eldon

Soifer, 2004-05-10 What is a hypocrite What role does hypocrisy play in our lives Why is it thought to be such an ugly vice Is it ever acceptable What do we lose in our indifference to it Hypocrisy Ethical Investigations seeks to illuminate the concept of hypocrisy by exploring its multiple roles in our moral and political lives and struggles The authors provide a critical examination of a wide range of perspectives on the nature varieties and significance of hypocrisy arguing that it is a key concept in the investigation of the field of morality in general including its moralizing excesses **The Virtues of**

Happiness Paul Bloomfield, 2016-05 As children we learn life is unfair bad things happen to good people and good things happen to bad people So it is natural to ask Why play fairly in an unfair world If being immoral will get you what you want and you know you can't get caught why not do it The answers as argued herein begin by rejecting the idea that morality and happiness are at odds with one another From this point of view we can see how immorality undermines its perpetrator's happiness self respect is necessary for happiness and immorality undermines self respect As we see how our self respect is conditional upon how we respect others we learn to evaluate and value ourselves and others appropriately The central thesis is the result of combining the ancient Greek conception of happiness eudaimonia with a modern conception of self respect We become happy we live the best life we can only by becoming virtuous by being as courageous just temperate and wise as

can be These are the virtues of happiness This book explains why it is bad to be bad and good to be good and what happens to people s values as their practical rationality develops
