The A to Z of the Wars of the French Revolution Steven T. Ross, 2010-06-07 The French Revolution rocketed from Paris and made its influence felt throughout the world. Vast changes occurred in the way people related to their governing bodies. Instead of acting as passive onlookers, the people of France directly involved themselves in the affairs of state. The monumental changes brought about by the French Revolution also changed the nature of warfare. A period of nearly uninterrupted conflict existed both within and outside of France from 1792 to 1802. To rise to this daunting challenge, the armies of the French Republic developed a new approach to waging war. Under assault by Europe's great powers and faced with internal struggles, the French Republic mobilized the full range of its natural and human resources. The call for volunteers produced a mass citizen army, and the government moved to provide new officers, new organizations, and new tactics. The French Republic nationalized the economy to equip its patriotic army for a decade-long struggle to preserve the ideals of the revolution. *The A to Z of the Wars of the French Revolution* describes significant persons, places, events, encounters, and battles that substantially changed the nature of warfare at the end of the 18th century in Europe. Additionally, it gives a sense of the impact of these changes on the general course of human history, drawing connections between events to map out an entire time period of eventful change. The dictionary contains a detailed chronology from the declaration of the French Republic in 1792 to the Treaty of Amiens in 1802. Numerous maps help to orient the reader. The entries are efficient and generously referenced, giving the reader detailed knowledge while simultaneously allowing a broad picture of this crucial time period. An introduction provides a useful overview for the general reader. *Historical Bibliography as an Essential Source for Historiography* Bernadette Cunningham, Václava Horčáková, Kristina Rexová, 2015-10-05 This volume brings together papers presented at the Fifth International Conference of the European Historical Bibliographies Project held in Prague on November 7-8, 2013, under the auspices of the Department of Historical Bibliography of the Institute of History of the Academy of Science of the Czech Republic. The conference attracted bibliographers, historians, and librarians from Denmark, France, Ireland, Lithuania, Germany, Switzerland, and from a number of Czech institutions and libraries who gathered to discuss a wide range of topics. The main theme of the conference was the significance of historical bibliography for historical science. Given the diversity of professional focus among the conference participants, this topic was approached and examined from a variety of viewpoints. The most important outcomes of these meetings were firstly explaining the way individual participating organisations dealt with historical bibliography and secondly providing a comparison of different methodological and technological approaches for processing specialized bibliographies in various European countries. This book introduces the wider public to the current shape and prospects of historical bibliography projects across a range of European countries. Obviously, such projects must reflect the needs of their users, which mainly comprise historians and librarians. The ongoing development of historical bibliography does not only involve a technical challenge but also a

methodological one as well as a societal one when interpreted in a broader context Mutual communication helps form the future direction of historical bibliography which will undoubtedly face many new tasks and challenges End of the Affair Eleanor M. S. Alexander,Martin Evans,J.F.V. Keiger,2002-08-21 The Algerian War 1954 62 was one of the most prolonged and violent examples of decolonization At times horribly savage it was an undeclared war in the sense that no formal declaration of

hostilities was ever made Bringing to an end one hundred and thirty two years of French rule the Algerian struggle caused the fall of six French prime ministers the collapse of the Fourth Republic and expulsion of one million French settlers This volume bringing together leading experts in the field focuses on one of the key actors in the drama the French army They show that the Algerian War was just as much about conflicts of ideas beliefs and loyalties as it was about simple military operations In this way the collection goes beyond polemic and recrimination to explore the many and varied nuances of what was one of the historically most important of the grand style colonial wars

"The Centurions Vs The Hydra": French Counterinsurgency In The Peninsular War (1808-1812) Major Philippe H. Gennequin,2014-08-15 Considered the first documented commitment of a Western style army facing a nation wide insurgency the Peninsular War deserves a critical examination of French pacification methods In spite of a severe defeat the Grande Armée achieved success while conducting counterinsurgency operations in Aragon and Andalusia Based on Spanish French and British primary sources this thesis intended to examine if these results were connected to the personality of great commanders flexible small unit leaders or external factors The underlying rationale was also to produce a broader picture on French counterinsurgency while bridging the imperial experience with the colonial period The comparison of Marshal Soult and Marshal Suchet's case studies demonstrated that French officers solved their operational dilemma in different manners But the analysis also outlined a common denominator to their practices Leverage of religion build up of native security forces and development of an influence driven campaign constituted the major tenets of this nascent doctrine of counterinsurgency
