Peter Robert Edwin Viereck

Shame And Glory Of The Intellectuals Babbitt Jr Vs The Rediscovery Of Values:

Shame and Glory of the Intellectuals : Babbit Jr. Vs, the Rediscovery of Values Peter Robert Edwin Viereck, 1965

Shame and Glory of the Intellectuals Peter Viereck, **Shame and Glory of the Intellectuals** Peter

Viereck, 2017-07-05 In this classic volume written at the height of the Cold War with a new preface of 2006 Peter Viereck one of the foremost intellectual spokesmen of modern conservatism examines the differing responses of American and European intellectuals to the twin threats of Nazism and Soviet communism In so doing he seeks to formulate a humanistic conservatism with which to counter the danger of totalitarian thought in the areas of politics ethics and art The glory of the intellectuals was the firm moral stance they took against Nazism at a time when appeasement was the preferred path of many politicians their shame lay in their failure to recognize the brutality of Stalinism to the extent of becoming apologists for or accomplices of its tyranny In Viereck's view this failure is rooted in an abandonment of humane values that he sees as a legacy of nineteenth century romanticism and certain strands of modernist thought and aesthetics Among his targets are literary obscurantism as personified by Ezra Pound the academicization of literary culture the rigidity of adversarial avant gardism and the failure of many writers and cultural institutions to conserve the very heritage their political freedom and security depend on Viereck represents their attitude in a series of satirical dialogues with Gaylord Babbitt son of Sinclair Lewis embodiment of conservative philistinism Babbitt Junior is as unreflective as his father but the objects of his credulity are the received ideas of liberal progressivism and avant garde mandarinism Ultimately Viereck's critique stands as a timely rebuke to the extremism of both left and right Up from Conservatism Michael Lind, 1997-07-15 In a no holds barred indictment of the Republican Right Michael Lind once a protege of William F Buckley boldly chronicles how right wing orthodoxy has been corrupted from within Lind exposes the egregious turning points in the Republican agenda and warns of those in the party who are setting America on a course toward irreconcilable class divisions and hostility *A Better World* William L. O'Neill, 2020-09-29 This book chronicles the struggle among non Communist leftists and liberals over American relations with the Soviet Union from 1939 through the 1950s Few now care as passionately and as violently as people did then about Soviet American relations It was a time when friends became enemies and others forged strange alliances all in the name of commitments that today seem remote *A Better World* evokes those times and their choices and explains why these long ago battles still arouse such deep feelings today and should Americans who were pro Soviet without being members of the Communist party progressives as they called themselves had a large emotional investment in the Soviet Union From 1935 to 1939 literally millions joined the Popular Front of pro Soviet organizations O'Neill takes us through the shock of the Stalin Hitler pact of 1939 through the revival of the Popular Front spurred by government and business support after Russia entered the war against Hitler He traces the isolation of the anti Stalinists the rise and fall of Henry Wallace and the eclipse of progressivism And he explores the shifting allegiances of intellectuals as they struggled often with each other

to influence the course of public debate with long lasting consequences for American intellect culture and morals As O Neill observes in his introduction More than any of my other books A Better World inspired correspondents to send me probing or reflective letters It was this response along with the extraordinary critical debate spurred by initial publication of this volume that makes the book s continuing importance clear The dream of achieving a better world through radical violence never dies and the willingness of apologists to cling to utopian visions persists As long as it does the lessons of this book need to be available to us

Karl Marx in America Andrew Hartman,2025-05-27 The vital and untold story of Karl Marx s stamp on American life To read Karl Marx is to contemplate a world created by capitalism People have long viewed the United States as the quintessential anti Marxist nation but Marx s ideas have inspired a wide range of people to formulate a more precise sense of the stakes of the American project Historians have highlighted the imprint made on the United States by Enlightenment thinkers such as Adam Smith John Locke and Thomas Paine but Marx is rarely considered alongside these figures Yet his ideas are the most relevant today because of capitalism s centrality to American life In Karl Marx in America historian Andrew Hartman argues that even though Karl Marx never visited America the country has been infused shaped and transformed by him Since the beginning of the Civil War Marx has been a specter in the American machine During the Gilded Age socialists read Marx as an antidote to the unchecked power of corporations In the Great Depression communists turned to Marx in hopes of transcending the destructive capitalist economy The young activists of the 1960s were inspired by Marx as they gathered to protest an overseas war Marx s influence today is evident too as Americans have become increasingly attuned to issues of inequality labor and power After decades of being pushed to the far left corner of intellectual thought Marx s ideologies have crossed over into the mainstream and are more alive than ever Working class consciousness is on the rise and as Marx argued the future of a capitalist society rests in the hands of the people who work at the point of production A valuable resource for anyone interested in Marx s influence on American political discourse Karl Marx in America is a thought provoking account of the past present and future of his philosophies in American society

