technologies and the politics of mobility The book introduces the concept of networked urban mobilities and lays out a research agenda for the future of mobility studies Each of the contributors represents a specific approach in the field and each article provides cutting edge theoretical and conceptual reflections on the topic Mobility here is understood as a heterogeneous phenomenon that shapes modern societies and cities by emerging in different dimensions as physical social cultural and digital mobilities

**Traces of a Mobile Field** James R Faulconbridge,Allison Hui,2017-10-02 This agenda setting collection critically reflects upon a decade of contributions to the social scientific mobilities turn in order to propose new trajectories for the future of this interdisciplinary research field The chapters are all exemplars of how the past decade of research has opened up new insights into the place of mobilities in societies They also highlight how attempts to look forward towards new conversations understandings and interventions in a mobile world will emerge from the transformations invoked by this field of research Authors foreground issues of power interdisciplinarity transformative technologies fragmented discourses and changing social processes whilst addressing automobility aeromobility tourism communications technologies urban infrastructures migration and emergencies As a whole the collection raises important questions about not only how understandings of mobilities are changing but also how the field of mobilities research is itself on the move The evocative empirical cases and provocative arguments in this book thus highlight the necessity of new concepts conversations methods empirical studies and interventions to address transformations in both the complex mobilities of social worlds and what is examined or taken for granted in mobilities research itself This book was originally published as a special issue of Mobilities
