She Said What? Maria Braden, 2021-11-21 No longer relegated to reporting on society happenings or household hints women columnists have over the past twenty years surged across the boundary separating the women s or lifestyle sections and into the formerly male bastions of the editorial financial medical and op ed pages Where men previously controlled the nation s new organizations were the chief opinion givers and defined what is newsworthy many women newspaper columnists are now nationally syndicated and tackle the same subjects as their male counterparts bringing with them distinctive styles and viewpoints Through these frank and lively interviews Maria Braden explores the lives and work of columnists Erma Bombeck Jane Brody Mona Charen Merlene Davis Georgie Anne Geyer Dorothy Gilliam Ellen Goodman Molly Ivins Mary McGrory Judith Miss Manners Martin Joyce Maynard Anna Quindlen and Jane Bryant Quinn Profiles describe how these writers got started where they get the nerve to tell the world what they think how they generate ideas for columns and what it s like to create under the pressure of deadlines Representative columns illustrate their distinctive voices and an introductory essay provides a historical overview of women in journalism including pioneering women columnists Fanny Fern Dorothy Thompson and Sylvia Porter Braden finds that today s women

columnists frequently raise issues or use examples unique to their gender. Because they are likely to have a direct personal connection to current social issues such as abortion, child care, or sexual harassment, they are able to provide fresh perspectives on these provocative topics. In doing so, they are helping to define what is worthy of attention in the 90s and to shape public response. A unique addition to the literature on women in journalism, this book will interest general readers as well as students of journalism literature, American studies, and women's studies. Aspiring writers will find here role models and practical guidance.

Speaking Personally Rosalind Coward, 2013-10-30 This book argues that the personal voice, which is often disparaged in journalism teaching, is and always has been a prevalent form of journalism. Paradoxically, the aim of objective reporters is often to be known for a distinctive voice. This personal voice is becoming increasingly visible in the context of the confessional society.

Curating Culture Sharon Blyde-Peshkin, Charles Whitaker, 2021-07-13 Print magazines were the original niche medium, creating communities long before the internet allowed audiences to find specialized content and interact with like-minded readers. Consumer magazines provided information, inspiration, empathy, and advocacy for readers with specific goals and concerns. The targeted advertising business model of magazines was an early precursor of contemporary algorithms and metrics behind social media marketing. The cultural niches 20th-century consumer magazines created and covered were powerful social influences on a wide variety of readers, from farmers to feminists, and covered everything from big ideas to political ideologies. With missions to serve specific readers and editors who were champions of their interests, even the most practical magazines were cultural influences well beyond their pages. This book is a curated collection of case studies that collectively shed light on the cultural niches that American consumer magazines of the 20th century covered and created. The chapters examine how cultural niches were cultivated, how they changed over time, and how they influenced broader cultural conversations. This sweeping view of 20th-century American magazines illuminates how this particular media form created, cultivated, and served specific communities, laying the groundwork for contemporary media forms to continue that role today.
