Looking For Loopholes Processes Of Incorporation Of Illegal Immigrants In The Netherlands:

Irregular Migrants in Belgium and the Netherlands Masja Meeteren, 2025-10-01 In *Irregular Migrants in Belgium and the Netherlands* Masja van Meeteren studies the different ways in which irregular migrants live in Belgium and the Netherlands. The book offers an empirically grounded theoretical critique of the dominant research practice that focuses on survival strategies, relies on comparisons of migrant communities and overemphasizes structural explanations. Instead, *Irregular Migrants* takes irregular migrants' aspirations as a starting point of analysis. Based on this innovative research approach, key questions are answered regarding the lives of irregular migrants: How can we understand their patterns of economic and social incorporation, the transnational activities they engage in, and the significance of different forms of capital? Drawing on intensive participant observation as well as more than two hundred in-depth interviews with irregular migrants and representatives of organizations that are involved with them, *Irregular Migrants* develops much needed contextualized insights. As such, it sheds new light on previous research findings and various deadlocked scholarly debates on irregular migrants in Western societies.

Illegal Residence and Public Safety in the Netherlands Arjen Leerkes, 2009 *Illegal Residence and Public Safety in the Netherlands* is een onderzoek naar de gevolgen van de steeds drastischere maatregelen om illegaal verblijf in Nederland tegen te gaan. EU-lidstaten als Nederland hanteren steeds zwaardere voorwaarden voor immigratie vanuit niet-westerse landen en niet-Europese landen. Arjen Leerkes onderzocht in hoeverre het verblijf en de migratie van illegale immigranten gevolgen hebben voor de publieke veiligheid en criminaliteit in Nederland. Zijn illegale immigranten eerder geneigd tot criminaliteit of weerhoudt hun juridische status hen er juist van.

Illegal Immigration in Europe F. Düvell, 2005-12-15 The processes of globalization, increasing human mobility and European integration have led to immigration, and in particular illegal immigration, being among the top international policy, economic and security concerns. This book analyzes the causes of illegal immigration in Europe together with the history and political economy of the phenomenon. It offers an assessment of contemporary political responses and proposes an alternative approach aiming at a more sustainable solution.

Claudia Finotelli,Irene Ponzo,2023-04-24 Building upon the concept of migration regime this open access book brings together the works of scholars who have investigated logics and routines of action in the field of immigration control within a single and innovative theoretical framework The chapters cover a wide range of policy domains from visa policy to the externalisation of controls labour migration to asylum internal controls towards irregular migration to restrictions for intra EU mobility By unravelling organisational strategies and practices across Europe the book does not only contribute to dismantling the very idea of the European North South divide in migration but also shows how Europe really works in the field of migration in times of deep economic asylum and health crises In this perspective the book questions the widespread understanding of migration control outcomes as simply the result of more or less effective state policies without considering the embeddedness of the national policy goals and strategies in the dynamic interplay of different economies institutional cultures and geopolitical positions **New Directions in Feminism and Human Rights** Dana Collins,Sylvanna

van der Woude,2020-03-03 As the distinction between domestic and international is increasingly blurred along with the line between internal and external borders migrants particularly people of color have become emblematic of the hybrid threat both to national security and sovereignty and to safety and order inside the state From building walls and fences overcrowding detention facilities and beefing up border policing and border controls a new narrative has arrived that has migrants assume the risk for government sponsored degradation misery and death Crimmigrant Nations examines the parallel rise of anti immigrant sentiment and right wing populism in both the United States and Europe to offer an unprecedented look at this issue on an international level Beginning with the fears and concerns of immigration that predate

the election of Trump the Brexit vote and the signing and implementation of the Schengen Agreement *Crimmigrant Nations* critically analyzes nationalist state policies in countries that have criminalized migrants and categorized them as threats to national security Highlighting a pressing and perplexing problem facing the Western world in 2020 and beyond this collection of essays illustrates not only how anti immigrant sentiments and nationalist discourse are on the rise in various Western liberal democracies but also how these sentiments are being translated into punitive and cruel policies and practices that contribute to a merger of crime control and migration control with devastating effects for those falling under its reach Mapping out how these measures are taken the rationale behind these policies and who is subjected to exclusion as a result of these measures *Crimmigrant Nations* looks beyond the level of the local or the national to the relational dynamics between different actors on different levels and among different institutions

Walter J. Nicholls, Justus Uitermark, 2016-12-27 Through historical and comparative research on the immigrant rights movements of the United States France and the Netherlands *Cities and Social Movements* examines how small resistances against restrictive immigration policies do or don't develop into large and sustained mobilizations Presents a comprehensive comparative analysis of immigrant rights politics in three countries over a period of five decades providing vivid accounts of the processes through which immigrants activists challenged or confirmed the status quo Theorizes movements from the bottom up presenting an urban grassroots account in order to identify how movement networks emerge or fall apart Provides a unique contribution by examining how geography is implicated in the evolution of social movements discovering how and why the networks constituting movements grow by tracing where they develop

Demonstrates how efforts to enforce national borders trigger countless resistances and shows how some environments provide the relational opportunities to nurture these small resistances into sustained mobilizations Written to appeal to a broad audience of students scholars policy makers and activists without sacrificing theoretical rigor *Women Migrant Workers* Zahra Meghani, 2015-10-05 This volume makes the case for the fair treatment of female migrant workers from the global South who are employed in wealthy liberal democracies as care workers domestic workers home health workers and farm workers An international panel of contributors provide analyses of the ethical political and legal harms suffered by female migrant workers based on empirical data and case studies along with original and sophisticated analyses of the complex of systemic structural factors responsible for the harms experienced by women migrant workers The book also proposes realistic and original solutions to the problem of the unjust treatment of women migrant workers such as social security systems that are transnational and tailored to meet the particular needs of different groups of international migrant workers Strategic Affection? Irma Thoen, 2007 Since the early days of humanity gifts as varied as valued objects hospitality and works of art have been an essential means of establishing and maintaining social ties Strategic Affection studies the exchange of gifts in order to explore the nature of seventeenth century Dutch social relations Looking at such widely divergent figures as schoolmasters artisans poets and nobles Irma Thoen compares seventeenth century Dutch gifts with contemporary gift exchanges to show that both strategy and affection are necessary elements of any social relations and that what changes most is not the system but the discourse of exchange Cracking Under Pressure Lynn Owens, 2009 An investigation of the squatters movement in Amsterdam which emerged in the late 1970s as a reaction to the housing shortage of the 1960s peaked in the early 1980s and then fell into a period of prolonged decline Focuses on issues relating to the decline of social movements Provided by publisher *Policing Non-Citizens* Leanne Weber, 2013-09-11 Criminologists are increasingly turning their attention to the many points of intersection between immigration and crime control This book discusses the detection of unlawful non citizens as a distinct form of policing which is impacting on a growing range of agencies and sections of society It constitutes an important contribution not only to the literature on policing but also to the field of border control studies within criminology Drawing on the work of Clifford Shearing Ian Loader and P A J Waddington it offers new theoretical approaches to the study of police powers and practice
