**Seizing the Future** Michael G. Zey, 2018-04-17 Marked by verve vision and a thorough familiarity with the field this book buoys the spirit challenges conventional thinking and arms the reader as do few comparable works in futuristics Engagingly written and free of both jargon and pretentiousness it sets a high standard for 21st century explorations Arthur B Shostak Drexel University

*The Future Factor* Michael G. Zey, 2017-07-12 The Future Factor offers an inspiring optimistic view of the human future Sociologist Michael G Zey shows how breathtaking innovations in fields such as biotechnology computing robotics medicine energy development and space technology are catapulting global society into a new era of abundance and prosperity As the third millennium begins technological breakthroughs provide unprecedented opportunities for growth profitability and organizational and personal reinvention However to stay ahead of the curve and anticipate future developments before competitors and peers do leaders companies and individuals must be equipped with the capacity to make informed decisions In The Future Factor Zey provides the sophisticated cutting edge knowledge needed to achieve competitive advantage that individuals require to make career and life choices Zey paints a big picture of new forces biogenesis cybergenesis species coalescence and dominionization that are subtly impacting society and the global economy and changing forever the way we live Among the subjects explored in this wide ranging book are the role cybergenesis will play in making humans healthier the universal communication network based on the Internet and virtual reality biogenesis gene therapy and decoding the human genome next generation robots smart machines and their impact on economic growth the colonization of space and the advent of space tourism fusion based energy and its effect on the environment and global economy global transportation and a worldwide superhighway and biotechnological breakthroughs in agriculture and food production

*Technical Report*, 2000    *21st Century Soldiers and Noncommissioned Officers*, 2000    *The Futurist*, 1999    *Rethinking Enterprise Risk Management* Halis Kırıl, 2024-12-17 This book provides a critical analysis of existing enterprise risk management models and practices and proposes innovative solutions to address the challenges associated with implementing enterprise risk management strategies Enterprise risk management activities are not high on the priority agenda of the senior management in both public and private sectors Conceptual ambiguity and methodological gaps in current standards and frameworks make it difficult to effectively implement enterprise risk management Therefore this book s approach to enterprise risk management aims to eliminate the unit based silo approach of traditional risk management adopting a function based silo approach It focuses on the management of fewer and more significant risks associated with high level objectives rather than all business processes of the organization thus increasing the success of enterprise risk management implementation The book would be a valuable read for business executives internal and external auditors business school students and academics

**How the Communist Party of China Manages the Issue of Nationality** Shiyuan Hao, 2015-11-30 This book introduces the background of China s issue of nationality from the very beginning

Throughout the country's history all the nationalities that lived and prospered on Chinese land created a pattern of cultural diversity within national unity through their interaction and integration. The formation of this pattern is due not only to the geographical fact that China covers a broad expanse on the Asian continent but also to the historical fact that it is home to disparate and ancient human heritages and to culturally diverse historical sources. The book's five chapters explain the evolution of the CPC's policy towards nationalities. At the time of the PRC's founding the Common Program in essence an interim Constitution passed by the Chinese People's Political Consultative Congress which was composed of people from all sectors of society and all of China's nationalities not only declared that people of all China's nationalities had equal rights but also stipulated that regional national autonomy would be practiced in all areas where minority nationalities were concentrated that all nationalities had the right to develop their native languages and culture and to maintain or reform their customs and religious beliefs and also mandated that people's governments support the development of minority nationalities in the areas of politics the economy culture and education. In the final section the book demonstrates that the subject of how the CPC addresses nationality related issues is a dynamic one that encompasses the past present and future and is simultaneously an answer a process and a question.

**Ageless Nation** Michael G. Zey, 2014-06-12 In this intriguing volume futurist and author Michael G. Zey imagines a time in which technology has stretched human life spans to four hundred years or more. Genetic engineering cloning and stem cell technology will eradicate diseases and allow for nanoscopic repair and maintenance of the body. Smart drugs and caloric restriction programs will largely stop aging and ensure healthy bodies and sharp minds indefinitely. Grounding his speculation in contemporary scientific research Zey's optimistic vision sees retirement replaced by hiatuses between careers and leisure time spent in multi generational homes. Key players in the debate include supporters like Cambridge University scientist Aubrey de Grey who envisions five thousand year life spans and the radical futurist author Ray Kurzweil who foresees the merging of humans and computers. Organizations such as the Coalition to Extend Life lobby the government for immortality research funding and find opposition in the President's Council on Bioethics and deep ecologists advocating zero population growth. Criticizing current environmental trends as anti progress and anti human Zey's own solutions include controversial measures like human control of weather colonization of outer space and genetically modifying food. He concludes that the eventuality of a modern Fountain of Youth is closer than we think. Zey's predictions about the future are thoughtful and fascinating.
