Books in Print ,1979 This Business of Living Cesare Pavese,2017-09-08 On June 23rd 1950 Pavese Italy s greatest modern writer received the coveted Strega Award for his novel Among Women Only On August 26th in a small hotel in his home town of Turin he took his own life Shortly before his death he methodically destroyed all his private papers His diary is all that remains and for this the contemporary reader can be grateful Contemporary speculation attributed this tragedy to either an unhappy love affair with the American film star Constance Dawling or his growing disillusionment with the Italian Communist Party His Diaries however reveal a man whose art was his only means of repressing the specter of suicide which had haunted him since childhood an obsession that finally overwhelmed him As John Taylor notes he possessed something much more precious than a political theory a natural sensitivity to the plight and dignity of common people be they bums priests grape pickers gas station attendants office workers or anonymous girls picked up on the street though to women the author could as he admitted be as misogynous as he was affectionate Bitter and incisive This Business of Living is both moving and painful to read and stands with James Joyce s Letters and Andre Gide s Journals as one of the great literary testaments of the twentieth century **Living Whole Without a Better Half** Wendy Widder, Bombarded by the good

intentions of others singles find themselves in a mad pursuit to find their better half instead of living the whole life God intended for all of His children Their obsession to lose the single label may rob them of His richest gifts Retracing the steps of such Bible characters as Abraham Moses and Jacob who all tried to reason and bargain with God Widder shows us how to look at the single life through a fresh perspective God s view of an incredible opportunity Orphans of Islam Jamila Bargach,2002-02-26 Orphans of Islam portrays the abject lives and excluded body of abandoned and bastard children in contemporary Morocco while critiquing the concept and practice of adoption which too often is considered a panacea Through a close and historically grounded reading of legal social and cultural mechanisms of one predominantly Islamic country Jamila Bargach shows how the surplus bastard body is created by mainstream society Written in part from the

perspectives of the children and single mothers intermittently from the view of adopting families and employing bastardy as a haunting and empowering motif with a potentially subversive edge this ethnography is composed as an intricate open ended and arabesque like evocation of Moroccan society and its state institutions It equally challenges received sociological and anthropological tropes and understandings of the Arab world **Framing the Polish Home** Bożena Shallcross,2002-12-31

As the subject of ideological aesthetic and existential manipulations the Polish home and its representation is an ever changing phenomenon that absorbs new tendencies and at the same time retains its centrality to Polish literature whether written in Poland or abroad Framing the Polish Home is a pioneering work that explores the idea of home as fundamental to the question of cultural and national identity within Poland's recent history and its tradition In this inaugural volume of the Polish and Polish American Studies Series the Polish home emerges in its rich verbal and visual representations and multiple material embodiments as the discussion moves from the loss of the home during wartime to the Sovietized politics of housing and from the exilic strategies of having a home to the idyllic evocation of the abodes of the past Although as Bożena Shallcross notes in her introduction few concepts seem to have such universal appeal as the notion of the home this area of study is still seriously underdeveloped In essays from sixteen scholars Framing the Polish Home takes a significant step to correct that oversight covering a broad range of issues pertinent to the discourse on the home and demonstrating the complexity of the home in Polish literature and culture Guía para caminantes Tristan Gooley,2020-04-17

The state of unrest helps us see the ordinary affects of the sovereign order but it also points to crowds as the essential component in the production of unrest. The atmospheres produced by crowds seep out from the squares and parks of occupation settling on cities and states. In these new atmospheres new possibilities of political and social organisation begin to appear. In short, crowds create the affective condition in which the settlement at the heart of the sovereign order can be revisited. This text thus develops a theory of sovereignty which places protest at its heart and a theory of protest which starts from the affective valence of crowds. This book's examination of the relationship between sovereignty and protest is of considerable interest to readers in law, politics and cultural studies as well as to more general readers interested in contemporary forms of political resistance.
