A History of the Modern Chinese Navy, 1840-2020 Bruce A. Elleman, 2021-05-09 This book provides a comprehensive history of the modern Chinese navy from 1840 to the present Beginning with a survey of naval developments in earlier imperial times the book goes on to show how China has since the mid 19th century four times built or rebuilt its navy after the Opium Wars a navy which was sunk or captured by the Japanese in the war of 1894 1895 during the 1920s and 1930s a navy again sunk or lost to Japan in the war of 1937 1945 in the 1950s a navy built with Soviet help which stagnated following the Sino Soviet split in the early 1960s and finally the present navy which absorbed its predecessor but with the most modern sections dating from the 1990s a navy which continues to grow and prosper The book also shows how the underlying strategic imperative for the Chinese navy has been the defense of China s coasts and major rivers how naval mutiny was a key factor in the overthrow of the Qing and the Nationalist regimes and how successive Chinese governments aware of the potent threat of naval mutiny have restricted the growth independence and capabilities of the navy Overall the book provides at a time when many people in the West view China and its navy as a threat a rich detailed and realistic assessment of the true nature of the Chinese navy and the contemporary factors that affect its development

The Encyclopedia of the Vietnam War Bloomsbury Publishing, 2011-05-20 Now in its second edition this comprehensive study of the Vietnam War sheds more light on the longest and one of the most controversial conflicts in U S history The Vietnam War lasted more than a decade was the longest war in U S history and cost the lives of nearly 60 000 American soldiers as well as millions of Vietnamese many of whom were uninvolved civilians The lessons learned from this tragic conflict continue to have great relevance in today s world Now in its second edition The Encyclopedia of the Vietnam War A Political Social and Military History adds an entire additional volume of entries to the already exhaustive first edition making it the most comprehensive reference available about one of the most controversial events in U S history Written to provide multidimensional perspectives into the conflict it covers not only the American experience in Vietnam but also the entire scope of Vietnamese history including the French

experience and the Indochina War as well as the origins of the conflict how the United States became involved and the extensive aftermath of this prolonged war It also provides the most complete and accurate order of battle ever published based upon data compiled from Vietnamese sources This latest release delivers even more of what readers have come to expect from the editorship of Spencer C Tucker and the military history experts at ABC CLIO Report of the Proceedings of the Society of the Army of the Tennessee at the ... Meeting[s] ... Society of the Army of the Tennessee,1902 *Power by Design* Suisheng Zhao,1995-12-01 First established as a cabinet system in Guangzhou in 1925 the Nationalist Government of China was replaced three years later by a presidential system under a unified Nationalist government in Nanjing The cabinet government was restored in 1931 and existed until the presidential system was again installed by the 1936 constitution Why did presidential and cabinet systems exist alternately during this formative period of the Nationalist government Why was the presidential system finally adopted in 1936 Suisheng Zhao answers these and other questions fundamental to understanding authoritarian regimes in this pioneering study of the design of the Nationalist Government of China from 1925 to 1937 although scholars of comparative politics have shown great interest in the institutional choice between parliamentarianism and presidentialism in democratic countries they have paid little attention to the study of constitutional frameworks in authoritarian settings By offering a clear and original re interpretation of the history of this power struggle between Chiang Kai shek and his rivals over institutional design Zhao challenges the conventional wisdom that has underestimated the importance of formal institutions in non democratic regimes Borrowing ideas from public choice theory Zhao proposes that political actors who design governmental institutions are driven by power maximization strategies just as business firms are driven by wealth maximization strategies Constitution making reflects the underlying distribution of power among authoritarian leaders who attempt to design political institutions that will consolidate their personal power and position Thus Zhao argues if political actors possess more power resources than their rivals and anticipate themselves becoming dominant they will choose the singular leadership of the presidential system If they are in a weaker position and do not anticipate becoming dominant they will prefer the collective leadership of the cabinet form of government Notable for its persuasive integration of political science theory and the historical evidence *Power by Design* is an insightful re interpretation of Chinese history that will be welcomed by scholars of modern China and those interested in the consequences of the nationalist politics that continue to reverberate in contemporary China as well as by comparative political scientists studying constitution making and institutional design **Proceedings of the Department of Superintendence of the National Educational Association ..** National Education Association of the United States.
