 of schooling this book contains the first part of a report of an ethnographic study of individual pupils from the ages of four to
 11 in an English primary school School Leadership Professor Gerald Grace,Gerald Grace,2005-08-31 This text provides a
 study of the education policy scholarship of leadership It examines the ways in which concepts of educational leadership and
 management have evolved historically and culturally reviewing contemporary debates about the nature of school leadership
 The question of what school leadership could and should be is at the centre of political ideological and educational debate in
 many societies These debates involve cultural conservatives New Right marketeers democrats and community educators
 feminists and critical theorists as well as school governors headteachers and teachers parents community members and
 school students These debates are reviewed and the theoretical context is illuminated by fieldwork accounts derived from the
 research participation of 88 headteachers working in English schools both primary and secondary Such accounts provide an
 insight into the challenges of contemporary school leadership as headteachers face new power relationships new curriculum
 responsibilities and management and marketing cultures which generate moral ethical and professional dilemmas for many
 of them Creative Teachers in Primary Schools Peter Woods,2019-07-17 Is creative teaching still possible in English
 schools Can teachers maintain and promote their own interests and beliefs as well as deliver a prescribed National
 Curriculum Originally published in 1995 this book explores creative teachers attempts to pursue their brand of teaching
 despite the changes Peter Woods has discovered a range of strategies and adaptations to this end among such teachers
 including resisting change which runs counter to their own values appropriating the National Curriculum within their own
 ethos enhancing their role through the use of others and enriching their work through the National Curriculum to provide
 quality learning experiences If all else fails such teachers remove themselves from the system and take their creativity
 elsewhere A strong theme of self determination runs through these experiences While acknowledging hard realities the book
 is ultimately optimistic and a tribute to the dedication and inspiration of primary teachers The book makes an important
 contribution to educational theory showing a range of responses to intensification as well as providing many detailed
 examples of collaborative research methods *Improving the Primary School* Mrs Joan Dean,Joan Dean,2005-06-23 This

Case Studies In Educational Change David S.G Carter, 2012-10-12 This text the second in a two volume set examining the process of educational reform describes case studies on the change process of education as it impacts on the individual at work The authors provide interesting comparisons of similar changes occurring within education in different national settings including Australia New Zealand Israel the USA and the UK The case studies are based on three themes systematic change the transition from policy to practice and curriculum contexts The effects of governmental control over the curriculum and attempts to reform education by legislation are explained and the similarities are seen as marginalisation of professional educators corporatisation of education systems instrumentalisation of curriculum and the
