La interpretación de los sueños Juan Vives Rocabert, 2002-01-01 *Teoría transcultural del arte* Adolfo Colombres, 2005

El autor pretende elaborar una teoría transdisciplinaria del arte desde la periferia considerando que la estética occidental no ha confrontado sus conceptos y modelos con los de otros pueblos y ha preferido imponerlos como un discurso único que no ha servido generalmente para comprender la producción simbólica ajena sino para oscurecerla para borrar o devaluar los sentidos que los otros habrían construido a lo largo de una historia a menudo milenaria *Miradas sobre la sexualidad en el arte y la literatura del siglo XX en Francia y en España* Juan Vicente Aliaga, 2001 *Framing Majismo* Tara

Zanardi, 2016-03-08 Majismo a cultural phenomenon that embodied the popular aesthetic in Spain from the second half of the eighteenth century served as a vehicle to regain Spanish heritage As expressed in visual representations of popular types participating in traditional customs and wearing garments viewed as historically Spanish majismo conferred on Spanish citizens the pictorial ideal of a shared national character In *Framing Majismo* Tara Zanardi explores nobles fascination with and appropriation of the practices and types associated with majismo as well as how this connection cultivated the formation of an elite Spanish identity in the late 1700s and aided the Bourbons objective to fashion themselves as the legitimate rulers of Spain In particular the book considers artistic and literary representations of the majo and the maja purportedly native types who embodied and performed uniquely Spanish characteristics Such visual examples of majismo emerge as critical and contentious sites for navigating eighteenth century conceptions of gender national character and noble identity Zanardi also examines how these bodies were contrasted with those regarded as foreign finding that foreign and national bodies were frequently described and depicted in similar ways She isolates and uncovers the nuances of bodily representation ultimately showing how the body and the emergent nation were mutually constructed at a critical historical moment for both

[Great Spanish Films Since 1950](#) Ronald Schwartz, 2008-09-05 When it began modern Spanish cinema was under strict censorship forced to conform to the ideological demands of the Nationalist regime In 1950 the New Spanish Cinema was born as a protest over General Francisco Franco's policies a new series of directors and films began to move away from the conformist line to offer a bold brand of Spanish realism In the 1950s and early 1960s filmmakers such as Juan Antonio Bardem Luis Garc3a Berlanga and Luis Bu3uel expressed a liberal image of Spain to the world in such films as Muerte de un ciclista Death of a Cyclist Bienvenido Se3or Marshall Welcome Mr Marshall and Viridiana The emergence of new directors continued into the sixties and seventies with Carlos Saura Jos3 Luis Borau V3ctor Erice and others After Franco's death in 1975 censorship was abolished and films openly explored such formerly taboo subjects as sexuality drugs the church the army and the Civil War The Spanish cinema was no longer escapist and entertaining but at long last mirrored the society it depicted While established directors like Saura Bardem and Berlanga continued to produce distinguished work the new wave of Spanish cinema included brilliant films by the likes of Montxo Armend3riz Tasio Fernando Trueba First Work Imanol Uribe The Death of Mikel and Pedro Almod3var Women on the Verge of a Nervous Breakdown In the last couple of decades exciting works by

established filmmakers and newcomers alike continue to be produced including Alejandro Amenábar's *Thesis* Jos Luis Garcés *The Grandfather* and Almodóvar's *Talk to Her* and *Volver* In *Great Spanish Films Since 1950* Ronald Schwartz presents a compendium of outstanding Spanish films from the pre Francoist era through the Spanish New Wave of the 80's and 90's and into the present day Schwartz provides background plot and commentaries of key films from six decades of Spanish cinema In addition to identifying

El camino hacia uno mismo Allan Santos, Marta Salvat, 2016-04-20 La PNL nació como un método de estudio del funcionamiento humano centrado en dejar de usar lo que se piensa sobre el mundo para entender cómo funciona el otro Es lo que llamamos modelar AL principio se enseñaba con determinadas prácticas para educar la atención pero después se interpretaron como técnicas o herramientas de cambio y se perdió mucho al focalizarse en el resultado La disciplina se centra en la capacidad de entender la totalidad que genera la descripción de cómo uno funciona Es interesante entender que el foco de atención no está en qué voy a hacer con el otro sino en cómo estoy funcionando No eres tus pensamientos estos solo son algo que te ocurre Has aprendido a pensar de una determinada manera Propongo desaprender y vivir conforme a la vida misma no en función de lo que se ha aprendido Has aprendido que debes crecer estudiar tener una profesión un empleo público porque te garantiza un futuro mejor Entonces te jubilarás y podrás disfrutar de la vida Cómo vas a disfrutar de la vida cuando has perdido todo Te enseñan que debes tener una vida con determinados patrones y te pasas la vida intentándolo Pero al servicio de quién estás Al tuyo No estás al servicio de esos referentes que vienen de tus padres Pero ellos tampoco eran muy conscientes y repiten lo que les habían enseñado y sigue la rueda Un día tienes que parar y cuestionar esos patrones Este trabajo propone que dentro de nosotros se encuentra toda la sabiduría necesaria para estar bien pero necesitamos estar conectados con ella y no con lo que hemos aprendido porque lo aprendido es una puerta que corta esa conexión
