Jazz and Death Walter van de Leur, 2023-05-12 Jazz and Death Reception Rituals and Representations critically examines the myriad and complex interactions between jazz and death from the New Orleans jazz funeral to jazz in heaven or hell final recordings jazz monuments and the music s own presumed death It looks at how fans critics journalists historians writers the media and musicians have narrated mythologized and relayed those stories What causes the fascination of the jazz world with its deaths What does it say about how our culture views jazz and its practitioners Is jazz somehow a fatal culture The narratives surrounding jazz and death cast a light on how the music and its creators are perceived Stories of jazz musicians typically bring up different tropes ranging from the tragic misunderstood genius to the notion that virtuosity somehow comes at a price Many of these narratives tend to perpetuate the gendered and racialized stereotypes that have been part of jazz s history In the end the ideas that encompass jazz and death help audiences find meaning in a complex musical practice and come to grips with the passing of their revered musical heroes and possibly with their own mortality

Oedipus, Philosopher Jean-Joseph Goux, 1993 If the logic of the Oedipus myth were subjected to rigorous and thoroughgoing analysis with the tools of anthropology comparative mythology and narratology might it invalidate the approach to the Oedipus complex that Freud derived from his psychoanalytic experience This book answers yes arguing that instead of the Oedipus complex explaining the myth the Oedipus myth explains the complex The author argues that the Oedipus myth is an historical anomaly a myth of failed royal investiture or of avoided masculine initiation Does this mean that we must return to the wisdom of tradition and strike out twenty five centuries of Oedipal history The author knows very well that such a solution would be fantasy and he concludes by speculating on how his analysis might contribute to a vision that has eluded Freudian psychoanalysis how to surpass the Oedipus complex with all the ethical consequences this would entail
