Shaping The Urban Landscape Aspects Of The Canadian Citybuilding Process:

Shaping the urban landscape Gilbert A. Stelter, **Shaping the Urban Landscape** Gilbert A. Stelter, Alan F.J. Artibise, 1982-09-15 This is a collection of essays focusing on the process of city building in Canada The authors weigh the relative broad social economic and technological trends as they attempt to explain the shaping of this urban landscape

Canadian History: Confederation to the present Martin Brook Taylor, Doug Owram, 1994-01-01 In these two volumes which replace the Reader's Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship Cover Changing Canada Wallace Clement, Leah F. Vosko, 2003 Changing Canada examines political transformations welfare state restructuring international boundaries and contexts the new urban experience and creative resistance The authors question dominant ways of thinking and promote alternative ways of understanding and explaining Canadian society and politics that encourage progressive social change They examine how the evolution of capitalism is producing new types of transformations and new forms of resistance and show that aspects of the state and the wider society are being contested They also discuss the often paradoxical or contradictory effects of various social forces such as the liberating but also constraining features of new communications technologies new employment norms and new household forms

American Empire and the Canadian Oil Sands George A. Gonzalez, 2016-04-08 Throughout the US oil and gas shale are being hydrofracked to produce petroleum and natural gas Oil or tar sands from Canada is being processed thereby generating large amounts of crude This book places the unconventional fossil fuels revolution that is taking place in North America within the context of great power politics

Through Sunshine and Shadow Sharon Anne Cook, 1995 The Ontario Woman's Christian Temperance Union WCTU quickly evolved from an organization established to eradicate the consumption of alcohol to become concerned with broader social problems Sharon Cook shows that the WCTU nurtured a distinct feminist culture that promoted the family children and an important public role for women

The Limits of Labour David Bright, 2011-11-01 In a few short decades before the First World War Calgary was transformed from a frontier outpost into a complex industrial metropolis With industrialization there emerged a diverse and equally complex working class David Bright explores the various levels of class formation and class identity in the city to argue that Calgary's reputation as a prewar centre of labour conservatism is in need of revision Bright also delineates the trials of the Calgary labour movement in the 1920s Internal divisions and dissent prevented the movement from realizing the potential strength of the working class Instead even as local capitalism restructured itself political and industrial labour organizations wilfully fragmented their own base of support In particular they failed to address the concerns and needs of the growing number of unemployed in the city a neglect that foreshadowed events of the 1930s This failure left the labour movement unable to meet the challenge of the Great Depression In part at least the demise of labour as a viable political alternative in Calgary paved the way for the rise of Social Credit Using Calgary

as a model The Limits of Labour reasserts the need to place class formation at the heart of the development of western Canada and provides an historical context to the renewed struggle of labour for social justice in the 1990s **Vancouver Past: Essays in Social History** Robert A. J. McDonald, Jean Barman, 1986-01-01 Focusing on Vancouver's social history the essays written for this special edition of BC Studies treat hitherto neglected areas of the city's past and bring new insights into how its residents lived and worked Receiving particular attention is the socio economic and residential structure of Vancouver with one author arguing that the city's economy created an urban working class which was at once more complex and politically more conservative than that of the highly polarized communities on Vancouver Island and in the Interior

