Selected Essays Of R P Blackmur:

Selected Essays of R.P. Blackmur Richard P. Blackmur, 1986 In the years since Blackmur's death in 1965 literary criticism has changed significantly. Partly in reaction to the 30 year sway of formalist New Criticism exemplified by Blackmur, John Crowe Ransom and Allen Tate it has become fashionable to embrace structuralist and poststructuralist literary theory in an effort to shift attention from the art object and the artist's voice to the cultural and linguistic systems or codes that govern discourse. In the process Blackmur has become part of literary history, respected but unread. In this carefully edited selection of Blackmur's essays Donoghue, a keen critic of modern writing, has rediscovered Blackmur's impressive independence and insight. Selected Essays of R.P. Blackmur Richard P. Blackmur, 1986 Examines the nature of literary criticism and analyzes the works of writers including E. E. Cummings, Henry James, Thomas Mann and Emily Dickinson. **The Cambridge History of Literary Criticism: Volume 7, Modernism and the New Criticism** George Alexander Kennedy, 1989 The history of the most hotly debated areas of literary theory including structuralism and deconstruction. **Encyclopedia of American Poetry: The Twentieth Century** Eric L. Haralson, 2014-01-21 The Encyclopedia of American Poetry: The Twentieth Century contains over 400 entries that treat a broad range of individual poets and poems along with many articles devoted to topics, schools or periods of American verse in the century. Entries fall into three main categories: poet entries which provide biographical and cultural contexts for the author's career; entries on individual works which offer closer explication of the most resonant poems in the 20th century canon; and topical entries which offer analyses of a given period of literary production, school, thematically constructed category or other verse tradition that historically has been in dialogue with the poetry of the United States. **The Practice of Reading** Denis Donoghue, 2000-01-01 This lucid and elegantly written book is a sustained conversation about the nature and importance of literary interpretation. Distinguished critic Denis Donoghue argues that we must read texts closely and imaginatively as opposed to merely or mistakenly theorizing about them. He shows what serious reading entails by discussing texts that range from Shakespeare's plays to a novel by Cormac McCarthy. Donoghue begins with a personal chapter about his own early experiences reading literature while he was living and teaching in Ireland. He then deals with issues of theory, focusing on the validity of different literary theories on words and their performances on the impingement of oral and written conditions of reading and on such current forces as technology and computers that impinge on the very idea of reading. Finally, he examines certain works of literature: Shakespeare's Othello and Macbeth, Swift's Gulliver's Travels, a passage from Wordsworth's The Prelude, a chapter of Joyce's Ulysses, Yeats's Leda and the Swan, and Coole and Ballylee, 1931, and Cormac McCarthy's Blood Meridian, demonstrating what these texts have in common and how they must be differentiated through a sympathetic, imaginative and informed reading. **The Collected Essays of Elizabeth Hardwick** Elizabeth Hardwick, 2017-10-17 The first ever collection of essays from across
