**Humanizing Technology** Elizabeth Gerver,2012-12-06 A few years ago a book of this type and style could not or would not have been written This is because until a few years ago no real in depth knowl edge of computers and computerized equipment was at the disposal of those with a nonscience nonquantitative background Some people from other disciplines including business the arts and the social sciences had been working with such equipment but they had gone over and tended to be even more computer conscious than those whom they served It is only comparatively recently that people like Elisabeth Gerver with a firm arts and adult education background first of all became knowledgeable and then remained true to that background To her eternal credit Elisabeth Gerver when she became involved avoided being sucked into the world of the jargon or even that of the thinking of the computer scientists and the electronic engineers On the contrary she insisted that she was an educated woman dealing with other educated people and that they would all speak in the language of everyday discourse It worked One consequence of her experience and her thought is this remarkably lucid and readable book It will prove to be of immense value to many in the world of adult and community education But the beneficiaries will run beyond those sectors of society Other people with a nonscience nonquantitative background will surely find it of immense value in their early inevitably hesitant and faulty grappling with the world of new technology

**Your iPad 2 at Work** Jason R. Rich,2012 Provides information on the features of the iPad 2 with step by step instructions covering such topics as connecting to a wi fi and 3G network downloading apps creating documents and spreadsheets building and displaying presentations using email and watching movies

**Computerworld** ,1981-08-10 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network

**Taking Development Seriously A Festschrift for**

**Annette Karmiloff-Smith** Michael S. C. Thomas, Denis Mareschal, Victoria Knowland, 2021-05-16 This influential festschrift honours the legacy of Annette Karmiloff Smith a seminal thinker in the field of child development and a pioneer in developmental cognitive neuroscience The current volume brings together many of the researchers collaborators and students who worked with Professor Karmiloff Smith to show how her ideas have influenced and continue to influence their own research Over four parts each covering a different phase or domain of Karmiloff Smith's research career leading developmental psychologists in cognition neuroscience and computer science reflect on her extensive contribution from her early work with Piaget in Geneva to her innovative research project investigating children with Down syndrome to understand the mechanisms of Alzheimer's disease The chapters provide a mix of cutting edge science and reminiscence providing a fascinating insight into the historical contexts in which many of Annette's theoretical insights arose including such ideas as the microgenetic approach representational redescription and neuroconstructivism The chapters also provide updates about how earlier theoretical ideas have stood the test of time and present unpublished data from the early years of Annette's career Taking Development Seriously is essential reading for students and scholars in child development and developmental neuroscience

Man-Machine-Environment System Engineering Shengzhao Long, Balbir S. Dhillon, 2019-08-16 These proceedings showcase the best papers selected from more than 500 submissions and introduce readers to the latest research topics and developmental trends in the theory and application of MMESE The integrated research topic Man Machine Environment System Engineering MMESE was first established in China by Professor Shengzhao Long in 1981 with direct support from one of the greatest modern Chinese scientists Xuesen Qian In a letter to Long from October 22nd 1993 Qian wrote You have created a very important modern science and technology in China MMESE studies the optimum combination of man machine environment systems In this system man refers to the people in the workplace e g operators decision makers machine is the general name for any object controlled by man including tools machinery computers systems and technologies and environment describes the specific working conditions under which man and machine interact e g temperature noise vibration hazardous gases etc The three main goals of optimizing man machine environment systems are to ensure safety efficiency and economy These proceedings present interdisciplinary studies on concepts and methods from physiology psychology system engineering computer science environmental science management education and other related disciplines They offer a valuable resource for all researchers and professionals whose work involves interdisciplinary areas touching on MMESE subjects