Canadian Geography Thomas A. Rumney, 2009-12-10 Canadian Geography A Scholarly Bibliography is a compendium of published works on geographical studies of Canada and its various provinces It includes works on geographical studies of Canada as a whole on multiple provinces and on individual provinces Works covered include books monographs atlases book chapters scholarly articles dissertations and theses The contents are organized first by region into main chapters and then each chapter is divided into sections General Studies Cultural and Social Geography Economic Geography Historical Geography Physical Geography Political Geography and Urban Geography Each section is further sub divided into specific topics within each main subject All known publications on the geographical studies of Canada in English French and other languages covering all types of geography are included in this bibliography It is an essential resource for all researchers students teachers and government officials needing information and references on the varied aspects of the environments and human geographies of Canada *The History of Public Health and the Modern State*, 2020-06-22 Since George Rosen's comprehensive History of Public Health first published in 1956 there has been no internationally comparative survey of the subject Over the past three decades or so however research in this field has expanded rapidly especially with regard to the history of disease and social order and public health politics and the state Most of these studies have been highly scholarly and specialised and often dealing with only one aspect of public health in any one national context The essays here examine the road history of public health in different national contexts in order to provide a work of comparative reference that could be used as a teaching aid The book focuses on whether the construction of a public health system is an inherent characteristic of the managerial function of modern political systems Thus each essay traces the steps leading to the growth of health government in various nations examining the specific conflicts and contradictions which each incurred As a result the volume highlights the need for further comparative analysis of public health systems as a highly fruitful topic for future study **At the End of the Shift** Matt Bray, Ashley Thomson, 1996-01-07 Mining has played a formative role in the history of Northern Ontario It has been one of the key generators of wealth in the area since the mid 19th century and is also responsible for much of the urban development of Ontario's northland The twelve papers published here came out of the second annual conference of Northern Ontario research and development held in 1990 The papers are grouped into four

sections the early years the era of government intervention the present and finally the future and what can be done to maintain the communities *Leading Constitutional Decisions* Peter H. Russell,1987-05-15 Suburb, Slum, Urban Village Carolyn Whitzman,2010-01-02 A history of Toronto's Parkdale neighbourhood spanning three eras of suburban and urban development and examining the controversial planning practices that shaped it **History of Education: Studies of education systems** Roy Lowe,2000 **Unplanned Suburbs** Richard Harris,1999-10-07 It is widely believed that only the growth of mass suburbs after World War II brought suburban living within reach of blue collar workers immigrants and racial minorities But in this original and intensive study of Toronto Richard Harris shows that even prewar suburbs were socially and ethnically diverse with a significant number of lower income North American families making their homes on the urban fringe In the United States and Canada lack of planning set the stage for a uniquely North American tragedy Unplanned Suburbs serves as a reminder of the dangers of unchecked suburban growth *The New Urban Frontier* Lionel Frost,1991 Explores changes in city density by comparing Melbourne Los Angeles Vancouver Auckland and other new frontier cities Includes a new interpretation of the effect of development on problems faced by frontier cities and a detailed bibliography The author lectures on economics and economic history at La Trobe University "Architecture, Design and Craft in Toronto 1900-1940 " Alla Myzelev,2017-07-05 Toronto the largest and one of the most multicultural cities in Canada boasts an equally interesting and diverse architectural heritage Architecture Design and Craft in Toronto 1900 1940 tells a story of the significant changes in domestic life in the first 40 years of the twentieth century Adopting a multidisciplinary approach to studies of residential spaces the author examines how questions of modernity and modern living influenced not only architectural designs but also interior furnishings modes of transportation and ways to spend leisure time The book discusses several case studies some of which are known both locally and internationally for example Casa Loma while others such as Guild of All Arts or Sherwood have been virtually unstudied by historians of visual culture The overall goal of the book is to put Toronto on the map of scholars of urban design and architecture and to uncover previously unknown histories of design craft and domesticity in Toronto This study will be of interest not only to the academic community namely architects designers craftspeople and scholars of these disciplines along with social historians but also the general public interested in local history and or visual culture Aboriginal Peoples and the Law Bradford Morse,1985-02-15 Enterprises of Robert Hamilton Bruce G. Wilson,1983-01-15 No detailed description available for Enterprises of Robert Hamilton **Two Worlds** William Westfall,1990-09 Religion was at the heart of Ontario life for many years In Two Worlds Westfall examines the origin character and social significance of the powerful and distinctive Protestant culture that grew and flourished in Southern Ontario in the mid Victorian period
