famous for his TV skills but there is so much more to reveal good and bad about the man and his place in Israeli Middle Eastern and world political history Using the juncture of the Oslo Accords to take the reader back to Netanyahu s formative years Neill Lochery a renowned scholar of Middle Eastern politics and history chronicles not only the Prime Minister s life but also the issues his career has encompassed from the rise of militant Islam to the politics of oil from the transformation of Israeli politics by the 24 7 cable news cycle to the US s changing role in the Middle East

The Fall of the House of Bush
Craig Unger,2007-11-13 The presidency of George W Bush has led to the worst foreign policy decision in the history of the United States the bloody unwinnable war in Iraq How did this happen Bush s fateful decision was rooted in events that began decades ago and until now this story has never been fully told From Craig Unger the author of the bestseller House of Bush House of Saud comes a comprehensive deeply sourced and chilling account of the secret relationship between neoconservative policy makers and the Christian Right and how they assaulted the most vital safeguards of America s constitutional democracy while pushing the country into the catastrophic quagmire in the Middle East that is getting worse day by day Among the powerful revelations in this book Why George W Bush ignored the sage advice of his father George H W Bush and took America into war How Bush was convinced he was doing God s will How Vice President Dick Cheney manipulated George W Bush disabled his enemies within the administration and relentlessly pressed for an attack on Iraq Which veteran government official with the assent of the president s father protested passionately that the Bush administration was making a catastrophic mistake and was ignored How information from forged documents that had already been discredited fourteen times by various intelligence agencies found its way into President Bush s State of the Union address in which he made the case for war with Iraq How Cheney and the neocons assembled a shadow national security apparatus and created a disinformation pipeline to mislead America and start the war A seasoned award winning investigative reporter connected to many back channel political and intelligence sources Craig Unger knows how to get the big story and this one is his most explosive yet Through scores of interviews with figures in the Christian Right the neoconservative movement the Bush administration and sources close to the Bush family as well as intelligence agents in the CIA the Pentagon and Israel Unger shows how the Bush administration s certainty that it could bend history to its will has carried America into the disastrous war in Iraq dooming Bush s presidency to failure and costing America thousands of lives and trillions of dollars Far from ensuring our security the Iraq War will be seen as a great strategic pivot point in history that could ignite wider war in the Middle East particularly in Iran Provocative timely and disturbing The Fall of the House of Bush stands as the most comprehensive and dramatic account of how and why George W Bush took America to war in Iraq

BOOKJACKET **The Iron Wall** Avi Shlaim,2015-07-30 Avi Shlaim s *The Iron Wall* Israel and the Arab World is the outstanding book on Israeli foreign policy now thoroughly updated with a new preface and chapters on Israel s most recent leaders In the 1920s hard line Zionists developed the doctrine of the Iron Wall negotiations with the Arabs must always be from a position of military strength and only when sufficiently strong Israel would be able to make peace with her Arab neighbours This doctrine argues Avi Shlaim became central to Israeli policy dissenters were marginalized and many opportunities to reconcile with Palestinian Arabs were lost Drawing on a great deal of new material and interviews with many key participants Shlaim places Israel s political and military actions under and uncompromising lens His analysis will bring scant comfort to partisans on both sides but it will be required reading for anyone interested in this fascinating and troubled region of the world *The Iron Wall* is strikingly fair minded scholarly cogently reasoned and makes enthralling reading Philip Ziegler *Daily Telegraph* Anyone wanting to understand the modern Middle East should start by reading this elegantly written and scrupulously researched book Trevor Royle *Sunday Herald* A milestone in modern scholarship of the Middle East Edward Said *Fascinating* Shlaim presents compelling evidence for a revaluation of traditional Israeli history Ethan Bronner *The New York Times Book Review* Avi Shlaim is Professor of International Relations at St Antony s College Oxford His previous books include *Collusion Across the Jordan* 1988 and *War and Peace in the Middle East* 1995 *The Jewish Legion during the First World War* M.
