**Dance and Society in Eastern Africa 1890-1970** T. O. Ranger, 2023-04-28 Dance and Society in Eastern Africa 1890-1970 The Beni Ngoma explores the cultural phenomenon of Beni ngoma, a dance deeply connected to eastern Africa's history and colonial experience. Combining military-inspired music, drill-style choreography, and dynamic social hierarchies, Beni ngoma reflects and critiques colonial influences. This study traces its origins in Swahili traditions, its evolution across rural and urban settings, and its adaptation into forms like Mganda and Kalela. Using archival research, oral histories, and fieldwork, the book reveals how this vibrant cultural form became a powerful expression of African creativity and resilience during a period of profound social transformation. Written by a former University of Dar es Salaam professor, the book offers a fresh approach to understanding the colonial experience in eastern Africa through the lens of popular culture. It situates Beni ngoma within the broader context of social and cultural changes, examining its role in negotiating identity, resistance, and adaptation. Highlighting the interplay between African traditions and colonial modernity, Dance and Society in Eastern Africa invites readers to reconsider how festive practices illuminate the lived experiences of those navigating change. This book is ideal for history enthusiasts and cultural scholars seeking an engaging and insightful perspective on eastern Africa's past. **An Ethos of Blackness** Vivaldi Jean-Marie, 2023-09-26 Rastafari is an Afrocentric social and religious movement that emerged among Afro-Jamaican communities in the 1930s and has many adherents in the Caribbean and worldwide today. This book is a groundbreaking account of Rastafari, demonstrating that it provides a normative conception of Blackness for people of African descent that resists Eurocentric and colonial ideas. Vivaldi Jean-Marie examines Rastafari's core beliefs and practices, arguing that they constitute a distinctively Black system of norms and values at once an ethos and a cosmology. He traces Rastafari's origins in enslaved people's strategies of resistance, Jamaican Revivalism, and Garveyism, showing how it incorporates ancestral religious traditions and emancipatory politics. An Ethos of Blackness draws

out the significance of practices such as avoiding technological exploitation of natural artifacts and the belief in living in harmony with the natural order Jean Marie considers Rastafari's theology exploring its reinterpretation of biblical scriptures and its foundations in the rejection of Christianity's Eurocentrism and racism However he insists before Rastafari can fulfill its promise of liberation for people of African descent it must confront its failure to include women and redress sexism Through rigorous and sensitive reflections on Rastafari culture and cosmology this book offers deeply original insights into the Black theological imagination The Cambridge History of Africa J.
