Shared Experience Of Illness:

The Shared Experience Of Illness Susan H. McDaniel, Jeri Hepworth, William J. Doherty, H McDaniel, 2009-08-05 In the narrative of every human life and family illness is a prominent character Even if we have avoided serious illness ourselves we cannot escape its reach into our circle of family and friends Illness brings us closer to one another through caregiving and separates us through disability and death yet little attention has been paid to personal and family illness in psychotherapy Rather therapists tend to focus on the psychosocial realm leaving the biological realm to other physicians and nurses Susan H McDaniel Jeri Hepworth and William J Doherty invited therapists who work with individuals and families experiencing chronic illness and disability to describe clinical cases that illustrate their approach to medical family therapy Contributors then were asked to share a personal story about their experiences with illness and to explain how those experiences affect the way they work with their clients Vivid case studies dealing with a range of illnesses including cancer infertility schizophrenia AIDS heart disease diabetes asthma and multiple sclerosis show how the therapists own experiences of illness are relevant to their care of others and how these experiences can be used to form a healing bond in therapy Poignant honest and illuminating The Shared Experience of Illness allows us to understand more fully the relationship between the personal and the professional

The Shared Experience of Illness Susan H. McDaniel, Jeri Hepworth, William Joseph Doherty, 1997 This volume shows the powerful benefits that can emerge when therapists acknowledge illness as a vital part of everyone's psychology Susan H McDaniel Jeri Hepworth and William J Doherty invited therapists who work with individuals and families experiencing chronic illness and disability to describe clinical cases that illustrate their approach to medical family therapy Contributors then were asked to share a personal story about their experiences with illness and to explain how those experiences affect the way they work with their clients Vivid case studies dealing with a range of illnesses including cancer infertility schizophrenia AIDS heart disease diabetes asthma and multiple sclerosis show how the therapists own experiences of illness are relevant to their care of others and how these experiences can be used to form a healing bond in therapy

Clinical Ethics and the Necessity of Stories Osborne P. Wiggins, Annette C. Allen, 2011-02-02. This collection of articles honors the work of Richard Zaner a distinguished philosopher who has worked for over twenty years as an ethics consultant at Vanderbilt University Medical Center. His work in the clinical setting especially the use of narrative in understanding what is going on in this setting is the focus of some of the papers. Others relate his methodology and phenomenological approach to the more standard bioethical problemata and approaches. The essential questions what then is the role of the philosopher turned medical ethicist? Is medical ethics a form of applied philosophy or is it also a form of therapy? distinguish Zaner's phenomenology from hermeneutical philosophy.
