Shattered Selves:

Shattered Selves James M. Glass, 1993 *Elaborate Selves* E Mark Stern, 2013-12-16 In this fascinating volume Anthony Molino interviews some of today's foremost thinkers in psychoanalysis and psychotherapy. Organized around the fertile and controversial concept of multiplicity, *Elaborate Selves* explores the life work and thought of a diverse group of therapists who have played key roles in furthering postmodern perspectives on self experience. Through five engaging conversations, readers discover how discontinuities in self experience reflect phenomena that are both fundamental to formations of human identity and central to an understanding of contemporary relationships. Throughout the strands of these interviews, theory and practice come alive in a multivocal exploration at the intersections of culture and history, ideology and instinct, biology and fantasy, nostalgia and hope, and ultimately of trauma and treatment. *Elaborate Selves* explores the postmodern concern with the notion of a multiple or fragmented self. In this context, the stories, lives, and selves of the very therapists interviewed are seen to reflect predicaments and tensions of the culture at large. Each interview explores a therapist's unique contribution to the field while making connections between efforts and theories that at a first glance appear remarkably diverse. Among these are the constructivism of Jungian Buddhist and feminist Polly Young-Eisendrath, the inspired object relations theorizing of Christopher Bollas, and the mystic sensibilities of Michael Eigen. Readers will find that the depth and complexities of the following issues are rendered in a language that is at once both compelling and accessible: contemporary theories of the self and implications for clinical practice; psychoanalysis and postmodernism; psychoanalysis and spirituality; myth and ritual as a basis for self knowledge and group psychotherapy. A fundamental text for clinicians and students of all schools of psychoanalysis, contemporary social theory, philosophy, and religious thought, *Elaborate Selves* is a major contribution to the ever-growing genre of the interview. Indeed, the interviews collected in this unique volume offer more than an exciting exploration of a singular group of life experiences. They probe beyond the biographical to illustrate connections between personal and intellectual history and between life experience, culture, and the production of knowledge in an increasingly complex world.

Private Selves, Public Identities Susan J. Hekman, 2010-11-01 In an age when we are all multiculturalists now, as Nathan Glazer has said, the politics of identity has come to pose new challenges to our liberal polity and the presuppositions on which it is founded. Just what identity means and what its role in the public sphere is are questions that are being hotly debated. In this book, Susan Hekman aims to bring greater theoretical clarity to the debate by exposing some basic misconceptions about the constitution of the self that defines personal identity, about the way liberalism conceals the importance of identity under the veil of the abstract citizen, and about the difference and interrelationship between personal and public identity. Hekman's use of object relations theory allows her to argue against the postmodernist resort to a fictive subject for a core self that is socially constructed in the early years of childhood but nevertheless provides a secure base for the adult subject. Such a self is social, particular, embedded, and connected, a stark contrast to the neutral and disembodied

subject posited in liberal theory This way of construing the self also opens up the possibility for distinguishing how personal identity functions in relation to public identity Against those advocates of identity politics who seek reform through the institutionalization of group participation Hekman espouses a vision of the politics of difference that eschews assigning individuals to fixed groups and emphasizes instead the fluidity of choice arising from the complex interaction between the individual s private identity and the multiple opportunities for associating with different groups and the public identities they define Inspired by Foucault s argument that power is everywhere Hekman maps out a dual strategy of both political and social cultural resistance for this new politics of identity which recognizes that with significant advances already won in the political legal arena attitudinal change in civil society presents the greatest challenge for achieving more progress today in the struggle against racism sexism and other forms of oppression *Self-Knowledge and the Self* David A

Frohock,2019-06-07 In this meditation on the different ways in which contemporary society construes the notion of political reason Fred M Frohock offers an alternative to the merit forms of reasoning prominent in liberal democracies He argues that

divisive issues such as abortion and physician assisted suicide resist rational closure reasonable individuals often reach different and contradictory conclusions The temptation is to abandon reason and depict governing as an exercise of pure power What resources do we have Frohock asks to develop a version of public reason which can succeed even in the deep pluralism anticipated in democratic practices Frohock makes a provocative argument the effects of divisive beliefs can be mitigated with a version of public reason defined as mediated speech acts These acts are dialogues on the model of a guided conversation in which collective terms dominate simple merit adjudication This type of public reasoning requires a survey of considerations beyond the merits of the case at hand Frohock s book combines theory and illustrative cases to present an unusually broad survey of public reasoning in which abstract arguments are developed in the context of highly charged contemporary issues

Hollywood on Stage Kimball King, 2013-07-04 Playwrights have been depicting Hollywood as a cultural desert and an industry of profit driven philistines ever since the early days of the movies This collection of original essays covers the period from the 1920s to the present but concentrates on such contemporary playwrights as David Mamet Sam Shepard David Rabe Arthur Kopit and Adrienne Kennedy A substantial proportion of the volume is devoted to a discussion of the way in which

these authors deconstruct Hollywood myths to reveal painful social and psychological issues in American life providing a deeper and darker picture than the simple satires of movie making in the 1920s and 1930s or Odets's comparison of the commercially debased Hollywood with the higher purer art of the theatre To complete and further complicate the picture the volume concludes with essays on the African American experience gay writers and feminist writing as seen through the lens of Marlane Myer's *ETTA JENKS* It is obvious that the legitimate stage remains a watchdog and constant critic of what is possibly the world's most powerful cultural phenomenon This book will be eagerly read by all students of film theatre and 20th century literature
