Includes editorial introductions, suggested readings, a primer on how to read an image and a guide to visual archives and collections. Well illustrated book for those in American Studies and related fields eager to incorporate the visual into their teaching and telling of the American story. *Looking for America* Ardis Cameron, 2005-01-14 *Looking for America The Visual Production of Nation and People* is a groundbreaking collection that explores the visual in defining the kaleidoscope of American experience and American identity in the 20th century. Covers enduringly important topics in American history: nationhood, class, politics of identity and the visual mapping of others. Includes editorial introductions, suggested readings, a primer on how to read an image and a guide to visual archives and collections. Well illustrated book for those in American Studies and related fields eager to incorporate the visual into their teaching and telling of the American story. National Geographic Almanac of American History John Thompson, James Miller, 2007 Uses images, maps, historic facts and concise analysis to provide an in depth resource on United States history. A History of America in 100 Maps Susan Schulten, 2018-09-21 Throughout its history America has been defined through maps. Whether made for military strategy or urban reform to encourage settlement or to investigate disease, maps invest information with meaning by translating it into visual form. They capture what people knew, what they thought they knew, what they hoped for and what they feared. As such they offer unrivaled windows onto the past. In this book Susan Schulten uses maps to explore five centuries of American history from the voyages of European discovery to the digital age. With stunning visual clarity *A History of America in 100 Maps* showcases the power of cartography to illuminate and complicate our understanding of the past. Gathered primarily from the British Library's incomparable archives and compiled into nine chronological chapters, these one hundred full color maps range from the iconic to the unfamiliar. Each is discussed in terms of its specific features as well as its larger historical significance in a way that conveys a fresh perspective on the past. Some of these maps were made by established cartographers while others were made by unknown individuals such as Cherokee tribal leaders, soldiers on the front and the first generation of girls to be formally educated. Some were tools of statecraft and diplomacy and others were instruments of social reform or even advertising and entertainment. But when considered together they demonstrate the many ways that maps both reflect and influence historical change. Audacious in scope and charming in execution, this collection of one hundred full color maps offers an imaginative and visually engaging tour of American history that will show readers a new way of navigating their own worlds. **DK Eyewitness Travel Guide Washington, DC**, 2014-10-01 The DK Eyewitness Travel Guide Washington D C is your indispensable guide to this amazing part of the world.
