Secrets Of The Lost Races New Discoveries Of Advanced Technology In Ancient Civilizations:

Secrets of the Lost Races Rene Noorbergen,2001 An increasing number of historical and archaeological finds made around the world have been classified as out of place artifacts ooparts They have been called this because they appear unexpectedly among the ruins of the past with no evidence of a preceding period of development their technological sophistication seems far beyond the capabilities of ancient peoples Drawing on the literature and art of the Chaldeans Sumerians Babylonians and others Rene Noorbergen s contention is that a superior race of man was responsible for these scientific marvels that bear testimony to a civilization with technology comparable to our own

Lost Knowledge Benjamin B. Olshin,2019-02-19 *Lost Knowledge* The Concept of Vanished Technologies and Other Human Histories examines the idea of lost knowledge reaching back to a period between myth and history It investigates a peculiar idea found in a number of early texts that there were civilizations with knowledge of sophisticated technologies and that this knowledge was obscured or destroyed over time along with the civilization that had created it This book presents critical studies of a series of early Chinese South Asian and other texts that look at the idea of specific lost technologies such as mechanical flight and the transmission of images There is also an examination of why concepts of a vanished golden age were prevalent in so many cultures Offering an engaging and investigative look at the propagation of history and myth in technology and culture this book is sure to interest historians and readers from many backgrounds

Lost Race of the Giants Patrick Chouinard,2013-09-28 An exploration of mythological and archaeological evidence for prehistoric giants Examines the many corresponding giant mythologies throughout the world such as the Greek and Roman titans Norse frost giants and the biblical Nephilim Reveals recent finds of giant skeletons in the deserts of Saudi Arabia and India Explains how giants passed on their sophisticated culture and civilization to humanity before being wiped out in the great age of cataclysms and floods Giants are a cornerstone of the myths legends and traditions of almost every culture on Earth Stories of giants are often considered fantasies of the ancients or primitive attempts to explain natural phenomena but archaeological discoveries of 10 and 12 foot skeletons many of which have been suppressed confirm the existence of a forgotten golden age of giants before recorded history Patrick Chouinard examines the staggering number of corresponding giant mythologies throughout the world such as the Greek and Roman titans Norse frost giants the Hindu Daityas the biblical Nephilim the Celtic Formorach the Sumerian Anunnaki and the multitude of myths in which the sky or world is held aloft on the shoulders of a giant He links these stories to Atlantis as well as other legends of prehistoric civilizations lost to cataclysm and great floods whose survivors spawned the rise of ancient civilizations The author reveals how physical remains of giant size peoples have been found on

almost every continent including recent finds in the deserts of Saudi Arabia Afghanistan and northern India as well as hundreds of excavations of giant mummies and skeletons across the United States corresponding directly with Native American accounts of red haired giants He also examines reports from famous explorers such as Magellan Sir Francis Drake and Desoto of their encounters with giants on the North American continent Revealing how giants represent the true earthborn race Chouinard explains how they engaged in open conflict with the extraterrestrial gods who created humanity for forced labor and how they passed their sophisticated culture and civilization on to humanity before being nearly wiped out in the great age of cataclysms

The Yugas Joseph Selbie,David Steinmetz,2011-08-16 Millions are wondering what the future holds for mankind and if we are soon due for a world changing global shift Paramhansa Yogananda author of the classic Autobiography of a Yogi and his teacher Sri Yukteswar offered key insights into this subject They presented a fascinating explanation of the rising and falling eras that our planet cycles through every 24 000 years According to their teachings we have recently passed through the low ebb in that cycle and are moving to a higher age an Energy Age that will revolutionize the world Over one hundred years ago Yukteswar predicted that we would live in a time of extraordinary change and that much that we believe to be fixed and true our entire way of looking at the world would be transformed and uplifted In The Yugas authors Joseph Selbie and David Steinmetz present substantial and intriguing evidence from the findings of historians and scientists that demonstrate the truth of Yukteswar s and Yogananda s revelations

Revelation Revealed Nick Peros,2022-03-22 Revelation Revealed is a study of the book of Revelation It is not an end times book in that it does not seek to identify current events in the light of Bible prophecy rather Revelation Revealed examines the book of Revelation itself what are its key imagery and symbols What do they mean What are the timelines of the book What is the sequence of events What are the Days of Noah Who is the Beast and how do we understand him What is the mark of the Beast How do we understand Babylon the Great the Mother of Prostitutes Is there a rapture All of these questions and many more are addressed with all questions being approached exclusively from the standpoint of Scripture itself it is Scripture which answers these questions for us and clear conclusions are reached The events outlined in the book of Revelation are the most prophesied events in the Bible and Revelation Revealed shows that the book of Revelation is understandable for God has given us all that we need in order to understand it

