A Question of Choice Pamela McGrath, 2018-10-26 First published in 1997 this book contributes to our understanding of the way our society responds to issues of death and dying The trans disciplinary research which informs this discussion is situated in the disciplines of bioethics and palliative care Postmodern notions of discourse and power are used to explore the organizational approach of one hospice Karuna Hospice Service to working with the dying In modern Western technological societies biomedicine is the dominant discourse which underpins our care of the terminally ill Bioethics has recently emerged as a discipline concerned with resolving the many ethical dilemmas arising from such a physiological technologized approach to death Rather than add to such studies this research looks into the direction of alternative ways of responding to the dying in our community KHS was chosen for this research as it presented the possibility of a holistic and spiritual alternative to the positivist reductionist hegemony of scientific medicine The research focus is on establishing and describing this difference and exploring how such an organization could maintain resistance to mainstream medicine The research findings are shared with the intent of using the material and insights gained to explore
