Some Useful Animals and what They Do for Us John Monteith,Caroline Monteith,1903 [The Quarterly Review](#) ,1856 [The Educational Significance of Human and Non-Human Animal Interactions](#) Suzanne Rice,A. G. Rud,2016-04-29 The Educational Significance of Human and Non Human Animal Interactions explores human animal non human animal interactions from different disciplinary perspectives from education policy to philosophy of education and ecopedagogy The authors refute the idea of anthropocentrism the belief that human beings are the central or most significant species on the planet through an ethical investigation into animal and human interactions and real life examples of humans and animals living and learning together In doing so Rice and Rud outline the idea that interactions between animals and humans are educationally significant and vital in the classroom

The Ocean, Volume 5 Hervé Claustre,Carolyn Scheurle,Laura Lorenzoni,Sanae Chiba ,Emily King,2025-08-12 The ocean allowed life to develop on earth billions of years ago it is vital for all of us and it will guarantee the future of humanity The ocean is vast deep harsh and somehow rebellious to reveal its secrets and hence there is much that is unexplored and not yet understood Scientists need to study the ocean to better understand its functioning its properties as well as how it shapes our environment and impacts us For example do you know what the role of the ocean is on weather and climate There also remains so much to explore and investigate as diverse oceanic resources fish stocks bio molecules renewable energies but also minerals oil and gas How can we make sure that our use of these resources is respectfully done and sustainable and how can we minimize our impacts e g pollution acidification deoxygenation on the ocean as our human population increases In this Collection of Frontiers for Young Minds ocean scientists from various disciplines explain recent discoveries or fundamental concepts They share their knowledge and motivations and give insights into innovative tools and methods used to better understand our ocean The Collection targets a large range of oceanic

environments from the open ocean to the shores the surface to the abysses including specific areas like coral reefs It also targets the connections of the ocean with its interfaces atmosphere ice coast It seeks to cover marine disciplines that range from physics to chemistry from biology and genomics to biodiversity and ecology and from economy to conservation and policies Finally it encompasses a great variety of scales ranging from the diel to geological time scales from local regional to global scales and also from the tiniest cells to the biggest living animals on our planet The United Nations have declared the 2021-2030 period as the Decade of Ocean Science for Sustainable Development stressing the urgent need to approach fundamental issues related to the ocean and the future of humanity on well-sounded scientific grounds and knowledge The oceanic sciences are indeed undertaking a revolution thanks in particular to robotization and the massive intrusion of big data and artificial intelligence This Ocean Collection aims to accompany this evolution to provide information to young readers that will help them to increase their understanding of the ocean and its central role in nature and our lives We hope to empower them to make informed decisions in these challenging times and to engage to protect study and enjoy its richness See here our previous Volumes Volume 1 Volume 2 Volume 3 and Volume 4