Atlantis Shirley Andrews,2018-02-07 You know of it through song and legend the golden civilization of Atlantis which sank into the cold depths of the sea ages ago But few know the truth about Atlantisor the geological and metaphysical evidences that suggest it really existed What have scholars unearthed of Atlantiss society and history How about its mystical and religious beliefs art and architecture and its peoples knowledge of science and healing Is it possible that the tremendous achievements of the Atlanteans were aided by extraterrestrial contact Shirley Andrews uncovers the living legacy in Atlantis Insights from a Lost Civilization a compelling new look at a legendary country once situated on the Atlantic Ridge The author has traveled extensively to conduct her own comprehensive research

which she synthesizes with the work of hundreds of other Atlantis researchers classical and modern scholars scientists and respected psychics like Edgar Cayce Survivors of this fabled land have made their mark on cultures all over the world and their descendants walk the earth today Learn how the legacy of Atlantis can help us bring our own world into a new age of peace and enlightenment *How Antigravity Built the Pyramids* Nick Redfern, 2025-09-12 Discover the Lost Secrets of the Ancients and the Time When Stones Floated High over Egypt Throughout history folklore and mystery tales have circulated of massive stones being moved through the air effortlessly by sound Bizarre Well yes it is That doesn't take away the fact that sound was and still remains the key to the construction of the pyramids of Egypt Stonehenge the stone figures of Easter Island and the massive stones at Baalbek Lebanon Were they the work of ancient humans or of equally ancient extraterrestrials *How Antigravity Built the Pyramids* delves into specific stories and theories A 9th century story of a mysterious papyrus with the power to move large stones at the Giza Necropolis The Mayan story of the construction of the Pyramid of the Magician said to be overseen by a small humanoid who could whistle large stones into place Native American stories of ancient priests being able to make stones light to move easily Author Nick Redfern argues it was not literally music and whistling that somehow raised large stones but both have one thing in common sound Acoustics Almost certainly acoustic levitation was at the heart of these incredible feats The truth of the science behind acoustic levitation was lost and forgotten for ages with little more left than fanciful tales of music whistles a curious papyrus and strange metal rods that could achieve incredible feats in the air Today we are finally starting to get a grasp on this incredible technology a technology that may have been the work of ancient humans aliens from faraway worlds or perhaps a combination of the two

The Metaphysical World of Isaac Newton John Chambers, 2018-02-13 Newton's heretical yet incisive writings on theology spirituality alchemy and prophecy written in secret alongside his *Principia Mathematica* Shows how Newton's brilliance extended far beyond math and science into alchemy spirituality prophecy and the search for lost continents such as Atlantis Explains how he was seeking to rediscover the one true religion that existed prior to the Flood of Noah when science and spirituality were one Examines Newton's alternate timeline of prehistory and his study of prophecy through the Book of Revelations including his prediction of Apocalypse in the year 2060 Isaac Newton 1643-1727 is still regarded by the world as the greatest scientist who ever lived He invented calculus discovered the binomial theorem explained the rainbow built the first reflecting telescope and explained the force of gravity In his famous masterpiece *Principia Mathematica* he described the mechanics of the physical universe with unimagined precision proving the cosmos was put together according to laws The perfection of these laws implied a perfect legislator To Newton they were proof that God existed At the same time Newton was writing *Principia Mathematica* he was writing a twin volume that he might have called had it been completed *Principia Theologia* Principles of Theology This other masterpiece of Newton kept secret because of the heresies it contained consists of thousands of essays providing incisive answers to the spiritual questions that have plagued mankind

through the ages Examining Newton's secret writings John Chambers shows how his brilliance extended into alchemy spirituality the search for lost continents such as Atlantis and a quest to uncover the corrupted texts that were rife in the Bibles of his time Although he was a devout Christian Newton's work on the Bible was focused not on restoring the original Jewish and Christian texts but on rediscovering the one true religion that existed prior to the Flood of Noah when science and spirituality were one The author shows that a single thread runs through Newton's metaphysical explorations He is attempting to chart the descent of man's soul from perfection to the present day The author also examines Newton's alternate timeline of ancient history and his study of prophecy through the Book of Revelations including his prediction of an Apocalypse in the year 2060 followed by a radically transformed world He shows that Newton's great hope was that these writings would provide a moral compass for humanity as it embarked upon the great enterprise that became our technological world

study offers new commentary and explication of a major milestone in cartography Correcting earlier work of Paul Kahle and pointing out the traps that have caught subsequent scholars McIntosh disproves the dubious conclusion that the Reis map embodied Columbus's Third Voyage map of 1498 showing that it draws instead on the Second Voyage of 1493-1496 He also refutes the popular misinterpretation that Reis's depictions of Antarctica are evidence of either ancient civilizations or extraterrestrial visitation McIntosh brings together all that has been previously known about the map and also assembles for the first time the translations of all inscriptions on the map and analyzes all place names given for New World and Atlantic islands His work clarifies long standing mysteries and opens up new ways of looking at the history of exploration
