Masters Of The Pit Signed:

British Freemasonry, 1717-1813 Volume 2 Robert Peter, 2016-10-14 Freemasonry was a major cultural and social phenomenon and a key element of the Enlightenment. It was to have an international influence across the globe. This primary resource collection charts a key period in the development of organized Freemasonry culminating in the formation of a single United Grand Lodge of England. The secrecy that has surrounded Freemasonry has made it difficult to access information and documents about the organization and its adherents in the past. This collection is the result of extensive archival research and transcription and highlights the most significant themes associated with Freemasonry. The documents are drawn from masonic collections, private archives and libraries worldwide. The majority of these texts have never before been republished. Documents include rituals, some written in code, funeral services, sermons, songs, certificates, an engraved list of lodges, letters, pamphlets, theatrical prologues and epilogues, and articles from newspapers and periodicals. This collection will enable researchers to identify many key masons for the first time. It will be of interest to students of Freemasonry, the Enlightenment, and researchers in eighteenth century studies.

Pitmatic Bill Griffiths, 2024-06-27 Pitmatic brings together a wonderful regional pit language, its words, jokes, and stories that are fast disappearing from our culture. This book helps attest to the remarkable vitality of the region's dialect and the inventiveness and humour of its speakers. The last major mine in the North East region closed in 2005, and with it went a way of life. Through dialect words, humour, stories, and songs, Pitmatic will help you to understand the everyday lives and work of miners. Miners who provided fuel helped sustain an economy, consolidated communities, and created a unique and rich regional culture. This book is a joyous celebration of the history of the North East, bringing together the words spoken by miners and their families and how they related to the wider languages of the world. The late Bill Griffiths (1948-2007) was an extraordinary writer and poet, radical, experimental, and scholarly, but also had a great sense of humour. He was a wonderful champion of the North East, its people, and heritage. Born in Middlesex, he read history before graduating in 1969. Bill ran his own independent press and published political pamphlets and essays on the arts and poetry. After gaining a PhD in Old English, he fled London and settled in Seaham, where he embraced the northern way of life. He was also a scholar of Old English and dialect who knew how to make his work accessible. Private and uncompetitive, he was at least these things: poet, archivist, scholar, translator, prison rights campaigner, pianist, historian, curator, performer, editor, short story writer, essayist, teacher, book maker, and lyricist. The Saturday before he died, Bill discharged himself from hospital to host the Dialect Day at the Morden Tower in Newcastle upon Tyne. He died as he lived, cataloguing, awarding Best Dialect prizes, opera on his radio, the poetry paramount. **Obituary The Independent** 20 September 2007 **The Terra Cotta**