Buckley Sam Tanenhaus,2025-06-03 A magnificent achievement a long gripping and enthralling account of the life of America s premier conservative polemicist of the twentieth century Max Boot author of Reagan His Life and Legend A rich immersive biography exposes the roots of the modern conservative movement through the life of the firebrand writer and commentator who shaped it The New York Times Book Review Editors Choice In 1951 with the publication of God and Man at Yale a scathing attack on his alma mater twenty five year old William F Buckley Jr seized the public stage and commanded it for the next half century as he led a new generation of conservative activists and ideologues to the peak of political power and cultural influence Ten years before his death in 2008 Buckley chose prize winning biographer Sam Tanenhaus to tell the full uncensored story of his life and times granting him extensive interviews and exclusive access to his most private papers Thus began a deep investigation into the vast and often hidden universe of Bill Buckley and the modern conservative

revolution Buckley vividly captures its subject in all his facets and phases founding editor of National Review the twentieth century's most influential political journal syndicated columnist Emmy winning TV debater and bestselling spy novelist ally of Joseph McCarthy and Barry Goldwater mentor to Ronald Reagan game changing candidate for mayor of New York Tanenhaus also has uncovered the darker trail of Bill Buckley's secret exploits including CIA missions in Latin America dark collusions with Watergate felon Howard Hunt and Buckley's struggle in his last years to hold together a movement coming apart over the AIDS epidemic culture wars and the invasion of Iraq even as his own media empire was unraveling At a crucial moment in American history Buckley offers a gripping and powerfully relevant story about the birth of modern politics and those who shaped it

Conservatives Against Capitalism Peter Kolozi, 2017-08-08 Few beliefs seem more fundamental to American conservatism than faith in the free market Yet throughout American history many of the major conservative intellectual and political figures have harbored deep misgivings about the unfettered market and its disruption of traditional values hierarchies and communities In *Conservatives Against Capitalism* Peter Kolozi traces the history of conservative skepticism about the influence of capitalism on politics culture and society Kolozi discusses conservative critiques of capitalism from its threat to the Southern way of life to its emasculating effects on American society to the dangers of free trade considering the positions of a wide ranging set of individuals including John Calhoun Theodore Roosevelt Russell Kirk Irving Kristol and Patrick J Buchanan He examines the ways in which conservative thought went from outright opposition to capitalism to more muted critiques ultimately reconciling itself to the workings and ethos of the market By analyzing the unaddressed historical and present day tensions between capitalism and conservative values Kolozi shows that figures regarded as iconoclasts belong to a coherent tradition and he creates a vital new understanding of the American conservative pantheon

History, Historians, and Conservatism in Britain and America Reba Soffer, 2009 Reba Soffer examines the subjects motives and origins of conservative historians who were also successful public intellectuals Providing a comprehensive account of the content context and consequences of conservative ideas Soffer explains their dominance in Britain and marginalization in America until the Reagan ascendancy

Anti-Communism in Twentieth-Century America Larry Ceplair, 2011-10-05 This compelling critical analysis of anti communism illustrates the variety of anti Communist styles and agendas thereby making a persuasive case that the threat of domestic communism in Cold War America was vastly overblown In the United States today communism is an ideology or political movement that barely registers in the consciousness of our nation Yet merely half a century ago communist was a buzzword that every citizen in our nation was aware of a term that connoted traitor and almost certainly a characterization that most Americans were afraid of *Anti Communism in Twentieth Century America A Critical History* provides a panoramic perspective of the types of anti communists in the United States between 1919 and the collapse of the Soviet Union It explains the causes and exceptional nature of anti communism in the United States and divides it into eight discrete categories This title then thoroughly

