show that the opposing needs occur within a variety of contexts from health issues such as HIV AIDS to television talk shows Readers will discover that avoiding disclosure is a dominant theme In this way the authors demonstrate how people balance privacy and secrecy by deemphasizing openness Taken as a whole this volume offers a refreshing new look at age old concerns

Writing the Self Peter Heehs,2013-02-14 The self has a history In the West the idea of the soul entered Christianity with the Church Fathers notably Augustine During the Renaissance the idea of the individual attained preeminence as in the works of Montaigne In the seventeenth century philosophers such as Descartes formulated notions of selfhood that did not require a divine foundation in the next century Hume grew skeptical of the self s very existence Ideas of the self have changed markedly since the Romantic period and most scholars today regard it as at best a mental construct First person genres such as diaries and memoirs have provided an outlet for self expression Protestant diaries replaced the Catholic confessional but secular diaries such as Pepys s may reveal yet more about the self After Richardson novels competed with diaries and memoirs as vehicles of self expression though memoirs survived and continue to thrive while the diary has found a new incarnation in the personal blog Writing the Self narrates the intertwined histories of the self and of self expression through first person literature
