Masters of War Clara Nieto, 2011-01-04 In *Masters of War* Clara Nieto adeptly presents the parallel histories of the countries of Latin America that are intertwined each reflecting the United States coherent policy of intervention set into motion by the Monroe Doctrine. As the value of this continued policy comes increasingly into question, Nieto argues for the need to evaluate the alarming precedent set in Latin America: the institution of client dictatorships, the roles played by the interests of U.S. corporations, the enormous tolls taken on civilian populations, and the irreversible disruption of regional stability. Drawing from an impressive array of documents and sources, as well as from her unique first-hand insights as a participant in crucial meetings and negotiations in the region from the mid 1960s through the mid 1980s, Nieto chronicles the Cuban Revolution, the CIA-sponsored coup against popularly elected President Allende in Chile, the U.S. invasions of Panama and Grenada, U.S. support for the cultivation and training of paramilitary death squads in Nicaragua, El Salvador, and Colombia, as well as similarly severe but less well-known situations in other countries such as Uruguay, Venezuela, Argentina, Peru, Bolivia, Honduras, and Guatemala. *Masters of War* offers from an informed perspective, perhaps for the first time, a distanced, objective analysis of recent Latin American history. Clara Nieto's depth of knowledge and understanding is an invaluable resource at a time when the media is seen as unapologetically aligned with the interests of major corporations and policymakers, and the American public has reached a new height of apprehension regarding the intentions behind and consequences of its government's policies.

Populism and Ethnicity Raanan Rein, 2020-06-03 Juan Perón's decade-long regime from 1946 to 1955 is often presented as Nazi fascist and antisemitic, claims that are strongly rooted in Argentina's collective unconscious and popular culture. Challenging this widely held view, Raanan Rein asserts that there was greater Jewish support for Perón than previously believed, and that fewer antisemitic incidents took place in Argentina during Perón's rule than during any other period in the twentieth century. Recovering the silenced voices of Jewish Argentines who supported Peronism from the beginning, *Populism and Ethnicity* is a historical, sociological, and political analysis that describes the many positive changes experienced by the Jewish community as a direct result of Perón's presidencies. Perón and his wife Eva gave numerous speeches denouncing antisemitism, and Perón's Argentina was the first Latin American country to open an embassy in the newly established State of Israel. Arguing that no president before Perón so unambiguously rejected discrimination against Jews, Rein shows that many Jews secured more important posts in government in the 1940s and 1950s than in previous years, among them members of the Argentine Jewish Organization, which became a section of the ruling Peronist party. Deconstructing the myth of antisemitism during Perón's regime, *Populism and Ethnicity* looks deep into the heart of international memory for the truth behind Jewish Argentine relations.

 Title by CHOICE **Argentina's "Dirty War"** Donald C. Hodges, 2014-01-30 Argentines ask how their ultracivilized country

Dictatorship, Democracy, and Globalization Klaus Friedrich Veigel, 2010-11-01 The collapse of the Argentine economy in 2001 involving the extraordinary default on 150 billion in debt has been blamed variously on the failure of neoliberal policies or on the failure of the Argentine government to pursue those policies vigorously enough during the 1990s But this is too myopic a view Klaus Veigel contends to provide a fully satisfactory explanation of how a country enjoying one of the highest standards of living at the end of the nineteenth century became a virtual economic basket case by the end of the twentieth Veigel asks us to take the long view of Argentina's efforts to re create the conditions for stability and consensus that had brought such great success during the country's first experience with globalization a century ago The experience of war and depression in the late 1930s and early 1940s had discredited the earlier reliance on economic liberalism In its place came a turn toward a corporatist system of interest representation and state led inward oriented economic policies But as major changes in the world economy heralded a new era of globalization in the late 1960s and early 1970s the corporatist system broke down and no social class or economic interest group was strong enough to create a new social consensus with respect to Argentina's economic order and role in the world economy The result was political paralysis leading to economic stagnation as both civilian and military governments oscillated between protectionism and liberalization in their economic policies which finally brought the country to its nadir in 2001