examines the words and deeds of the various anti Communists in each of these categories during the three Red Scares in the past century The work concludes with an unapologetic assessment of domestic anti communism This book allows readers to more fully comprehend what the anti communists meant with their rhetoric and grasp their impact on the United States during the 20th century and beyond for example how anti communism has reappeared as anti terrorism Transplantings Peter Viereck,2017-09-08 On being told that translation is an impossible thing Anatole France replied precisely my friend the recognition of that truth is a necessary preliminary to success in art The task of Transplantings is to add flesh and bones to that familiar quip Indeed Daniel Weissbort notes that Viereck s study represented a sixty five year long project Now it is finally being brought to print in its full form with the completion of the final manuscript shortly before Viereck s death If translation is a special genre in its own right the translation of poetry especially from major foreign languages is a special subset of that genre What emerges in the imperfect act of translation is an aesthetic dimension that Viereck considers unique in its own right Transplantings provides new insight into Viereck as a poet of substance but more than that as a public intellectual He is critical in probing the work of the major figures such as Stefan George and Georg Heym To round out this monumental new look at German poetical history Viereck reviews Goethe Novalis and Rilke among others For Viereck the difference between the poetical and the political is critical The quality of poetry is not measured by politics nor can the worth of political action be defined by commitment to the poetical The experience of German thought as well as French and Italian efforts reveals a divide that can be narrowed but hardly bridged by rhetoric Transplantings does not simplify the task of the reader Rather it shows without doubt that the passion of great poetry is part of a national tradition Efforts at translation indicate how such poetry becomes part of an international culture This is a major work by one of the great thinkers of the twentieth century It merits reading and then re reading **The Ukrainian Intelligentsia and Genocide** , Victoria A. Malko,2021-10-19 This study focuses on the first group targeted in the genocide known as the Holodomor Ukrainian intelligentsia the brain of the nation using the words of Raphael Lemkin who coined the term genocide and enshrined it in international law The study s author examines complex and devastating effects of the Holodomor on Ukrainian society during the 1920 1930s Members of intelligentsia had individual and professional responsibilities They resisted but eventually they were forced to serve the Soviet regime Ukrainian intelligentsia were virtually wiped out most of its writers and a third of its teachers The remaining cadres faced a choice without a choice if they wanted to survive The author analyzes how and why this process occurred and what role intellectuals especially teachers played in shaping contesting and inculcating history Crucially the author challenges Western perceptions of the all Union famine that was allegedly caused by ad hoc collectivization policies highlighting the intentional nature of the famine as a tool of genocide persecution and prosecution of the nationally conscious Ukrainian intelligentsia clergy and grain growers The author demonstrates the continuity between Stalinist and neo Stalinist attempts to prevent the crystallization of the nation and subvert Ukraine from within by non lethal

and lethal means *Lionel Trilling and the Critics* John Rodden,1999-01-01 Lionel Trilling and the Critics provides a comprehensive portrait of Lionel Trilling perhaps the most influential American cultural critic of the twentieth century The contributors are a who s who of Anglo American intellectuals from the 1930s through the 1970s They include Edmund Wilson Robert Penn Warren F R Leavis Leslie Fiedler R W B Lewis R P Blackmur Irving Howe Irving Kristol Raymond Williams Norman Podhoretz Gertrude Himmelfarb William Barrett Bruno Bettelheim Gerald Graff and Cornel West **The Cambridge Companion to John F. Kennedy** Andrew Hoberek,2015-04-27 The Cambridge Companion to John F Kennedy explores the creation and afterlife of an American icon **The Fifties** Douglas T. Miller,Marion Nowak,1977 Surveys the social cultural and political history of the United States during the decade of the 1950 s **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1954 Includes Part 1A Number 1 Books January June and Part 1B Number 1 Pamphlets Serials and Contributions to Periodicals January June Unadjusted Man in the Age of Overadjustment , The great critic Peter Viereck in a volume that both reproduces an earlier effort and presents an entirely new work on the intersection of history and literature offers a biting critique of the American desire for normalcy that leads to a culture of the surrender of personality In contrast to this voluntary thought control process is the unadjusted person Cast in the mold of great individualists from Thomas More to Friedrich Nietzsche such a person responds to fundamental values of conscience rather than conformity built exclusively on ego gratification and icon worship Viereck s book is a stinging critique of the liberal presumption of a monopoly in critical thought He argues to the contrary that most varieties of liberal expression offer little else than the common platitude dressed up as critique In such a cultural environment conservatism is the skeleton in the liberal closet The virtue of conservatism is that in its very stress on liberty as dependent on tradition and law it permits the human being an opportunity to test all transient things by the touchstone of all lasting ideas Unadjusted Man cuts deep and in many directions against left totalitarian regimes of Europe and right wannabes like McCarthyism in America For Viereck the art of conserving is not an embrace of utopias to come or empires that were but retaining the sense of individuality over against the senselessness of the massman Civil liberties in this approach are a right to non conspiratorial dissent informed by fundamental values The new material is presented unabashedly without an attempt to rewrite personal history and with an admission that not every prediction made in the original edition has come to fruition That said the underlying themes of the original are not so much repeated as expanded upon For those seeking a work in the classic mold of conservatism rather than the strident reactionary views that have come to dominate much of the conservative dialogue this will be a special book a special entrance to the mind of a great figure in American culture wars of present as well as past *Metapolitics* Peter Viereck,2017-07-12 More than half a century after the fall of the Third Reich Nazism its roots and its essential nature remain a central and unresolved enigma of the twentieth century During the period of Hitler s ascendancy most attempts at explaining this unprecedented phenomenon were framed in economic often Marxist sociological

