The Shaman's Mirror Hope MacLean, 2012-08-24 Huichol Indian yarn paintings are one of the world's great indigenous arts sold around the world and advertised as authentic records of dreams and visions of the shamans Using glowing colored yarns the Huichol Indians of Mexico paint the mystical symbols of their culture the hallucinogenic peyote cactus the blue deer spirit who appears to the shamans as they croon their songs around the fire in all night ceremonies deep in the Sierra Madre mountains and the pilgrimages to sacred sites high in the central Mexican desert of Wirikuta Hope MacLean provides the first comprehensive study of Huichol yarn paintings from

their origins as sacred offerings to their transformation into commercial art Drawing on twenty years of ethnographic fieldwork she interviews Huichol artists who have innovated important themes and styles She compares the artists views with those of art dealers and government officials to show how yarn painters respond to market influences while still keeping their religious beliefs Most innovative is her exploration of what it means to say a tourist art is based on dreams and visions of the shamans She explains what visionary experience means in Huichol culture and discusses the influence of the hallucinogenic peyote cactus on the Huichol s remarkable use of color She uncovers a deep structure of visionary experience rooted in Huichol concepts of soul energy and shows how this remarkable conception may be linked to visionary experiences as described by other Uto Aztecan and Meso American cultures *Teaching Religion and Healing* Linda L. Barnes, Inés M. Talamantez, 2006-10-19 The study of medicine and healing traditions is well developed in the discipline of anthropology Most religious studies scholars however continue to assume that medicine and biomedicine are one and the same and that when religion and medicine are mentioned together the reference is necessarily either to faith healing or bioethics Scholars of religion also have tended to assume that religious healing refers to the practices of only a few groups such as Christian Scientists and pentecostals Most are now aware of the work of physicians who attempt to demonstrate positive health outcomes in relation to religious practice but few seem to realize the myriad ways in which healing pervades virtually all religious systems This volume is designed to help instructors incorporate discussion of healing into their courses and to encourage the development of courses focused on religion and healing It brings together essays by leading experts in a range of disciplines and addresses the role of healing in many different religious traditions and cultural communities An invaluable resource for faculty in anthropology religious studies American studies sociology and ethnic studies it also addresses the needs of educators training physicians health care professionals and chaplains particularly in relation to what is referred to as cultural competence the ability to work with multicultural and religiously diverse patient populations

Haunted by the Archaic Shaman H. Sidky, 2008-01-01 Haunted by the Archaic Shaman critically engages the general discourse on shamanism by using ethnographic data gathered among different ethnic groups in the Nepal Himalayas to address several key conceptual issues and problems in the scholarly field of shamanic studies Demystifying Shamans and

Their World Adam J. Rock, Stanley Krippner, 2011-10-14 Shamanism can be described as a group of techniques by which its practitioners enter the spirit world purportedly obtaining information that is used to help and to heal members of their social group. Despite a resurgence of interest in shamanism and shamanic states of consciousness, these phenomena are neither well defined nor sufficiently understood. This multi-disciplinary study draws on the fields of psychology, philosophy, and anthropology with the aim of demystifying shamanism. The authors analyse conflicting perspectives regarding shamanism, the epistemology of shamanic states of consciousness, and the nature of the mental imagery encountered during these states.

The Way of Abundance and Joy Shirley Blanche, 2021-12-21 Shows how to relate to and receive help from the elements, reconnect with nature to access abundance, and joy connects with plants, animals, water, air, and fire. Explores don Alberto's upbringing in a family of yachaks, his initiation, and his personal work to fulfill the Andean prophecy of the Eagle and the Condor. Includes reflections and essays from several of don Alberto's students and others who have worked with him, including Itzhak Beery and John Perkins. Recognized as a master yachak, don Alberto Taxo was a celebrated spiritual elder, shaman, and healer of the pre-Inca Atik Kichwa people from the Andes Mountains of Ecuador. He shared ancient Andean shamanic wisdom and practices in the United States for more than 20 years, his personal quest to fulfill the Andean prophecy that the Eagle and the Condor will fly together in the same sky in harmony. Written with don Alberto's permission and as further fulfillment of the Eagle-Condor prophecy, this book shares don Alberto's teachings and his simple approaches for building a reciprocal relationship with nature centered on Sumak Kausay, the way of joy and abundance. As a yachak, a shaman of the elements, don Alberto showed how to relate to and receive help from nature. When we are connected with nature on an emotional and spiritual level, it creates joy that is deeply healing and can be accessed during life's difficulties. The book discusses traditional Ecuadorian shamanic beliefs and practices, including Andean Inca cosmology, how to connect with plants, animals, air, fire, and water in sacred springs, the ocean, or your shower, and Inca concepts like Pacha, the space-time era in which we live that is now transitioning to a new one of connection and love after 500 years. The book explores don Alberto's upbringing in a family of yachaks, his initiation, and his assumption of the role of shaman for his community. It also includes reflections and essays from don Alberto's students and others who have worked with him, including shamanic teachers Itzhak Beery and John Perkins, showing how he influenced their lives and awakened them to the path of Sumak Kausay.
