Hodgson, 2009-05-15 The final installment in the groundbreaking The Venture of Islam series a monumental three volume interpretation of Islamic civilization Review of Middle East Studies The Venture of Islam has been honored as a magisterial work of the mind since its publication in early 1975 In this three volume study illustrated with charts and maps Hodgson traces and interprets the historical development of Islamic civilization from before the birth of Muhammad to the middle of the twentieth century This work grew out of the famous course on Islamic civilization that Hodgson created and taught for many years at the University of Chicago In this concluding volume of The Venture of Islam Hodgson describes the second flowering of Islam the Safavi Timuri and Ottoman empires The final part of the volume analyzes the widespread Islamic heritage in today s world Praise for The Venture of Islam This is a nonpareil work not only because of its command of its subject but also because it demonstrates how ideally history should be written The New Yorker In placing Islamic society in a context encompassing not only Islam outside the Middle East proper but contemporary societies such as western Europe and China he provides a perspective sorely missed in most works on the subject Linda C Rose History Bulletin ,1897 Diversity and Evolutionary Biology of Tropical Flowers Peter K.
