Secret Session Speeches:

Secret Session Speeches Winston S. Churchill, 2020-10-01 This collection of addresses to the House of Commons during WWII provides unique insight into the British Prime Minister's wartime leadership. During World War II security was so precarious that the House of Commons was at times forced to meet in secret in order to keep its counsel from reaching the enemy. On five separate occasions between 1940 and 1942 Winston Churchill addressed the secret assembly. Those fateful speeches are reproduced in this collection. Here Churchill delivers his immediate reactions to the fall of France, the discovery of a vast enemy armada in the English Channel and the fall of Singapore which may have been the most heartbreaking and costly military failure of Churchill's career. These speeches offer intimate insight into Churchill's thinking in this highly consequential period. Originally published in 1945 *Secret Sessions Speeches* provides fascinating context to some of World War II's most significant events and continue to carry great weight and meaning today. **Secret Session Speeches**, 1946

For much of the media and civil society there now exists a constitutional convention which mandates that the Government consults Parliament before commencing hostilities. This is celebrated as representing a redistribution of power from the executive towards a more legitimate democratic institution. This book offers a critical inquiry into Parliament's role in the war prerogative since the beginning of the twentieth century evaluating whether the UK's decisions to engage in conflict meet the recognised standards of good governance, accountability, transparency and participation. The analysis reveals a number of persistent problems in the decision making process including Parliament's lack of access to relevant information, government legalisation of parliamentary debates which frustrates broader discussions of political legitimacy and the skewing of debates via the partial public disclosure of information based upon secret intelligence. The book offers solutions to these problems to reinvigorate parliamentary discourse and to address government

withholding of classified information It is essential reading for anyone interested in war powers the relationship between international law and domestic politics and the role of the Westminster Parliament in questions of national security
