Storybook Worlds Made Real Kathy Merlock Jackson, Mark I. West, 2022-04-22 Memorable children's narratives immerse readers in imaginary worlds that bring them into the story. Some of these places have been constructed in the real world like Pinocchio's Tuscany or Anne of Green Gables Prince Edward Island where visitors relive their favorite childhood tales. Theme parks like Walt Disney World and Harry Potter World use technology to engineer enchanting environments that reconnect visitors with beloved fictional settings and characters in new ways. This collection of new essays explores the imagined places we loved as kids with a focus on the meaning of setting and its power to shape the way we view the world. **Tales from**

Panchatantra Madhubun, The Panchatantra is an ancient Indian inter-related collection of animal fables. It is the oldest collection of Indian fables surviving. Both animals and human are portrayed as the characters of the Panchatantra tales. These extraordinary tales are liked even loved by people of all age group because of the fact that they serve as the best guide to instill moral values in children. Zoo Culture Bob Mullan, Garry Marvin, 1999 Why do people go to zoos? Is the role of zoos to entertain or to educate? In this provocative book the authors demonstrate that zoos tell us as much about humans as they do about animals and suggest that while animals may not need zoos, urban societies seem to. A new introduction takes note of dramatic changes in the perceived role of zoos that have occurred since the book's original publication. Bob Mullan and Garry Marvin delve into the assumptions about animals that are embedded in our culture. A thought-provoking glimpse of our own ideas about the exotic, the foreign. Tess Lemmon BBC Wildlife Magazine A thoughtful and entertaining guided tour. David White New Society An unusual and intriguing combination of historical survey, psychological enquiry and compendium of fascinating facts. Evening Standard
