Shifting Shape, Shaping Text Steven Heine, 1999-12-01 According to the fox koan the second case in the Wu men kuan koan collection Zen master Pai chang encounters a fox who claims to be a former abbot punished through endless reincarnations for denying the efficacy of karmic causality In the end he is liberated by Pai chang s turning word which asserts the inexorability of cause and effect Most traditional interpretations of the koan focus on the philosophical issue of causality in relation to earlier Buddhist doctrines such as dependent origination and emptiness Dogen the founder of the Japanese Soto school devoted two fascicles of the Shobogenzo exclusively to the fox koan One fascicle supports a paradoxical view of causality and non causality the two being two sides of the same coin the second strongly attacks this interpretation and defends a literal reading that asserts causality and denies non causality Dogen s apparent change of heart on this topic has inspired scholars of the recent Critical Buddhist methodology to evaluate the merits and weaknesses in Zen s attitude toward ethical issues and social affairs *Shifting Shape Shaping Text* examines the fox koan in relation to philosophical and institutional issues facing the Ch an Zen tradition in both Sung China and medieval and contemporary Japan Steven Heine integrates his own philological analysis of the koan textual analysis of koan collections and related literary genres in T ang and Sung China folklore studies recent discourse theory Dogen studies and research on monastic codes and institutional history to craft an original and compelling work More specifically he illuminates a fascinating dimension of the entire Ch an Zen tradition as he carefully lays out the philosophical issues in the koan concerning causality karma and enlightenment the ethical issues contained therein the bearing that certain interpretations of causality had on the creation of monastic codes and institutional security in China the relation between Zen and folk religion as revealed by the koan and the issue of possible antinomianism in Zen especially as grappled with by later thinkers such as Dogen and contemporary representatives of Critical Buddhism Finally he applies theories of high and low religion and contemporary discourse and in the process rethinks the theories and their applicability across cultures Far reaching yet rigorous *Shifting Shape Shaping Text* will not only attract the interest of Ch an Zen specialists but also those studying folklore popular religion and issues concerning the nature of discourse and the relation between high and low religions [iWork '09: The Missing Manual](#) Josh

Zen Time Raji C. Steineck, 2025-09-01 Offers a groundbreaking approach to a key text in Zen Buddhism In *Zen Time* Raji C Steineck provides a robust contextualization of Dogen's Uji the most renowned text on time in Zen Buddhism Situating the text within the historical context of the medieval Zen master's writing Steineck illustrates how Dogen shaped the rhythm of life in the Zen monastery to actualize his idea that time in itself is salvific Dogen was meticulous in his observation of the particulars of each temporal moment regarding them as an opportunity to bring together interrelated tenets of Buddhist doctrine and practice In contrast to readings that equate the Zen approach to time with living the moment and that pit qualitative understandings of time against quantitative understandings Steineck shows how Dogen was able to connect time's qualitative and quantitative aspects in a way that despite its mystical elements remains instructive in relation to contemporary secular and philosophical discussions The book includes a translation of Uji in an appendix