terms and concepts Peter Viereck's *Metapolitics* initially published in 1941 broke with this convention by indicting Hitler in terms of the Judaic-Christian ethical tradition and locating certain elements of the Nazi worldview in German romantic poetry, music, and social thought. Newly expanded *Metapolitics* remains a key work in the cultural interpretation of Nazism and totalitarianism and in the psychological interpretation of Hitler as a Wagnerite and failed artist. The term *metapolitics*, a coinage from Richard Wagner's nationalist circle, signifies an ideology resulting from five distinct strands: romanticism embodied chiefly in the Wagnerian ethos; the pseudo-science of race; Fuehrer worship; vague economic socialism; and the alleged supernatural and unconscious force of the Volk collectivity. Together, these elements engendered an emphasis on irrationalism and hysteria and belief in a special German mission to direct the course of the world's history. Viereck analyzes nineteenth-century German thought's conflicting attitudes toward political procedures and social arrangements rooted in classical, rational, legalistic, and Christian traditions. This edition includes an appreciation by Thomas Mann and an exchange with Jacques Barzun debating Viereck's criticism of German romanticism. Viereck's essays on the case of Albert Speer, on Claus von Stauffenberg, the German officer who led the army conspiracy to assassinate Hitler, and on the poets Stefan George and Georg Heym appear here for the first time in book form. *International Who's Who in Poetry 2005* Europa Publications, 2004. Provides up-to-date profiles on the careers of leading and emerging poets. [Tide and Continuities](#) Peter Viereck, Joseph Brodsky, 1995-01-01. Peter Viereck's career has been an ongoing experiment in the symbiosis of poetry and history. *Tide and Continuities* is the embodiment and culmination of that career. It includes many new poems never before published and work, some with stunning revisions, from books as recent as his 1987 epic *Archer in the Marrow*. The *Applewood Cycles* and as early as his 1948 Pulitzer Prize-winning collection *Terror and Decorum*. *Tide and Continuities* is the revelation of a great American poet.

Whispering the Secrets of Language: An Psychological Journey through **Shame And Glory Of The Intellectuals Babbitt Jr Vs The Rediscovery Of Values**

In a digitally-driven earth where displays reign great and quick communication drowns out the subtleties of language, the profound strategies and emotional nuances hidden within phrases frequently go unheard. However, nestled within the pages of **Shame And Glory Of The Intellectuals Babbitt Jr Vs The Rediscovery Of Values** a fascinating literary treasure pulsing with natural thoughts, lies a fantastic journey waiting to be undertaken. Published by a talented wordsmith, that enchanting opus encourages readers on an introspective trip, lightly unraveling the veiled truths and profound affect resonating within the cloth of each and every word. Within the psychological depths with this moving review, we can embark upon a sincere exploration of the book is primary styles, dissect its fascinating publishing design, and succumb to the powerful resonance it evokes deep within the recesses of readers hearts.
