Shamanhood Symbolism And Epic Bibliotheca Shamanistica V 9:

Shamanism Mariko Namba Walter, Eva Jane Neumann Fridman, 2004-12-15 A guide to worldwide shamanism and shamanistic practices emphasizing historical and current cultural adaptations This two volume reference is the first international survey of shamanistic beliefs from prehistory to the present day In nearly 200 detailed readable entries leading ethnographers psychologists archaeologists historians and scholars of religion and folk literature explain the general principles of shamanism as well as the details of widely varied practices What is it like to be a shaman Entries describe region by region the traits such as sicknesses and dreams that mark a person as a shaman as well as the training undertaken by initiates They detail the costumes music rituals artifacts and drugs that shamans use to achieve altered states of consciousness communicate with spirits travel in the spirit world and retrieve souls Unlike most Western books on shamanism which focus narrowly on the individual's experience of healing and trance Shamanism also examines the function of shamanism in society from social political and historical perspectives and identifies the ancient continuous thread that connects shamanistic beliefs and rituals across cultures and millennia

Versification Frog, Satu Grünthal, Kati Kallio, Jarkko Niemi, 2021-12-24 Versification describes the marriage of language and poetic form through which poetry is produced Formal principles such as metre alliteration rhyme or parallelism take precedence over syntax and prosody resulting in expressions becoming organised as verse rather than prose The aesthetic appeal of poetry is often linked to the potential for this process to seem mysterious or almost magical not to mention the interplay of particular expressions with forms and expectations The dynamics of versification thus draw a general interest for everyone from enthusiasts of poetry or forms of verbal art to researchers of folklore ethnomusicology linguistics literature philology and more The authors of the works in the present volume explore versification from a variety of angles and in diverse cultural milieus The focus is on metrics in practice meaning that the authors concentrate not so much on the analysis of the metrical systems per se as on the ways that metres are used and varied in performance by individual poets and in relationship to language

Rediscovery of Shamanic Heritage Mihály Hoppál, Gábor Kósa, 2003 This volume is based on a conference on shamanic heritage that took place at the Hungarian Culture Foundation Budapest in April 2000 Some two dozen experts came together from Korea the US Russia France Germany Austria Belgium and Hungary The meeting was a success in terms of scholarly debates and genuine presentations including some film documents on shamanic rituals from different cultures In the course of discussions the cultural value of shamanism has been re-evaluated as the heritage of humanity the important source of performing arts and a reservoir of traditional knowledge
