Technologies of Mind and Body in the Soviet Union and the Eastern Bloc Claire Shaw,Anna Toropova,2023-11-16 The project to create a New Man and New Woman initiated in the Soviet Union and the Eastern Bloc constituted one of the most extensive efforts to remake human psychophysiology in modern history Playing on the different meanings of the word technology as practice knowledge and artefact this edited volume brings together scholarship from across a range of fields to shed light on the ways in which socialist regimes in the Soviet bloc and Eastern Europe sought to transform and revolutionise human capacities From external state driven techniques of social control and bodily management through institutional practices of transformation to strategies of self fashioning Technologies of Mind and Body in the Soviet Union and the Eastern Bloc probes how individuals and collectives engaged with or resisted the transformative imperatives of the Soviet experiment The volume s broad scope covers topics including the theory and practice of revolutionary embodiment the practice of expert knowledge and disciplinary power in psychotherapy and criminology the representation and transformation of ideal bodies through mass media and culture and the place of disabled bodies in the context of socialist transformational experiments The book brings the history of human re making and the history of Soviet and Eastern Bloc socialism into conversation in a way that will have broad and lasting resonance **Current Catalog** ,1965 First multi year cumulation covers six years 1965 70 **Abstracts of Soviet Medicine** ,1959 Monthly Index of Russian Accessions ,1965 **Monthly Index of Russian Accessions** Library of Congress. Index-catalogue of the Library of the Surgeon-General's Office, United States Army National Library of Medicine (U.S.),1896 Collection of incunabula and early medical prints in the library of the Surgeon general s office U S Army Ser 3 v 10 p 1415 1436 *Prominent Personalities in the USSR.* ,1968 *International Intercourse* Julie L. Thomas,2004 American birth control advocate Margaret Sanger 1884 1966 was instrumental in the development of an international birth control movement This occurred not after World War II as is commonly thought but in the interwar era Building upon existing medical exchanges of information and materials in the global arena she established a social movement for birth control While Sanger was not the only interwar era figure involved in the endeavor she was among the most active in pursuing an international agenda A number of discursive themes emerge in the study of Sanger s interwar activities for the global provision of contraception it would provide economic benefit to individual families and collective nations family limitation would help avert the next war and gendered ideas about contraceptive methods and its role in improving women s status These themes are explored through an interrogation of Sanger s interactions with cohorts travel and correspondence in seven key nations in Europe Asia and Southeast Asia her role as founder and editor of the Birth Control Review and lastly as the organizer of three international birth control conferences 1925 1927 1930 The preoccupations established in these venues laid the foundation for the post World War II international family planning movement This dissertation project also challenges a prevailing assumption about the provision of birth control in the Soviet Union in the interwar ear that abortion was the only method available An analysis of Soviet medical literature of the period reveals the existence of clinical and laboratory research on a range of contraceptive methods and research on experimental methods Curiously medical advocates for birth control and not Sanger were the most active in efforts to exchange information with Soviet researchers The explanation for this apparent anomaly underscores Sanger s goals and objectives as a social advocate for birth control in the global arena **Hypnosis** Léon Chertok,1966
